14 DEC 95

1. Leslie Elbert: email from Roger Steyer
2. Linda gather 104(e) - done & FAXed

15 DEC 95 (in Marysville)

Kay: Frank & Janet said now is not right time to look uncooperative - should make myself available for RO's meeting this week
- see: only if RO actually wants us at actual conference meeting

17 DEC 95 → 02 JAN 95 WEEKS 7/05 - 7/06

02 JAN 95 WEEK 7/07

1. look at mail
2. look at RTF stuff
3. talk w/ Joe about what he worked on
- segregate job for RTF & bibliography
- library for bibliography
4. talk to Kay about injury workshop
5. talk to Jack: re wpa or Pharmacia contract records
6. talk to Jack, Victor, & Kay about injury workshop
- eagle work not pressing
- Victor & Kay work on elements of proof & data available
- shoot for week of 18th (Cheryl put together data)
- DOE/PCB effects or eagles; appears in Green Bank Kay
- groups for PCB eagle injury; if yes what further data needed to pin down (pathway & injury); what will this contribute to case [Victor]

04 JAN 95

1. read
2. talk w/ Joe
3. Kay: talked w/ Victor & Cheryl
- meeting instead of call
- probably in Chicago (LE office @ O'Hare)
- 18th; maybe 17th; maybe happy at MON or TUE
- Victor will be able confirm by Mon
- Cheryl will distribute info. by 18th
- issues: DOT/PCB authorization; list of participants (Bob Elliott, Linda Walbach, Dan Reilly, Jr., Chuck Stoll, Bonneville Power Admin.); pathway (monitoring area; whole feeding unit for) (radio telemetry)
- Cheryl will set up for catching eagles, in case your light
- ask group ahead of time look at DOT/PCB for the case (settle once and for all)

05 JAN 95

1. Victor: Yukiok willing to come off furlough over; may not be able to travel: NRDA funds to cover?
- any news or settlement by Feb?
2. talk to Kay about ↗
3. ELK

WEEK 1/08

08 JAN 95

1. call Sue Kozak: she never got awarded acquisition request
2. Jackie: thought she set it; will check
3. ELR
4. staff meeting
5. RO – RO mid conference call: ~~scheduled by~~ status of RFP
6. Jack: contact people about 16th or 17th
   - also, put something together about funding issue
   - also, must let Bryan go; may bring Joel back to NRAD if enough $
7. Ray: talked to Chuck Berry about eagle meeting; face-to-face preferred; need to collect feedback requirements added agg
8. call Shelly: left message about 16th/17th/18th meeting
9. call Jackie: left message about 16th/17th/18th meeting
10. call Jack Lipton: available 17th (also 18th if eagle meeting moved/cancelled
    - CR re POR budget decision; could do reduced planning effort and/or fast penalty
11. Ray: Joe Dodson approved room for 16th all day
12. call John Voss: left message

09 JAN 95

1. ELR
2. updates for Joe
3. Hector: left him about meeting delay/reason; he will call ~~Voss~~: told about Chuck's thoughts on fast eagle; have Ray call about SOPs
4. call Joe Dodson: left message on voice mail and ~~fax~~ note mail to cancel room for 16th AM 95
5. call Mike Sargiani about 17th meeting; left message
6. WP ~~s~~ to Jackie

10 JAN 95

1. update or resume
2. Joint: fund. & part. agreement? no new info. what do people want? Legal dr (me? Shelly); issue for Shelly; flip charts
3. John Lindsay: NOAA guy will call Hartwig
4. Board, Janet, Ray, Joe, me
   ① FOIA: e-mail on what FOIA response; awaiting Shelly's comments
   ② last 3 days at RO; ~~Joe~~ Shelly & Karla not coming 17th nor 18th. Christian & Hartwig found out from Nelba – 18th 11-1 – PRPs only; Shelly wants more time for fund. & part. (Shelly locked out); come in Thursday or the 17th
   ③ fund. & part. agreement – subject to two parts (Christian wants) – 1 step beyond flip charts
   ④ contingencies for budget
   ⑤ Hartwig will talk to Priscilla about OTS help & career after the Aug. & Diego Bay; have Tom Jacobus monitor meeting w/o telling Shelly; Hartwig wants fund. & part agreement in Feb (1st & 2nd read; 3rd if necessary)

11 JAN 95

1. tell Jackie we need $ figures for RP: salaries + NRAA $
2. Joel: meeting update
3. messages fr John Rose + Mike Lobergeier
4. resume + reference
5. call Tom Custis: update
6. call Leslie Lehart
   - not necessary (in Leslie's opinion) for her to attend 18th PRP meeting if PRI position only
   - update
   - may participate by phone on 17th
7. call Shelly: left message
8. ELR; send info to Brad, Shelly, Leslie, Cathy, Janet
9. scope of work to Jackie for Steven support

16 JAN 95

WEEK 7/09

1. Shelly
   - Mike Klett; David Burke; Joyce Dodge; now w/ Bedford Austin; meeting w/ Shelly Slate or Lindsay
   - talked about AMT + PRPs
   - talked about FARA
   - talked about funding + participation: general + agency-by-agency
2. talk w/ Janet + Brad about tomorrow
3. talk w/ Janet + Brad about tomorrow
4. read materials for tomorrow

17 JAN 95

1. read info. for meeting
2. read manuscript on PCB model by Hughes
3. read ANAP + annotate
4. meet w/ Janet Train, Joel, Shelly
   a. Budget (Shelly divulged #'s (Joel in the room)): $708K can be spent through January ($589 of 81.7 plus $118 carryover awaiting DAS signature
   - Litigation (if $1.3M available for phase III)
     ① meet w/ eagle people for options $300K
     ② meet w/ fish people for options $100K for planning the restoration for habitat as well as protection
     ③ $500K economics (due to injury) (CVM-like, acknowledge survey work to justify restoration; also file w/ NOAA
     ④ $300K cushion (if get more $, add to injury case: (sale/fish creation)

   what to fund only $450K for phase III
   ① fish/birds: $300K (more something)
   ② water planning: $50K (offset by headwaters effort for phase 2)
   ③ economics: $100K (work on CVM)
   ④ contingency: $0K

   what can PRPs contribute to? (both teacher)
   ① Joel has overcharge
5. meet w/ John Christian and Janet Smith: dedicated troops: 20 positions (15 w/ Region; 14 to R4 + R1) - more bar gale limit; new CR may use lowest #'s from House, Senate, or 1995 - could we - Joint RIFA

- not to exceed $230K w/o further approval (Chrysler, Ford, GM; Janet to do K.)

- NRDA - need to show Bill progress on prong 2; John C. may meet w/ State (Kevin Baker); other discussion

6. Meet w/ Mary, John C., Shelly, Josh, Rob Nelson, Janet - preparation for PRP meeting; review progress - ask for confirmation of willingness to participate in that manner; tell them we want to hear about other PRPs - give us info; use presentation of info as impetus to info requests & data collection to prove contributory allocation
- backed out schedule for FPA (draft of 26 JAN 95; PRP meeting on 23 FEB 95 (other steps on calendar)
- Josh presentation on FPA ideas (see over heads)
  ① restoration planning (a la FRC)
  ② NRDA
  ③ project acceleration: show that system is broken - slap on; desire settlement w/ injury proof (cost) as prong 2 large deposit for the study for a fused headed
  ④ PRP funding: to Good Committee; ① restoration work group; GIS system data collection; fund novel restoration technology research; Cooper assess. Plan; Group A.D.; PRP source allocation; funding of studies
7. Chief Planning (Sam)
- FRN on ANAA: hold it (Planning) until after FPA negotiation further

1. FPA letter (draft to Rick & Shelly)

18 JAN 95

1. meet w/ Shelly on Josh's PRP participation issue
2. PRP meeting (see sign-in sheet)
- intro (Planning); players need to be brought in (other PRPs, USDOE, other co-trustees, other agencies); 2 proposed approach - sequence; restoration is common goal; draft FPA for next meeting - attempt to get resolution on issues & back to FPA
- Mandelbaum: NCR substituted PRP (most substantial) - see handout; AT&T Global became NCR again; successor to Appleton Coated Papers Corp. (offspin of the Appleton Papers); all of the PCBs from de-inking is from NCR paper (product) - contained PCBs as dye-solvent & the coating itself was produced in Botany; Coating done at 3 plants + 2 on Fox River, val. Appleton Coating; Also Combined Locks Co.; both had PCB discharge w/ Aroclor 1242; Admission of PCB discharge in AT&T v Appleton Papers dep; also supplemented by PRP records & Appleton Public Library; also NCR produced waste & broke (off-spec product after coating applied); broke was sold to recyclers - val. on the Fox River; that qualifies as arranging for disposal under CERCLA - recognize contours in courts; in addition (more important to PRPs than trustees) allocation issue! U.S. v. Atlas Mills on successor corporation liability: NCR would have substantial share of responsibility for PCBs in normal commercial production for de-inking; NCR was only entity which [illegible] of the PCBs - current PRPs are like a POTW in pass-through; AT&T probably would come to table w/ PRP letter

1. M.A. email info request to Dick

- additional PRPs: 2 POTWs (Appleton and Neenah-Menasha); also PCBs found in effluents in 1970s (later periods) but consistent detection/process over time
- Van Lieshout or other PRPs - will send info soon; VERSAR 1977 report (we have this - interviews of WDNR, misc.); Eberart - provided data of PCBs in effluents; will send 2 tables from that; game the ball.
- Mandelbaum: also other compilations; Green Bay Mass & Depos; may have discharge 1258 Arcadia
- Van Lieshout: will send relevant portions; also looking for additional info.
- Hartwig: need smelter material; send more; we will be requesting information from AT&T, as well as other PRPs; we need to understand fully & be complete;
- Hanson: 104(e)?
- Shelly: probably.
- Heller: want to talk about who should get 104(e)s; Star Material is key player; PRPs can point us in right direction
- Hartwig: once past PRP issue, can delve into 2-prong approach; Restoration planning needs much more work
- Mandelbaum: should get PRPs in quickly before too much further
- Hanson: PRP version of FPA, as well; will send version for consideration
- Hartwig: next meeting - maybe 23 PRP. Shelly: but must coordinate w/ trustees; on 23rd - negotiate FPA

1. M.A. 1. [illegible] 1. Claudia Johnson - Shelly Mark Holst

3. talk Shelly & PRPs about AT&T contacts
4. Dr Bruce w/ Hartwig and Dirks
- need close coordination w/ Dirks; need Dirks to relay acceleration of process
- Janet Seal or keeping Dirks on schedule (pre-meetings w/ Dirks & Potts co-trustees
- FPA ASAP; can attempt to incorporate some of their ideas in their versions; can't use SOL till for litigation stay
- Bill will call George Meyer today
- Shelly: MI G-trustees? could have it w/ PRP letters also need contact w/ EPA and NOAA and ACOE (Shelly & Dirks) Janet
- AT&T analysis: early next week decision
- other PRPs: make a communications ASAP
- reports: share info. w/ co-trustees; but don't make copies
5. Conf. call w/ Charlie Wooley, Lisa Williams, John G, Dick, Janet, Shelly & Bob Nelson
- MI cotrustee letter: go ahead; probably won't play; Charlie may talk to Hartwig to get "one" reaction
- EPA contacts: Stan Rhoads (ORC) @ EPA is the contact (Shelly) Leslie worked on that)
- EPA/GM meetings or CNTS @ Bay. Bay: respond issue (3.0 ppm trigger objectionable to GM)
6. work on schedule of activities w/ Shelly, Frank, Janet

17 JAN 96: stay here: PRP info: call Mike Lobrano w/ updates talk to be about [illegible]

3. ~~Kick~~ PRP recommendation 22nd; any letter 26th

22 JAN 96

1. PRP letters; info requests: recommendations to Frank, Shelly, Julie, Janet, FAX & email (call ATT and WC Bx of State) (call ATT & AK registered agents of State) WEEK 2/10
2. Bay mail
3. talk to Bob Rowe about GLNPO G.L. recon report; send - he will copy & return
4. Shelly: return message
5. K: wants to talk about phrases under 50% cut scenario
6. call Dean about 8th co-trustee meeting
7. call Bob Kerr about 8th meeting (co-trustees): left message w/ George Voulelis
8. Shelly: Hall
   - FA: ① what are triggering events for participation; how does it end?
   ② 8200K/PRP? right amount for PRP parties?
   ③ Assessment area definition needed
   ④ Copy 5 titles not filled in yet
   - she will call tomorrow
   - AT&T discussion and PRP letter discussion tomorrow
9. work on memo to file → Fuchsman on GLNPO proposal; FAX & to Donna for mail
10. travel voucher to Dana
11. read

23 JAN 96

1. update calendar
2. read & catch-up on file
3. call Julie Libert: update
4. finish reviewing AK/AP
5. Donna Lane: send info. on allocation of responsibility
   - put together materials w/ note to Donna
   - give to Donna for copy
   - highlight index file
   - send
6. call Linda Voelat
   - Saginaw Bay CATS; main issue is re-open, not accept of RAP CATS
   - Green Bay could end up in same place: Thursday will probably make contact w/ Dave or Val on the issue: we need to add substantive ORC/BFCAP discussions to GLNPO policy discussion; also Tribal issue (not opposed to Tribal involvement); finds will about Val & Dave
   - update
7. call Dean about S: talked about Bay Bay - Green Bay; she will FAX ORC memo on Saginaw Bay
   - I will send draft letter up for RO → EPA w/ the message (need ORC/BFCAP to agree Dean Bay; worries about wet meadows & Tribes; Phase 2 probably; for Rowe - maybe a little [illegible] ② add ② others] [restoration plans] [recon] [civ]
8. Tom Custer: 8 for fall comm; Thomas 1 yr; R. may [illegible]

9. John Rose: moving of 9th retreat of 8th for co-trustee meeting; tribal chairman in D.C. & wants to be @ the Kaibab meeting
- call Dick, Shelly, Mike Lobsiger (message)
10. Nancy Spencer: aquatic toxicologist @: 202-514-1308
- call Tom Custer for Colby Schuelle #: not there
- look up U. of AZ coop # @: 602-621-1959; wrong #, not @ U of AZ
- call F.F. & Son: 505-848-8126 (N.M.)
- call N.M. Coop
- call Nancy Sperer: left message
11. Tom Custer: read memo RO → NBS for technical assistance @ Lobsiger & Wis. R.: clear path for Tom w/o formal study plan (overhead)

24 JAN 96
1. RO - RO-Wide conference call: directed transfers coming w/in region; furlough likely if 25% cut in C.R.; RO wants RIF authority if severe cuts (e.g. 25%) but SEC does not; '97 will likely be slightly worse ∴ elimination of some positions and programs is a likely necessity; speed of decrease will dictate necessity for attrition vs. attrition w/ furloughs vs. RIF
2. read
3. draft agenda for John Rose; fax to John, Mike Lobsiger, Shelly, Ernie, Janet
4. Lisa (Hayden) (303-449-5515x317): can they re-bind GLNO doc? yes
5. work on letter FWS, RD → EPA, RA; FAX to Wally, Janet; Brady, Shelly, Lisa, Bonnie
6. Dear Face: manuscript; glacial only; surprised by LK on > Dear Bay

25 JAN 96
1. Mandy Meador: still pregnant; 203 weeks from now (max # per day to reduce variability: 2-300 gm/d); have Lansing #s: could prob. use @ Baltimore/Washington airport; 301-497-5710
2. answer fax
3. Talk to Jim about scenarios up to 50% cut; fold: 4 tapes
4. read Sea Lion book
5. Shelly Gall
- FAX to me on Friday; post for R.I.; not implementation; 30 days after R.I. Shelly alert implementation in good faith; subsequent agreement will go into cost issues; sector or location, as well; still have questions on termination & costs, but can start to talk
- talk to Roger Gwinn for 1 pm yesterday; update the Kaibab Gal. from conference; glad we have Lopton; [redacted] J.J.; draft memo to Shelly; ORC very aware of Sea Bay; Shelly bringing up Glen Bay connection; Elko or Bay. Bay - doing well - risk analysis coll; Ernie & Bryant to brief ERC on NRDA - Shelly brought up Tuba
- in mail: package from Marbleburn or NCR
- Shelly will talk to Lee about comp. bed
- [redacted] Lisa available 8th, 9th, 12th, 15th
- MOC

- AT&T meeting: Mike Blatt (Colo), Dave Burks (Oregon), [illegible] will go on w/ other companies; subcommittee; need; may send letters to AT&T;
6. Call Frank

26 JAN 96
1. Mail [illegible] } fax for Rocky Mountain Arsenal
Rose Norton }
2. surname VRP letters for Frank; give to Jack
3. read

30 JAN 96: stay Alone (snow day off) WEEK 7/11
1. read Shelly's draft FAA; make notes
2. Laura, Ruby, Janet called about conf. call
3. Mr.: DCCO sex hates work; attempting to secure $ from NBS w/ Custer; update
4. conf. call w/ Shelly, Frank, Janet, Bill, Joe on FAA
- went through page by page
- Janet will check w/ Rose about 9th (Chairman must date change for attorney?); will call Frank back
- Frank will brief John C. & Bill R. today
- Shelly will send FAA to Colorado by FRI, unless 10 days must be tomorrow
5. read recon. book
6. read env. dispute book

31 JAN 96
1. clear mail
2. surname 104(e) letters & FAA to Frank
3. talk to John Rose
- 9th gear light; he will talk w/ Bruce Diesl
- move treaty rights discussion up in case Dick & Tallmadge leave early
- have Shelly bring conf. agreement & 9th (both signed versions)
- may want to talk about L. Otsego tissue samples from L. Winnebago
- find out if eaglet NCB hit @ MOW suburb congress
4. FAX 9th "gear light" to Frank
5. call Shelly about bringing conf. agree. to 9th meeting for John Rose (crossing)
6. finalize agenda for 4th; FAX to Frank, Shelly, John Rose, Mike Brogan, Janet Smith, Bob Heber
7. talk w/ Ralph
- Charlie Wooley briefed Hartung on Sudbury settlement. Hartung said that how he wants things done is not like Green Bay; Chester suggests that Howath & Allen could be sent to DELTA & have Charlie w/ Green Bay NRA; Hartung sees many unhappy w/ Green Bay NRA; Hartung sees many unhappy [illegible] Janet - way Ralph w/ Charlie & Dick [illegible] about Howath & Allen (Regional seniors); [illegible] Charlie says he doesn't really want Green Bay NRA. Chester to make, priority, familiarity

- Bert & I agree that track 1 looks preferable given Hastings / Chester meeting; probably headed for moving much closer to WDNR position to allow non-litigated settlement, even if much lower than our estimate; momentum of track 1 seems likely to push Hastings over edge - precipitate some move to re-structure Green Bay RAP
- Bert: additional alternative might be to have Bert take over Green Bay case from RO or WSFO
- Allen: additional alternative might be for Hastings & Chester to direct Hagle w/ I from Bert to accomplish their tasks w/o us (team)
- talked about DE position: Bert says might but expectations (& disappointments) could be high; check state politics and safety net if position doesn't work out

6. talk to Ken & Joe about last meeting in RO; Christine put Janet on spot to last meeting; Janet did not perform well; pressure may continue to build on Janet; staff in bad position because being hit in front of RD might exacerbate poor impression of Janet but so might letting her flounder; need to find ways to let them prepare for before she's in front of RD; difficult because message that she needs help might be unwelcome

01FEB96

1. call Patty about conservation easements
   - FWS has method & grassland easements
   - tax questions get referred to IRS
   - easements in OH 517-0720 Diane Mastbo; Jane Prohaska (TNC)
   - Lois Gilbert Conservation Trust for Public Land in [redacted]
   - doesn't fit FWS programs
2. call Dan about ___; left message
3. call Josh about contacts for picture State NRDA programs
4. call Steve about contacts for picture State NRDA programs
   - MN: Beth Ashabranner, Remedial Project Manager, MPCA, 520 Lafayette Rd, St. Paul 55155
   - WI: [redacted] Brenda [redacted] Hagman
   - IN: Jim Smith, IDEM; IDNR Wayne Faatz
   - IL: Cindy Morin, Fed. sites Federal Project Manager, Bradford Reg. Manager Section, IEPA (217-785-3258); Tom Bonahue, Tot. Assess. Unit IEPA (217-785-0830)
   - IA: no [redacted] there
   - MO: MDNR
   - MN: Dale P. Thompson, Program Unit II, Site Response Section, Division of Water Pollution Control, MPCA, 612-296-5897
   - MO: David Mosby, MDNR, Division of Env. Quality Reg. Manager, Hazardous Waste Program, P.O. 176, Jefferson City MO 65102 (314-751-3176)
   - MI: Rich Powers, Asst. Div. Dir. Surface WQ Div. MDEQ (517-373-1949), P.O. Box 30028, Lansing 48909; ER Division in charge of response actions (in past): Allen Howard (517-335-1104)

- MI: Bill Neal (517-335-4181), WQ Special Unit, G.L. + Env. Assess. Section, Surface WQ Division
- OH: OEPA
- Shelly has not surveyed 104(e) + PRP letters - Hardesty ready to sign; get Shelly to sign off
- Bob Davis w/ question: 140k base 1130 or GB fund
5. call [redacted] for Egypt about job opportunities
6. work on options for jobs
7. talk to Dan about Nature Conservancy + ODNR
8. note to Shelly + Hank on info. request
9. notice mail to Shelly on info. request

02FEB95

1. Linda Hall: sent message to Glick; he asked about public participation or type 2; I said that was / plus extra (Cuyahoga), I said that inaction will lead to crisis: ① to code, inspect. file; ② settle behind scenes; ③ declare false victory; I said real public involvement is essential for action; action for NRDA is post settlement / award
2. talk w/ Hard
3. merger re-drafted RIA; MOU; conf. agreement for Shelly
4. Hector: Federal contacts? Ron + Debra; Neil Hutt + Bowerman travel paid direct by FWS? yes.
5. email EPA letter to Hank
6. Shelly + Hank: modification to PRP letters; $ w/i 2 weeks (Committee approved; FWS memo sent); meeting on 9th; talked to Jack - on way to Cleveland; info. requests - put finance question back in; will beg EPA to volunteer on MOU; Cuyahoga Davis asked about FOIA response - not ready - put off; Dave Mandelbaum sent Proctor + Gamble, etc. info.

WEEK 7/12

05FEB95

1. Cheryl mail
2. talk to Ron + Janet about T.C.'s comments on FEA (too confrontational, etc.): too late for material change; can talk about on 9th; Conf. call probably can't be scheduled that week; Janet will handle; I should respond to TC comments + file prepared to discuss - but not distribute to anyone
3. Mike Lodgard: meeting where + when? when is draft FEA; told Janet
4. review Leslie comments + Shelly's re-re-drafts of FEA (note + merge)
5. note to base on T.C. + B.H. not on FOA
6. Janet
- T.C. wants us to re-circ + FEA w/ conf. agreement + less by alone + more emphasis on restoration plan; send to Leslie on WED - re-leg as alternative language on FRA

- I said that I could: ① repackage Quad FRC MOU; ② repackage Linbal Corp. agreement; ③ formally file objections for record, including OM + Selection Manual + Delegation regarding ultra vires re SOL (+ RPA, OERC, co-trustees, etc).

7. call Mike Sheppard: tell him RD must change; may have held up; also Shelly may not have sent; tell him to call RD + SOL

8. call John Ross re: one message: not there

06 FEB 96

1. John Christian: ① Shelly re: FPA; ② Janet + I do cover letter to Shelly; edit 3rd draft + send to Shelly; Thursday conf. call re: Shelly, Janet, Doug, etc.; tell to meeting on Tuesday to discuss; Bob C. available this morning, if needed (+ tomorrow); express will our comments to be told by Thursday;

- conf. agreement purpose: ① release PRP candy; ② create atmosphere of trust (out of paper); ③ prevent our people from talking to public; ④ we can figure out if need any discovery issues (maybe we should just write down Bob)

- talk to Bill also: FPA must come close to middle to prevent initial rejection; we can be firm then

- I said Tom likes the FPA; chris likes letter

- Bill/Bob must pay; need our report to stay in

- can call Lynn (Bose, for Christie)

- S/M trust fund; was taken out; thought to keep in; good idea, but modify to give control to S.C. instead of trustees only; could fund each stack; - we will negotiate each site as we go instead of all up front in FPA

- restoration plan provisions: FPA should say work group develops ideas for restoration plan (groundwater studies, etc., computer studies, etc); can force discussion in work group because we will include them in our restoration plan

- Shelly was upset yesterday - do need to help situation; call T.C. direct

- PRP letters went today

- info. requests in past four days: only change is took out 104(e) citation (typo out of letter); can send actual 104(e) letter later, if necessary

- time to inform: take time to do things or stack!

- talked to Bob about settlement outline: (Bill thinks reasonable): trust fund from PRPs over time (20 years or something); high # now, but after year/year, build in incentive for PRPs - innovative approaches to reduce liability

- Bill talked to Maryann Sumi; John will meet w/ Maryann next week: feelings out opportunities; if restoration prop works - might WORK, one of not co-trustee

2. Frank: took list from Shelly last night; Frank is going to disengage from this case - not room for him

- he will call back

2. talk to Kim about J.C. (details) ✓
- not coming to Kabra
- Shelly: PRI letters signed yesterday - last Oneita ck;
called Shelly; pulled Shelly out of Wagner meeting for
10 m.; J.C. came in + talked for one hour on FAA.
Shelly said doesn't want someone else writing her
draft
- Dan asked J.C. if he was to go to Kabra; no
- 104(c) letter: are to place to 104(a) in instruction booklet -
took out
- talk about J.C. conversation (details)
3. talk to Janet + Kim about J.C. conversation (general)
4. Discuss: problems setting WDNR date sate for
Eco - Can DA/ACA schedule date? no - Deb
letter; if problems FWP can pursue ops under
agmt
- talk beg about + clearing out - prepare for
visit of Phase II
5. call Sue Kozuel: left message with to pay (DSFES
FWD); also funding for 98 Board - prepare
for Task 4&5 of Phase II
6. talk Janet that Task I is operating ops to Bill
because OST funding/priority is Board on litigation
success

07 FEB 95

1. Shelly
- J.C. told her (MON) that she had to meet w FAA
this way Bill + John indicated; FBIO will re-write
- Shelly told him process stinks - FAA is conveying draft -
not appropriate for RD or HRD to attempt substantive changes
- John Christian backed off of position re: no or
draft FAA
- Shelly very unhappy w/ J.C.'s leadership in the FAA;
also upset w/ Christian's attitude; his
lack of understanding; his counterproductive interference
- I told her that Brad, Janet, Kim, and I share her
concern + impression of J.C.; also discussed that staff
here have indicated that such interference from J.C.
is routine
- I told her details of conversation w/ J.C. (the
Board) yesterday; told her J.C. intimated I
should be hearing from RD/HRD to Shelly; told
her he appeared to be trying to use me to get
to Shelly, but that his position has softened post-
NGA orientation w/ Shelly
- I told Shelly that I would continue to attempt to
find common ground between all members of team
and actual advancement of case; that I would
continue to operate w/ the confines of the complex
web of law, policy, situation as I understand it;
that I would relate her in all discussions, both
as attorney on case + trusted colleague
- Shelly said she can not operate w/ openness + candor;
will confront J.C. + Whitney if necessary; will escalate
if necessary; could give case over this
- I said that I will support my position w/ regard to

popularity (esp of my program) & that Shelly already knows most of my positions, and that those positions tend to track w/ Shelly more than D.C.

- conf. call tomorrow @ 9:30 am; 11:30 leave for D.C.

2. talk w/ Joe K, Janet, potential collision between team & RD/ARD - may be precipitated by Shelly's stance

3. review 2nd draft FAA for D.C. comment/inclusion

4. no fax last several days to FAA

5. John Voss
   - ~~leave~~ VERSAR document
   - he will get back for FAA copy (mine is scrambled one)

6. Janet: D.C. wants white by 3:30 today & wants conf. call w/ Shelly earlier
   - I said not possible
   - he said speed-bar fine talking
   - he offered to not inform Dr of development time-frame
   - she said didn't mean that

7. message from Diane Brashal; gave to Jackie; she needs documentation for sole source; told Dr; he said only one who does it; Jackie said wants it down

A. note to D.C. on inclusion/settlement strategies

B. work until 9:30 or 9:00 - FAX FAA comments & settlement strategies to Shelly, Dalie, John Chesnutt

08 FEB 96

1. conf. call w/ Shelly, Dalie, Janet
   - need more separation between progs - maybe 2 FAAs
   - prog 2 FAA could specify more detail on the type of discussions
   - RD and attorneys for sport - big problem
   - Shelly @ Raytheon

2. conf. call w/ Shelly, Dalie, Janet, John C.
   - Shelly: go to 2 FAAs; 1 document w/ 2 parts; attorneys will handle language; meeting tomorrow on concepts & ideas to be in draft FAA sent to PRRs
   - John C. wants to discuss language, even if not in detail; provide document
   - Shelly: purpose of schedule & conf. calls is to keep from drawings - works well; attorneys will also handle the negotiations
   - Pete Rayno joined
   - John C.: client should have input, even on language; managers interact with core team (FOT, attys); Bill & John had expectations; FAA good input - but changes needed (e.g., conf. agreement); John did not get draft FAA; had comments when saw
   - Shelly: attorneys will, of course, share drafts w/ FAA, DTA, OSC, DOJ; need to limit changes
   - John C.: management will approve products; Shelly, David, Dan & core; but several
   - Shelly: several must fit schedule
   - John C.: FAA has had for coordination w/ agencies; need proper comments

- John C.: ~~no~~ disagreement between J.C. & Shelly; need process to work out; can elevate to Bill H. & Pete Rayno-
w/ Leslie's input
- Shelly: hopefully won't come to that - PRPs are real opponent, not each other; need open process; 07 FEB 96 memo allows to Christian; no discussion before hand - premature; hope not ~~should~~ outside of F.E.O.; premature; DOJ & SOL very concerned about any settlement discussions w/o attorneys; pre-consultant discussions
- John Christian: ~~did~~ mentioned this @ last meeting
- Shelly: ~~written~~ documents not from SOL are very preliminary; privilege problem
- John C.: you were aware
- Shelly: no discussions on back; none outside DOE w/o SOL & DOJ !!!
- John C.: did not ask for that level of detail in writing; but very helpful to him; no intention of discussing w/ State; "settlement" based on fed litigation - prong 2 though could end w/ settlement & living in WOMR
- Shelly: attorneys must be involved in pre-litigation settlement discussions w/ State PRPs, etc.
- John C.: can't agree to talk w/ attorneys only; Bill talks to Strope & may need to talk to PRPs
- Shelly: difference between talking about moving together on process & talking about settling the matter
- John C.: Bill asked J.C. to talk w/ Meyerson about FFA & how to move forward, etc. - not 07 FEB 96 memo; framework issues
- Pete Rayno: NRDA different than other FWS programs; all endpoints and in relinquishing a claim: must have DOJ (& SOL) concur; different than 99% of FWS activities; must prevent FWS from going down path that won't sell; Shelly serves 2 hosses on NRDA: FWS & the SOL; tough job
- Shelly: just ask attorneys if they believe that they should be there; e.g., there is an attorney; Bill's efforts have gotten no further than attorneys could be; about some things will require attorneys
- Pete: SOL/DOJ had difficult time; collaborative (internal) will work
- Bill/Pete coordination may be necessary at times; fine (Pete & John C.)

* the proposal:
- J.C.: would like FFA that is collaborative (more on prong 2 than prong 1); NRDA: give up nothing - just share documents and mutual studies; determ by steering committee; Dennis come to get us there; or mediator sent: more open; chest environment to work on alternatives: primary and compensatory; very collaborative; one if need a few bucks to agree to success; $1 million figure taken out - need to float a number
- Leslie: 2 different documents needed: because & must be kept separate & negotiation of both at once too difficult;

- tell PRPs the whole amount for the assessment – let them make an offer & talk about it
- V.C.: push forward at meeting on FKT
- Shelly: NRDA must stay on track – 1st priority; track 1 will be narrow, track 2 limited time frame (if to be relevant and workable); collaboration works much better on prog 2 than prog 1; all players agree
- J.C.: don't care if 1 or 2; just both should be as collaborative as possible
- Shelly: on NRDA track: very narrow opportunities because of extraordinary short time line; prog 2 has the opportunities
- David: progs don't conflict; track 1 fewness does not = track 2 flexibility; track 2 flexibility does not = track 1 distraction
- J.C.: agree. But isn't there a possibility for collaboration on track 1 studies, in some instances
- Shelly: current FPA is the A.P. planning stage; the A.P. implementation FPA can be negotiated – just want to prepare to reduce PRP anxiety to do real track 1 also 1st FPA easier to negotiate; follow up if unable
- John C.: can we include provision to talk about implementation phase
- Shelly: letter to use 1st FPA as trial balloon
- John C.: can agree to that; can just rebalance implementation opportunities
- Shelly: also stay of litigation is out because of CERCLA authorities; talk about time FPA letter to [illegible]

- Joy C.: re public scoping down
- Shelly: A.P. out to public; just use all offering access beyond the publics
- S.C.: amount eligible – groups can decide
- V.C.: just want to avoid "in your face" – only to gov
- Shelly: always evaluating NRDA work re: species settlement decisions sometimes forced to settle (Hoge Bay)
- J.C.: idea to find an engine to start work which could restore site (don't know number will be exact or ready – just thinking about orientation)
- Shelly: how do we coordinate track 2 w/o impacting track 1 is important question for FWS & Tribes
- J.C.: agree
- discussion of agenda ① treaty rights & litigation discussion; ② re-give Bills quantification; ③ Shelly or FPA (J.C.: consider ④ avoid) comments; also, other had some detailed comments [John C. will provide comments to Dave; David can explain team's decisions on John's comments]; ⑤ NFTW resources very important to hear about this (report to Ross); ⑥ MOU – looks good!

3. clear mail
4. call Frank: asked about 104(e) letters; draft message
5. Steve Pade: comments from Larry Shepard gave name, MO
   - told about 40 CFR 11
   - gave Frank's name
6. give Congressional Operations course stuff to Dave
7. John Ross needs FPA; tell him to get from Dave; he's upset; will try a phone message for Shelly; [illegible] next; called Bill: no time

- Janet coordinate w/ Ashbe (Oneida contact - Janet get dates needed)
- find out about Nelle from BIA
- how about get it from Oneida?
- how about if our attys cc your in-house counsel in addition to Steve
- John Williams; will talk to Lawrence
4. call Lisa Williams about NL meeting: left message
5. call Tom Custer: no answer

09 FEB 95: Alaska meeting DOI/MMTW/Oneida (see sign-in)
1 - Intro. (Nelle the Chairman)
- Treaty Case (Kenneth Dial): expects ruling or dismissal in NOV - write not - appeals soon - MMTW optimistic;
- Interiors: BIA Papa Council trying to merge NRDA + treaty case issues - MMTW trying to keep separate; case is NR-specific, but some evidence of MM take as well; trustees should resist recitation of jurisdictions; all trustees just claim the tribal resource
- John Christian: handed out flip chart notes (want order resolution to PRP) [Nelle most sophisticated not "Hamman and the Above" most amenable] my counsel
- Initial N.R. which could be included (Nelle)
- Hunting, single species interest actually (Nelle);
- wild rice as food source important resource
- Duck Creek: concern (Oneida)
- may need to look at Tribal World View: special relationship to N.R. + the land (land settlement) (religious); should MMTW hire contractor? Nelle yes + no: we can cover some of it, but special tribal consultant would help; could also go to Indian Fund; Could talk w/ Ada Deer

- need flow chart of how trustees fit into NRDA process
- Fact Paper for 25th + 28th
- BIA has litigation support fund + waste management + wild relief could possibly be tapped (Nelson)
- Oneida meeting next week or the other week (+ to project?); will also raise trusteeship jurisdiction question (Oneida)
- also may be able to negotiate $ for tribal issues thru FPA (JK)
- Year: ① adequate assessment of geographic scope + types of resource?
② Lake Superior: historic use; can we reserve if not in settlement? yes (Shelly)
- Oneida: drinking water designated uses may soon come on line. (Tuesday 9-11 + 1-3 IAP)
- 22nd FEB PRP meeting; 21st pre-meeting; Shelly can't make, Oneida can't make; cancelled
- conference calls 2/16 (technical/attorney) + 2/22 (attorney)
- FPA overview (Shelly)
- may need to segregate tribal areas for Geographic Area
- weekly conf. call? MONDAYS 11:30
2. summary 104(c) letters; Fax to Brad; voice mail to Shelly

JOHN HOLLINGSHEAD

conf. #: 15 TS for Bob after O'Hare

13-14 FEB 96 sick

WEEK 7/13

15 FEB 96

1. e-mail
2. Ken: he will handle letter to WORK (Mayor/Patrons); we should call Tribou (done); read letter to Belyea for Tom K.; letter to F.S. for Wenger; have Joe write for Jack signature; also need notification for Jan Rialmo and Bell Boeing - try to use sole source
3. Tom Nelson: 3 of them may ride w/us to O'Hare - will confirm later
4. call Koss (Assistant Sec. DAF 847-296-4471)
5. talk to Jackie about sole source (CERCLA: get her name, address, affiliations and dates of NRA - specific)
6. Bob Hebert: what's going on? to be about 16th & 22nd conf. calls & 26-27 + 28-29 meetings, review of 9th meeting (incl. report wording for Chairman and we can edit); to be much progress in educating managers about role of attorneys & general liaison-limiting, but not much progress on anything substantive
7. Jack: gave me start of letter to elected officials, per Frank, T.F., Joan
8. ELR

16 FEB 96

1. ELR
2. conf. call RO - mins on budget
   - 10 ES positions must go this year
   - 17 on 9 positions w/in Region outside of ES - VPP & disaster temple
   - positions available in RI soon (announce next few days probably)
   - positions may be available in R4 at some point
   - "ready list" gets ~~shuffled~~ more
3. Shelly
   - no mayor FIA yet; not necessary for general discussion
   - 104(a): how pick companion? PCB in effluents, &
   - prepare "104(e)" in letter, but Pete said ok w/o; if EWS wants to enforce (yes) & someone fails to appeal, could re-issue w/ calc & penalty ~~[illegible]~~ language; also may need to negotiate on time line / scope
   - sending surname to RO
4. conf. call on FIA: John C., Jack, Shelly, Herb, Mike Pettigrew, Tom Nelson, & others from Oneida, Bruce, John Ross, Jim Belyea, Duane, Leah Foreste
   - meeting set for 29th in Milwaukee 8:30 am - 11:30 am
   - pre-meeting on 28th
   - Shelly: info requested: package ready for signature; Shelly's surname or mine; letter to elected officials to be added & re-worded; draft from Dave Allen

budget for FY both trustee (w/o actual studies)

- allegeas; [redacted] Black, Cowles, Bock still there;
- (COE) will follow up; email
- John C. reviewed letter & talked to Bill Hunting: thought
  better (gentler; attachment is too aggressive
  Shelly, [redacted] Dave, Janet agree - not
  an issue; already agreed to
  ② don't have to use Harmon - discretionary; won't
  use unless necessary
  ③ Menominee & Oneidas? Bruce Greene: agree w/
  Janet, Dave, Shelly; John Ross: agrees w/ Bruce.
  Mike Hoenegard - how pick the 17; D explained;
  John C. questions rationale; further explain;
  shot excluding POTWs; just focusing on facilities
  which ① have PCB-debris ② could produce PCBs;
  ③ major discharges
- maybe do custom info. requests for POTWs; [redacted]
  1st info. request could lead to [redacted]
- Mike Hoenegard: might as well just include
  "104(e)"; Bruce Greene, Shelly Hall,
  Dave all agree
- Shelly: can bear off 104(e) as tactic
- Shelly on FFA; overview
- John C.: send list of topics around for 2° agenda;
  1st purpose of 28th is to prepare Bill's presentation
  to PRPs
- RC restoration group: SC (exec: 1 from each trustee &
  each company; could set up sub-committees of
  agency, consultant, & company staff)
- B.G. / Shelly: S.C. just recommends to trustee group
- J.C.: but S.C. could recommend appropriateness, as well
- B.G.: if recommendations only, doesn't matter that out-voted
- Tom: need to limit # of PRP reps.: just appoint 1 or 2; or
  by consensus only
- B.G.: are we waiting for S.C., or proceeding as well; Yes!
  ∴ many reps OK - don't give anything up (except
  human resources); deadlines could slip
- M.L.: must make track 2 FFA explicit that failure
  of track 2 does not impede track 1
- J.C.: ideas (line-by-line comments on FFA - did not record
  (mostly lead ones) (mostly shot down by everyone)
- J.C.: tolling of S.O.L.; stay of litigation; put in now?
  for trust; CERCLA reauthorization issue (me); Mike-
  [redacted] tolling language only; Bruce agrees; failed
  to put in right now; J.C. - ok
5. Tom Custer: pie-in results: PCBs higher in control;
   DOE significant in effect; DOE culprit not
   PCBs; deformed embryos (less PCB)
6. Shelly: we need to get J.C. out of the daily
   routine; I said: let Pete explain to Bill the
   validity of NRDA among FWS programs due to claim
   compromise report; if Bill unbelievable, he may
   pull J.C. back in; defense to Tom; important
   impairment problem by J.C. is acute / more
   difficult to solve; history of problem (fisheries);
   trying to find solution
7. case law / not on case law - i.e. PRP in court one year / little PRP settlement

8. call Ted Smith about Angeji Arvin; just leaving loose on their side; he will send proposals by 26FEB96
9. call Tom R: left message
10. call Charlie Nelson: no answer

20FEB96 week 14 WEEK 7/14

1. headsup fibs
2. ELR
3. Tom Nelson: needs update; talked about hearing of site and of NRDA
4. Frank + Shelly + Janet + Pat
- info. requests not out; Frank talked to Bill + John: #6-9 financial requests back out; statement @ end that may need info. in future on financial; still doesn't have "104(a)"; don't ever call it 104(a) for now; long discussion; SOL + GBFO will contact Wartburg: re-word the financial questions and statement about future financial questions, re "104(a)"
5. Shelly
- oral arguments on DOI Rule litigation in D.C. Circuit; questions posed good for S. OL.
- SOL will send pro-referral to DOI to appear DOI and to escalate SOL/DOI role to stay to influence Wartburg / Quester
6. Talk w/ Janet + Pat about Chastain / Wartburg; Chastain incapable + micro-manager; Wartburg capable but impatient + impulsive - doesn't like any of the necessary players / actions
- Pat will get info. from Wade or Bob 26-27th meeting

21FEB96
1. memo to Janet on 104(e) (new higher up)
2. Steve Diamond: Gary Galanis (312-886-5870) of GLNPO wants to send someone to the WL meeting
- I'll call; I apprised our relationship w/ GLNPO administrator
3. Leslie Lehart
- update on FRI call?: gave, nil. Shelly/John C. conflict, 104(e) argument, story of litigation argument
- hotel, time, place for 28th & 29th?; asked last-pull off; told Leslie I'll try to find out
4. Dave Cowgill called about meeting next week; told him that wing wanted to have general meeting for some time, but next week is just nuts + fights on Feldsaus; Pat + Dave C. talked about possibility of meeting @ GLNPO w/ Fall / Winter
- they heard about meeting from Frank / D.J. last week
5. Josh Lipton
- went over paying Joe and Bowers
- agenda for WL meeting; worried about controversy
- need to focus on A. [redacted] + NRDA; not native vessel
- Josh will come 1st day / set agenda for meeting?
- might want Pat to 2nd day; has to be 1st, ok; limit
Melissa time: 12-1:30
6. Janet: talked to Dave Rabe, Charlie Wooley, Frank Bennett about Wartburg / Chastain + problems for NRDA; FS may go to RO to talk about this; may not be possible to accomplish NRDAs

7. Shelly: spent most of today on 104(e), not FPA; called Josh, Bill (w/ Pete)
- Bill sent over restoration story
- take out financial info
- base language alone; just how do we characterize? "treat as 104(e) letter"
- 104(e) out tomorrow
8: talk to Janet & Ken about
9: call Joel about call w/ Shelly tomorrow; left message
10: Ken & called about 104(e)
- same update as Shelly ("treat letter as 104(e) letter")
- we all have to make calls tomorrow
- Ken didn't take notes: Clinton / Boeing "nervous" about Kinder, may not be taking

22 FEB 96

1. agenda for 28th & 29th, per Janet's request; FAXed to Ken
2. Shelly
- conf. call @ 11:30 Eastern w/ Joe, Shelly, me on restoration plan
FAA; not clear how to write or submit to salvor
- no request to update (talked w/ Ken); Shelly suggested that Bill, Joe should mention that making $ available is soon for call; don't treat RO
- let Bill, Shelly that ok is Bill's attorney for case no need to go thru Joe C.
3. Shelly / Joel
- Barge Gas Hill RODA; will be helpful for Gen Bag FPA
- talked w/ Gunter Blunt: couldn't answer NCR/ATT question
- FPA for restoration track
① compensatory restoration: how to get at our interests as shown John/Bill some bones; should definitely do primary restoration easy, but tell DRPs that can't get cost before base; compensatory rely on NRDA output; talk about technological feasibility, etc.; talk about key data needs for all parties useful for compensatory; data for GIS system for GIS for scaling of restoration options: base maps of area, kinds of habitats, nature resource services associated w/ habitats (migratory birds, endangered species, land use, recreation, use, land ownership); put into GIS system; useful to all parties in compromising NRDA
- how to handle magnitude of work as compromise between DRPs & trustees
- utter folly to even discuss restoration alternatives at this point; unique (Joel: agreed) (even internally)
② primary restoration groups can make presentation on technology, or compensatory side could do GIS and GIS group could respond to trustee comp. sat. issues & concepts, but not actual scale & alternatives; e.g. properties available, conservation easements opportunities, habitats available, etc.
③ must be good: value of a boat load in terms of N.R. service losses, etc.; etc. (Other approach)
- must over language ideas
- NRDA influence actual design and more than the GIS, but GIS makes implementation of a settlement easier, more willingness to settle & achieve (for a mutually agreeable scale of restoration)

STATE NRDA

good CA | NM, MT, MI, NY, FL, TX, MN, OH, TN, PA, NJ, OR, MO, KS, AK good

- could look short cut / in lieu of alternatives, just rather database of restoration projects that have been done, relative costs, success, difficulties, etc. (all kinds of projects — not just NRDA or CERCLA); post work, not future move
- RD magnet and NRDA experts are in conflict fundamentally; RD wants settlement discussion and alternative decision; NRDA expert want value assessments of what is required (i.e., NRDA authorities) before making those choices and discussions; Shelly can't draft FPA that satisfies both; experts can't change the facts — RD does not have to take the recommendation
- Josh will attempt to contact John C. to set up face-to-face meeting tomorrow w/ John & Bill I re: to try to settle this; part of game play is to make Bill look good; current RD direction will (in our opinion) make Bill look bad
- we should let everyone in on decision that leads to being made (Lutes, [illegible] [also: OEPC, OTA, ELPO, RTO; my note]

4. Leslie Lefkoff: returned message
5. Josh Lipton: talked w/ J.C.: they will talk again this afternoon; possibility of meeting tomorrow in MN; looks like RD has mind made up about PD and SOL; need to get to RD; other decisions Chiles; Josh has some access to J.C., but not Keating; will meet tomorrow — maybe w/ me
- let him know if really is bind: can help with contact, maybe me bridge counter

6. talk w/ John C. and Josh: need to get on same page; less deal to build house — don't have to figure out $ right away; I said: real estate deals between willing parties — different than CERCLA negotiations; John invited me w/ Shelly approval or call; I say: more than power struggle or personality conflict: fundamental issues must be resolved; Bill Lockhart should not be upset w/ me when point out inconsistency w/ other actions, or law, or etc.; can stop, but want to make donation w/ eyes open + w/ deliberation; client want me to stop
7. leaving Josh Lipton in on call
- house deal example: looks like $0.5B for primary and $0.5B compensatory; limited in scope and time; do over time (25, 50, 75 years); want to add to the 6 items in the restoration plan
- Josh: areas w/ concept have timing issues and core; analogy does not fit NRDA; real negotiation of NRDA is stage 1 cost of house rather than price "let's exclude parts of the house"; example: might need that science dialogue needed + on the technology + disposal + the cost + how to finance + rules + monitoring required — but — size + % of both sides is the negotiation + the hard part; usually (especially large site — 6B, maybe largest in U.S. negotiations) becomes comparative approach based on leverage limit
- J.C.: that's the traditional approach; how to use for creative 2nd track

- Josh: can do all 9 items + more; limit not all stored; all at once is "spec + kneel" limit can be dangerous; green lights and flashing yellow lights; identify technology + pilots + implement pilots + figure out what kind of things can be done (green); coordination on primary restoration alternatives (green); EIS + database for repository pathway (explain; the green light); evaluation of technologies + new technologies (green light); compensatory; annotated bibliography on restoration projects in past (cost, efficacy, etc.) (green light); yellow lights:
  ① selection of suite of restoration options (future) (if PRPs believe they can put together our alternatives, then they would give us restoration (elephant for injury (dead deer), so delay injury; limit actually attempt to carve restoration out of restoration plan; attend no damage left from injury + damage); don't allow PRPs to recommend initial projects, not scale; also # of cases in last couple of years trustees have filed + how hammered by public for giving away too much w/o sufficient info.
- T.C.: green rated only if allow scaling; could float idea of trust fund - don't define who + how much; could be managed by independent party; significant term (decades), so can never use $18
- Josh: payment and management of payment streams could be green light (never use before)

D.C./Josh 10:00
T.C./Josh 11:00
Shelly after

- T.C.: manager of fund could use criteria for funding projects
- Josh: group could address process for selection of projects (green light); trustees + PRPs + public could influence criteria and process for selecting projects (green light!); can't actually give away decision authority to independent group - just make criteria independent
  - flashing yellows are delay not stops
- T.C.: negotiations important: longer technologies should drive cost down in future
- Josh will draft up replacement page - we can review, then send to Shelly for leakage
- T.C.: 8 items
  ① TD approach + pilot projects
  ② combine primary restoration
  ③ LOADS/ERS to TD comparison w/o
  ④ evaluate restoration technologies + natural recovery (criteria for pilot projects)
  ⑤ develop pilot restoration projects
  ⑥ develop LOADS or type (cost/cost effect for primary + compensatory projects (mitigation)
  ⑦ concept: framework for payments/settlement (reduction w/ timing, interest)
  ⑧ decision criteria for which projects funded
  - include flashing yellow lights
- for my comments to Josh
- talk tomorrow @ 10:00 Grotons (11:00 Otis)
- Nalco wants to talk; Bill upset

8. call Shelly: left message @ home phone
9. Josh: will call tonight w/ language
10. Shelly: update; underlight
11. Janet: many issues RE 10; will call tomorrow
- SIB figures entered by Katie; not for FAS
- question on reforecast
- question on URR

23FEB96 (to early: 9:10 am)

1. email note to Bill Hastings
2. call Lisa Williams: told her about RO disputes
3. call Don Sparks: left message
4. call John Kay: told about RO disputes; Duke lost today, but appeared info.; good.
5. talk w/ Ric about note to RD
6. call Josh: next over language; 2 strategies at once: ① get track 2 moving for Bill/Josh; ② convince Bill that track 1 really is his charge
7. call w/ T.C. & Janet
- T.C. concerned about trust w/ i bar
- T.C. concerned about may have written note to on FPA about no need for T.C. is confidagreement w/ APPA to avoid trustee leaks
- way to further discussion on policy - report w/ Shelly one step of "movement"
8. Conf. call w/ Josh, T.C., Janet, Kay, me
- Gabor C. met three dozen of details comments - Josh to draft
- need $100K per company or more?
- need Rule 408 conf. agreement - no; some other kind of conf. agreement to keep meetings not public
- need redacted copy to trustees, review, today; to Bill, next, to PRRs by C.O.B. Monday
- lunch/food @ 8:00 at Lot
- call Josh & Shelly 3:00 Central
- Call T.C. this afternoon w/ schedule.
9. call Lalie: not there
10. Shelly: update?: Josh has FAKed language based on T.C.'s extreme re-write of Josh's language based on T.C./Kay to FO; conf. call 3; I don't know what to think about it; I will review, Shelly will review, I will call, then Josh & I will call; I said T.C. has requested lunch today & to PRRs C.O.B. Monday; I made no comment; Shelly says probably unrealistic
11. review Josh's revised language; notes
12. call Shelly: not available
13. Don Sparks: talked about RO
14. call Josh & Shelly
- could report #1; - or - could tell ourselves that the language is ok as we w/ concept problem; - or - we could spend WED trying to convince Bill/Josh of difference between intent & letter
- Josh presented the language for Shelly: took some of Josh's, Bill's, T.C.'s, Kay's & threw in something Josh can live with; time not right for both tracks - just 1; PRRs will be very upset; Bill/Josh may not like either track but can live with both tracks; Bill/Josh may be willing to do track 1 - raise; Bill/Josh believe track 2 can succeed w/o track 1; raise; Bill/Josh believe that action on the debtor's cap. followed by 8 figure ruling;

language, however, avoids these problems w/o highlighting for Bill / John; can talk about all of it. I.C.'s results but caveat of assessable only after the NRDA data collection. Bill / John interpret that as no buy-in for Track 2

#1 result: as written, lays out how to do groundwater & mechanisms for natural settlement, however, folks desire is for an actual settlement mechanism - just doesn't realize that doesn't do that; (1c) particularly issue because of time horizon (could stretch); also (1b); may need to stretch all of #1: addresses & that has not been made available; premature; also, no authority for TNC (Cool areas)

5. Bill Graff
6. call Spark: no answer

25 FEB 96: to Chicago for WL meeting (Mayer at 1st); Jan Ghalett, Ken Stromberg, Peter Tallmadge, Pat Bellis, Tom Nelson, Lisa Williams, Bill Bowerman, Tim Kubiak, Tom Custer)

WEEK 7/15

1. Mike Mayer: results in WE: [illegible] productivity G.B.C. L. Sup & Erie and (Rivers / Islands); Eagles nesting food in both generally also Lake Superior, somewhat on G.B.A.; PCBs much higher in G.Bay than others; DDE higher in G.Bay also; Fox Point & Island area low in DDE; Fox R. is high in PCBs. Productivity good inland; sporadic L. Sup.; fair G.Bay; Toft Point month of Menominee (Blueberry I.) birds seem to have different exposure than other G.B.A.; Oneida DDT mod on L. Sup; DDE [illegible] than [illegible]; PCBs also; PCBs

Lk Sup eagles 50% less productive = E; G Bay get adequate prey deliveries; Cape Hurd highly available in G.Bay; NRBs in Cape; Fox River most: high PCBs, low DDE (egg thickness), high productivity, has been replaced at [or LLBOM]; next most productive nearest to; X-Bell check in / very high PCB & DDE exposure; more copper engineers on G. Bay than on L. Sup (2 nests); herring gulls likely food to eagle chicks; have some data on ONTAR eagles & think related to - could get birds or adult turnover [illegible] rate

2. Mike Mayer: mink in WE: design only; need basic techniques developed; known to do PCB-sensitive; not migratory; normal impetus to home locally; address habitat quality; mink absence / presence; [illegible] ref. x-change agency; [illegible] estrogen S/N to determine low aquatic; meat over details of subjects; hypothesis testing only after methods testing complete (if successful); already some info on PCB bird, lab analogs, / productivity problems - Stalker

3. [illegible] Heston: confidentiality, ownership, purpose; review of historical work (Carl)

4. Ken Stromberg, DCCO: Larson (Clutch size different; total success different; [illegible] Fox Islands different; intra-colony work: (no PCB effect yet); range higher in high flow areas (PCB group) (late of noise); argument about whether due to exposure difference or sensitivity difference; measure PCB levels in incoming migrant DCCOs (PCBs double once within queen) (OOT doesn't reveal much); 5% of PCB body burden goes to chick; of lose good bit of body [PCB]; have [PCB] in diet; get [illegible] way need 1/2 life of PCBs between years [illegible]

Powell

egg injection study (~~56~~, 77, 105, 126) - + all combinations

comments; saw most of the reported effects - but only ① high level was lethality. 126 major plans in field. Robb; no ~~strathos~~ between organs; ~~1/20~~ of previous publications; used in Powell + Ex. for 126 57% mortality in chicks at 1.0 egg ~~extract~~; all ~~affected~~; no deformities; OCCO/chicken ~~sensitivity~~: 100x LD50 250x LOAELs; Spider I: TEF ~ 0.4-0.8 ~~mg/kg~~ egg - ~~meat~~ say ~2.5 ~~mg~~/kg effect level - were ~~the ball~~ park (1-6); ~~plate~~ feed); accounts for the small ~~b~~ in hatchability in Falcon - Jan disagrees ($\frac{1}{2}$-1$\frac{1}{2}$ orders of magnitude up too far off)

5. Tom Custer: OCCO: (Cat/Rat/~~Mink~~/Spider/Monte Carlo/S.D. ~~PCBs~~, OC ~~Organs~~ not ~~success~~; ~~PCDs~~, TEFs, ~~PCBs~~ at GBAY; DDE also; EROD not correlated w/ success groups; dead embryo ~~PCB~~ DDE than failed sibs or ~~unfailed~~ sibs; DDE + PCB correlated R^2=0.32, P=0.001; DDE looks separate for dead eggs; DDE could ~~explain~~ Fallon & Klunk studies; useful to look at ~~organs~~ - he will; OCCO ~~accounts~~ to PCB/DDE locally; EROD not likes; success better to DDE, not PCBs; ? ~~brain~~ asymmetry; ? disease (left early)

27 FEB 96 story line

C. Jones; U.C. + Ball wants #1 of ~~4~~ corr-agree. Rates FIA put back in; look + U.C. come up w/ 1-line compromise; Skelly expected as settlement; probably see a tough meeting 2. lead + rotate FIAs 3. and ELG 4 line Milwaukee

Goal: - NRDA team: ① guidance info needed (more info, allow for conceptual assumptions by Trustees)

① Talk w/ Skelly in Milwaukee

28 FEB 96 Milwaukee

1. Talk w/ Joel + Skelly + J.C. + Jones: ~~some~~ for oral explanation of settlement - but later
2. Meet w/ co-~~Trustees~~ [J.C., Frank, Jones, Mark, Marjorie, Skelly for Joe Hoo, Brian, Patty Lom, Chris Goodwill [Bill later] ① Skelly: went over FPA (working draft; CMTS not available at the time) (Lindley Rhodes, not settlement negotiators)
② Joel: went over the 7 items under A. (overall: build trust and focus on mutual info. sets)
#1: what constraints do PRPs + trustees bring to table (e.g. no natural stocking in MT or no land purchase by any PRPs) (process developed guards w. ack. & cap. selection)
#2: coordinator of various activities, rel. FRC (like person FRC MOC)
#3: IO technologies for 1° (selected changing) (predecessor of spatial/temporal extent, not multi-yrs) (not how clean is clean)
#4: corollary to 4: develop new 1° technique (can stop the process through)
#5: pilots to test potential techniques (1° and possibly comparing)
#6: ~~annotated~~ database inventory on P + compare projects of pool; all sides agree to concede nothing on extent of problem or needed solutions: might what be possible to see what could, hypothetically, we will want to talk about some habitats & species for them; but can agree on some interested-sized list to discuss; don't want menu of options from which must choose
#7: GIS dBASE; rub ours what, what habitats, etc.; very important to implement any eventual settlement

into for Trust: "seem to me that any participation by the PRPs in planning restoration, planning etc. outside the context of the assessment plan will undermine the fundamental test of the assessment plan (eg the N.L. is supposed to be sent all the facts + assumptions upon which the restoration plan, including conclusions in prediction). What happens if PRPs find a bunch of actuities that prove to be ineffective or inefficient? This train of thought will quickly evolve to settlement negotiations without the benefit of an assessment, like Sag Bag"

③ discussion of NRDA
- must get liability info.
- must get injury info
- must get scope
- Tom can figure out what positive

④ Bill starting: ① explain Oneida grid — Bill pass ② explain L. MI scope; ③ explain $ amount + other FPA details; Leslie - chance for Bill to sell the approach. Bill - log action step of his experience [① "we know public we want" (disagree); ② "Log reference experience" (wrong kind); ③ "this is no more difficult" - confident can be done" (already knew he was confident)

⑤ Goal: presentation of FPAs

⑥ F.C.: ① cultural ② environmental ③ local economy; Bill wants to address the balance of these 3 to PRPs (recognizing that is out of balance now in favor of local economy)

⑦ Bill: we all have an idea of the #; I disagree we only know a conservative estimate: actual # could be 0 - 17M

⑧ Josh: 7 items

⑨ Bill: need to add finance committee that talks only about mechanisms for payment - no discussion about amount (comes from NRDA info); currently nothing in it for Tom
⇒ Bill and I disagree on two points: ① there is a M/S out here; ② finance committee can give PRPs real venture w/o discussing settlement

⑩ Bruce: dollars for FPAs; $165 A.P.; ~$250 (?) for rest (may not get full credit under statute as reasonable assessment cost)

⑪ Scope of assessment area: Tribe has concerns - Wolf R, Duck Creek, L. Winnebago; could remove the restrictive language; want to avoid precluding valid injuries (different than restoration area); will tell PRPs we will modify

⑫ how much flexibility in FPAs: no release of liability; no stay of litigation - restoration FPA

⑬ confidentiality agreements (trustees decide) (NRDA FPA is our concept)

⑭ Initial question about name of contractor (individuals or entities); no contact allowed though

⑮ Bill must see presentation
- Janet + Frank will make a few flip charts (mission, objectives, site info, purpose)
- go over FPAs
- couple of weeks to finalize FPAs or this won't work
- will move a track only
- done

29 FEB 96
1. travel voucher to Dana
2. talk to Tom about meetings
3. talk to Dana about meetings
- met well, but Leslie was in auto collision (45' late)
- restoration committee viewed by PRPs as settlement vehicle
(David Vandelaan told Leslie or Bill that 7 figures won't fly; ≤$30M could settle, however)
- P.H. G. concerned about scope (L. MI)
- restricted to PCBs?; restrict to paper recycling?
- no FPA discussion - need time to review; written response

- need info justifying $385K and $165K
- Hartwig to Clark at Lerch that covered about my copious notes - documents?
- to Brad about email to Hartwig
- strategy: do work on stage 1; keep out of J.C. + Bill path as much as possible; pick issues carefully; try to keep from being forced to give stage opinion (Calibre = convenes); make clear that Bill's choice to take duration of appeal
- GLNPO friendlier w/ Salazar; make contact next time in Chicago
4. Bev mail

01 MAR 94

1. Bev mail
2. file NRDA words
3. list of action items for self
4. talk to Janet + Jackie about cost codes + recoverable activities; Jackie is working on detailed justification of NRDA-specific expenditures and activities; Joe + Al are not using it - how system because ~100% of our activities are Green Bay NRDA-specific; however, those working part time on Green Bay NRDA (Shelly, Brad, J.C., Bill; Leslie, Rob, Don Hoag, Jackie, Janet, Dave, Ruby, Ks (though he mostly on the NRDA), would be last off w/ 1/4 - how accounting of schedule - if they can tolerate it)
5. review FPA revision given to PRPs
6. Conf. call w/ Boulder on fish studies for L. Michigan (Lisa Williams, Dave Best, Dave Allen, Joel Hubbard, Steve Brown, Doug Beltman, Dan Lee, T.J., Ks, Brad, others, mark Hobbs)
- goal: intro: relevance of fish injury to G.R. NRDA? Burden of proof for G.R. NRDA? many factors affect fish in addition to PCB - how to quantify or subtract other effects? control of info. for potential litigation
- D.J.: overview of Contaminate Program needs for L. MI fish injury
- Mike Anderson: gross lesions or PCB effects (can overburden) death, physiology, reproductive behavioral, internal, external, injury stages
7. call Phil Hufford about PCB mass balance: assist to input data: 60 tributaries of composited fish; listed in doc. attached (MASSBAL 12-6-94, BATES 050044-050025)
8. note to Ks on encoded issues from 28+29% colonies meeting (how to #; attached discussion)
9. continuation of conf. call w/ Boulder
- what is possible to do re fish - realistically?; embryological + mineralogical effects (Joel) + histopathology (Joel): can be observed in fish + linked to lab, + some causation questions can probably be proved (or disproved); reproductive may be left but harder to show (decided)
- need practical approach to distinguish the effects of carp
- Lake Sturgeon: tribal interest; long-lived bottom feeder
- Lisa Jones asked: what to do or not do: spend week or two to refine NRDA + stress info - recalculate + get hard look at assumptions look at contaminants in stomachs + whole fillets; would not do full-blown spec. study; rather measure field egg resolution dose response or walleye eggs for comparison; use fish health models; also get chronology to get at higher pressure levels; Lake Trout long shot because of other factors

- prod Ordog letter to Tribes

- Goal: population today is reflective of previous conditions; determine if existing data or new data to understand condition of past
- should write some GB I to get addtl. $
- maybe collection must be ready MAR/APR

WEEK 7/18

04 MAR 96

1. backup files
2. note to file on unresolved issues: finish, sent
3. staff meeting
4. Jeff Underwood: speak at spills symposium early April?
   - no time
   - how I had data contact: Rod Smith
5. conf. call w/ team (Bob, Janet, Christa, Barb)
   - J.C. assigned Bob to draft letter RD → someone
   - granting $365K & $165K
   - Janet has flip chart assignment (bring to Madison)
   - Chris asked about meeting turnaround w/ WDNR
   - discussion of scope of assessment: activities, key subst Tribal MOU, PRPs, etc. - collecting age data: be careful not to proactively restrict anything
   - debate over subtle, mean read to narrowly define the agency questions; how to comment. RMS RD agency management
   - POTW, for requests; draft; guides more areas
   - Tribal paper co. response first
6. conf. call w/ Sonja (FRC): could not connect: all circuits busy

* check w/ KAM & look @ info. request
  - see if can limit request
  - see about reasonable extension

7. Shelly: sorry missed conf. call; not critical issue on exemption FRA update or call; Bill @ meeting made a mistake - Don R. not main source of PCBs to L. Mi. (wrong); O.M. said can't document data building to clist (needs more substance); talked G.B. Packaging: wood includes non-F.R. facilities, etc; put proposal in writing by how to respond; no; can respond w/in 30 days w/ definitions for response; O.M. wants 90 days (Bill & Jackie said no); ask EPA contacts about extension; also check about recycle CERCLA exemption

03 MAR 96

1. look @ CERCLA authorization: recycle exemption; 1-page missing on PCB exclusion from exemption; left message for Shelly
2. up to team on ongoing issues: done; KAM
3. Jack Rose out until Thurs; talk to Tom Nelson about meeting FRI instead of WED; he'll check w/ Pat Reilly
4. call Ray Palber: will check into Jim Nelson info. requests & get back to me
   - called about LKBN; Bob argues some idea: change the stuff out of water a different months, or convert essence; Bob will check w/ our people
5. Jack: late afternoon call: Shelly, Dalie, Jack, and, Di. maybe Bruce, Dave, or me!! Tomorrow 4:30 - 4:30 PM; Jack would like to meet some of this down - but harder to put that on me
6. left message for Dalie: Debra about conf. call

- g 7. told Joe about POW search trip. request; also Hayden
c Release
c 8. sent 10 PRP letters to Mary Francis Repko
- 9. Dale: Rotation FOIA can be narrow based on
as implication; NARA scope is unclear at de-
- e no artificial narrowing allowed; info. agent: can
04. would use PRPs to accurately depict; Dale
should respond that scope on rotation FOIA is
negotiable question: if want that FOIA to prevail
may have to nail our - probably eliminate ability
to do work unless needed
Issues: Bill's request from Box R.; how Shelly raise; free-for-all
after meeting; how Shelly sign (meeting plenary
issue; control issue); no to take; could be
discovery issue, but not necessarily big deal;
some possibility would apply (waiver); some info
would be released - so what; keep taking notes
to do so; Bill said something about having me
destroy notes - probably not legal - don't do; that's
a point I wouldn't; private - public any different? no?
pre-deliberative privilege? probably some
10. Janet: meeting w/ Jules: Thur; meeting re big pieces of mail
- P. 11. Dale: talked to another atty: just keep taking notes
as usual - no problem; do not destroy anything illegal
if issue, Shelly & Dale will handle
6. co 12. call Shelly about conf-call, etc. (2:30, 3:00, 5:00 Eastern)
B. had w/DNR his assessment

14. Ray Palmer: 1904(a): no general; routinely asked; case by case; relations is reasonable; confirm by letter (Grimes & Johnson)
(2) Jim Nelson: college Dartmouth 1970; classmate of Dave Ulrich and Roger Grimes (886-6595)
15. call Roger Grimes: college classmate; tried to put together 2-person coalition to move this forward (last year); impression - what see what get; pretty straight forward; last pretty limited impression

06 MAR 96 WEEK 7/16

1. call Shelly
- CERCLA: regular expiration w/ RCO explanation; Dir missing last page; put together parts for it & send
- until FAX letter from D, M.
- told about Nelson
- conf. call @ 3:00 w/ Joel & Shelly (have contacts to Lake for Shelly)

2. call Lake: conf. call @ 3:00; Shelly wants to handle; also wants me to go thru Lk 007; Lake says "jitters"; feel free to call

3. call Joel about conf. call

4. look up 15 CA info. for Shelly question

5. talk to Brad
- regs
- enforcement
- conf. call w/ Joel
- NEPA approach (Future Lab)
- LKFN approach (Calabrese leave)
- note to facility strategy

6. conf. call w/ Shelly, Brad, Joel: on regs issues
- or find w/ GLNPO: Lake Michigan Mass Balance: fish sampling already done - missed opportunity; trying to plug into next year sampling
- scope issue: how to proceed w/ issue; PRPs asking about geographic scope, which hazardous substances, which activities; need to use ambiguous statement to defend (Joel), might be able to narrow for water FIA, but not the NPDES, for the FIA (Shelly); can also limit to PCBs for restoration FIA; but

don't defend what N.R. was for restoration FPA; go ahead and talk to Tribes; ANAP + $ figure issue fiasco; need to get control of our people - also after meeting; no dates set yet - next 2-3 weeks timeframe

7. conf. call w/ Ron, Hector, Joel, Jan Richitt: WL injury
- overview of WL meeting: Bald eagle: impacts/success; lost 2 pair doing well w/ ↑ DDT ↓ PCB - could also be different congeners - awaiting the data (WOMR?) - need to follow up on these eagles; ② terns: Yukick stpl. strongest, but not smoking gun (risk assessment not causality) - may need to revisit risk analysis; circumstantial evidence that PCBs; could lose connection w/ copper mine of 15 years ago (Said Salutt)
- sensitive species affected; restoration species not - opportunistic
- PCBs was other contaminants (DDE, mercury); unknown addressed by due diligence or exposure assessments
- go forward w/ common tern pilot study (egg injection); - clear boring & fill; Ro will look at Lake (Benson); need budget (Dave, Ro, Hector) (< $100K)
- merit: have few sparrow at offsite beds (from Rigas-Ed), also some trapping records, may be reports locally more locally (good lab work as basis); look at sign survey / residue beds; limits in scope (what are those beds of copper); compare to lab; look at stomach contents; need to review state data; get trapper; design study; get lab set up
- conclude: eagles, terns, make further study
- conclude: need to get rest of existing data (Tribes, etc.) and visit those people
- may need to analyze Tribe's tissues for retrospective; also WOMR data

07-08 MAR 96 SICK

12-13 MAR 96 SICK

WEEK 7/17

14 MAR 96

1. clear mail / read e-mail
2. talk to Janet: update
3. time sheet / leave slips
4. Joel: consultant to company w/ PCB letter, called about endangered species: send to Ro for review, + geo. scope - talk to Bob Rose about NRDA story (omit litigation report)
- talk to Tom Nolan about geo scope / consultants
- note to J.C. w/ updates
5. Lynn (9:00 am tomorrow) interview for refuge job
6. preparations for interview
7. Shelly
- got calls from Boyle Tribe, James River, + 2 other (ATT, ?), Janet; Shelly will draft letter w/ 30-day extension; can define any limitations
- call Bob Rose about story
- CERCLA: recycling language
- scoping update
- NRDA info request update (8 NRDAs)
- OPA approach ?! "new idea" - restoration-based approach; figure lost services instead of damages; benefits transfer, e.g.; dependent on magnitude of pathway box & dynamics; if almost done w/ injury - use OPA methods; if too far from injury - use CERCLA; Ro's article!!
- [illegible] of damages

- post kit: explosive [illegible]
- need to respond: would appreciate if they would
- we mobilized almost another day's supply
- asked to send letter to us for reference

8. send Refuge manual (took home)

15 MAR 96

1. prepare for interview w/ John Christian
2. interview w/ John Christian (no one else) (see separate sheet)
   - 10 questions 1/2 hour
   - took 27' ("A+ on time management")
   - "very good answers: learned a lot about me"
   - "agree that has been very difficult to break into refuge - good opportunity to try; [illegible] other good candidates, but Jim definitely in contention - especially given my answers")
   - told him I was sick for week
3. call John Koza: his injury
4. call Tom Nelson: left voice msg (only narrow window to take side; typed NROA and sent for Linda & L. MI)
   - talked to Bob Unsworth: Ondia got his qualifications, will FAX memo over
5. call John Kray: call later (after 10:00 am)
6. Shell Hall: left message (voice mail, private)
7. call Phyllis about $: voice mail; 82-90K prob available for injury in AHR; could be $500K more if equal split between rear/injury - but need to be convinced by Bob Rowe before pulling any $ from rear.
8. Tom Nelson: needs costs for tissue samples: $0C scan w/ MCO $400/sample; congress $800/sample; disease well adds $400/sample; $350-$500 for total (some false letters if certain natives); [illegible]; photos of plan

visit Mesa people

- send Tom the proposals for the $20K; Jackie said probably can use 1130 for now + printed letter
- tree swallow folder should go up soon; also wood duck folder @ Allenspring 4 10 or Green Bay,
- got results for WI R.: not that encouraging: probably below effort levels; tree swallows picking some up
- update, update, update
9. call Frank
   - interested in topics of WI meeting
   - J.C. questions of status
   - update, update; update
10. call John Koza
   - wage discussion; John has serious concerns about wage: [illegible] made mistake about propriety of [illegible] to stay Boy?
   - I said
11. update to J.C., Frank, Shelly (FAX)
12. send Tom Nelson letter + comments; call, also get costs for samples
13. Doug Baltes
   - may need help w/ L. MI mass balance
   - see Nelson
14. call Shelly: voice mail on Janet's comments w/ Doyle Tibbs; also update
15. talk to Bo: update x3
16. FAX [illegible] stuff by Bo to Jon Custer

18 MAR 96 — WEEK 7/18

1. back up files
2. proposal to Tom Custer (WR R. of Shelbyville): he will write study plan for Jackie, so that $20K can transfer when we need
3. POTW info. request (work on Joe's memo)
4. read the DCCO analysis
5. Ken: hole in DCCO argument: geometric mean for baseline, but arithmetic mean for 1000 eggs (ave. baseline in 1000 is actually 20–25% higher)
   - if Hector calls for conf call, try for 4:00 p.m. today
   - try to set up Knox meeting W, T, R this week
6. call Frank about WL meeting in Shelbyville: W, T, R ?
7. weekly GD NRDA conf. call (Hank, Pat, Tom, Frank, Shelly
   - Oneidas would like MFTW/OTEW/FWS meeting maybe this week
   - Bole Jackson BIA (1146) for Nemadji restoration
   - geo + other scope: native restoration FPA scope only (Lower Fox, Green Bay; PCBs; can draw lines per PRPs - Sandy/Don Ind; paperwork to do; WL meeting, etc); need to look at language for the FPAs?
   - how do we respond to PRPs on scope, cost estimates: letter w/ 2 FPAs attached
   - how about N.R. scope?: no lines between trustees; FPA re direct injury via indirect services; also primary vs compensatory
   - Shelly ready to defend N.R. interests for orders for A. R. (April/May)
   - 104(e): P. Hilbert: request for extension; AFT may request not on our behalf
   - assignments: POTW 104(e) finalize: DOJ, then Tribes (before next meeting)
     company 104(e) extension letter: Shelly
     FPA modification: Shelly (need to hear from us 1st)
     scope + cost letter: Shelly ←
     scope meeting (Oneida, MFTW, FWS) →
8. call MFTW (Knox office): try to set up meeting for WED on geo scope + WL meeting
9. call Ken about WED meeting; try to get Th, as well
10. Sue Kozuch: now get proposal for extra meeting from Hagler; should meeting costs come from Phase I or Phase II; $33K left in Phase Ic; need bill for $5K (from whom?
    - she will send ltr to Lisa Knox who will sit down w/ Joel to figure out; Sue to cc us; also will advise what parts of Phase I still active, what products (when?)
11. update rolodex
12. Copper Range Company: letter from J. Cha (EPA, ORC) to Don Rowe (cc Allen + Ronald); buy NRDA issue, but whose field office)
    - tell Ken (give to FLB!)
    - call Cha: talked a little: EPA trying to have MDNR put explicit language to avoid fed/pen issue; should pass or to Lisa Wilson
    - call Lisa: FED-EX; done
    - call Frank

19 MAR 96

1. vm, Institute of Geo Technology ad.: concrete technique
2. talk w/Joe: update
3. Tom Nelson: needed Lisa Williams address
   - both of us called Jon Goss: left message
4. ELR
5. call MAPW: Hoss out w/flu
   - call Linda, Ireidy (Tom) Shelly
6. Leslie Lehnert: update, update, update (haven't heard from Shelly)
   - call next week: Susan, Leslie, I'd can go to Coral (MON & WED)
7. Bill Bowerman: long conversation re sage: MP Nutt dispute; [redacted] DOT-only/multiple offset disputes; KLFO/CBBO dispute; what can realistically be done to answer fundamental questions underlying [redacted] peoples disputes w/o engaging in wholesale disputes (e-w, turf)
   - Bill will get down notes to get things moving
8. call Shelly (from Charlie Hoyt somewhere nearby)
   - Hotel? She will have secretary call tomorrow
   - update
   - she will mail update to Bill Fish
   - working on PR letter (x-topics and scope)
   - send scope language to Shelly

20 MAR 96

1. call Lisa for D.C. hotel: doesn't have one
   - talked about Bowerman's sage-sorghum: Lisa's view:
   ① reduced prey delivery at fledgling may not be due to reduced prey availability - could be due to adult behavioral effects (as in Kalinka's B. tern; also as shown to occur at times w/PCBs & dioxins)
   ② camera disturbance has led to ↑ abandonment at early stages & ↓ attentiveness post-hatch (could go though); speculation is base of camera could cause the disturbance (being masked)
   ③ WP/MI fighting is so distasteful that she has distanced herself & is not as up to speed as she would like
2. call Cheryl: left message
3. [redacted] talk to Ken
   - 2 nests w/cameras below bypass the 4th-west island (mounted pre-nup)
   - some pairs don't react to cameras & move; feel high productivity at other nest (mounted pre-nup)
   - cameras ③ hanging; ② 2 out of 4 (egg) had reduced attentiveness
   - Bill Bowerman has had ∅ success w/cameras
4. write a plan: ① consultant question (get packet to Ken); ③ convince ② core team: ① hypothesis discussion; ② cameras; ③ management tasks; ④ implement A.P.
   - lay out my notes to look
   - read A.P. binder to refresh

FAPK

5. Jon + Ken: wait to model different means for different studies; authorize via computer memo;
- Tillett, et.al.: could show methodology difference + lack of DOT info;
- Kuhrt, et.al.: DOT question;
- is Kuhrt et.al. enough to assert: ① nausea effects only; ② undesired effects likely; ③ no way to tell; ③ and ②
- wood ducks could help answer questions; also DDE - egg injection and protein powder effects; also sex ratio
6. log conversation on LKFO w/ Ken

21 MAR 96

1. edit NRDA FSA for usage for Shelly
2. edit BPA proposal for Bob
3. read Toms River Tribes letter
- message for Rod + Shelly that letter confirms our suspicions - probably adequate 104(e) response as long as it is a "legal" response; we should send REletter that response is adequate
4. John Rose
- 2pm update: see FAX
- WL meeting: talk to Ken
- ray bass proposals coming from Bowerman
- send ANAP (gave to Lisa for copying)
5. work on timing/strategy for ensuing year

FAX to Shelly, Bob, Rod, Ken, Tom, Pat

22 MAR 96

1. in fall for eagles w/ Ken (3 eggs @ Rats)
2. fresh shrimp/plankton rate; FAX to Joel, Bob, Shelly, Brad, Katie
3. listen to WL meeting
4. Shelly Hall: problem w/ Bill + John on 104(e) extension; they want to give them entire June
- new arguments to T.C. from GBFD also
- formerly conveyance: need as much time as possible; seeking clarification to limit scope; #6 (ST MAPES) permit - litigation: need all of the litigation documents; #7: since 1989 w/i limits: DMR show file - do we want all of the DMRs w/i confines: yes; #9 CBT necessary to include; #10 too hard - PCB - sample?; yes; #13 has wrong sub questions? can limit to what we want Rivers and contains PCBs? ; others
5. Josh Lipton: recommendations: #1 ok; might be good to release expanded ANAP + agree what table presumptive; release draft A.P. w/i month. #2 ok; #3 exemption administrative (mike sure definable - they done now); #4: yes not agreed: need to do some work here to present; Ken will help decide; should work on habitat and primary restoration; #5: needs to be addressed by sequel: #6 more of same: #7 fed; KFRs substances; wording on date for press release; Rowe working on focused storyj
- we will try for meeting (3 days) of the middle on

24-29 MAR 96 D.C. CONGRESSIONAL OPERATIONS

WEEK 7/19

WEEK 7/20

01 APR 96

1. travel voucher to Dora
2. talk w/ Ken (updates)
3. timing forms + evaluations
4. Bernie
5. Frank: Janet's sent FIA; I have also
   ① Janet need report
   ② COR → RLSO check / correct
   ③ documentation of use of Stat wfp.
6. Shelly
   - get FAX?: yes on FPAs; no on Vandelaar conf. agree; will FAX
   - CBI issue; atty giving formal opinion on penalties plus recommendations
   - will be on conf. call
7. Conf. call w/ Ken, Rhecta, Phillis Vincent (SOL/CBI)
8. Conf. call w/ Shelly, Frank, Chris Hodnett, Janet
   - cost stipulation letter about out
   - CBI: formal memo SOL → FWS; for now need to restrict access; Kit Howard trying to measure; Shelly said were working on it; I and [illegible] we will use chain-of-custody + special agts' evidence room, if possible; how about co-trustee event?
   - 30-day extension: letter will go today; some are unhappy; got what asked for, but not > 30 days
   - ROTW info requests?; mailed file to RO + SOL, awaiting something for surname; SOL/DOJ comments ASAP. then surname; then RO signature; send copy to Tribes
   - letter to Day Tribes? need affidavit? Shelly will check w/ EPA + DOJ - but may begin w/o; stating can sign response; we will draft response for RO + email
   - scope letter (geo + otherwise)?
   - get draft conf. agreement + revised FPAs from PRPs; need to review draft + see if letter still needed + what about say
   - cost stipulation letter out, or on way out; J.C. say if in signature or FAX (Shelly)
   - Bill/John want resolution of scope so can have meeting
   - letter could respond to scope + set up discussion of FPAs at meeting; also set up different between principal meetings + line-by-line meetings
   - send FPA issues to Shelly + Frank (MEMO OTW should be done); conf. call on FPAs: Th 1:30 pm
   - Janet and will summarize call for J.C.
   - Tribal funding request; after SOL, will go to DEC + OEPC; why DEC?; BIA request FWS request or both; don't know if Spring allocation: 40% cut may eliminate

02 APR 96

608-783-4689 Rondy Nix - ca call Th

1. note to Janet w/ draft memo to John C.; gave to Janet
2. Tom Custer: Lt R. Fox; I probably can't go
3. Ray Fallser - talked to Brad Bryan; got info assessment info to; realize cost [illegible] returned for gross clean-up (some equip-

Ledge & Scott's moving followed by bad statistics Fitzgerald
off-site; $2.3M top end (sic) ENV MO W/RB
disposal w/ phosphine confined stabilization - less expensive
$1.0M range;
- Roy will contact Rehr: $1-2.5M range
- wetland order may facilitate, as well
- $FUND available - at least to get started
- low correction on GB & national programs
4. read Rhoad & Blank criticism of mass Balance Model
5. read WDNR → FLNPO proposal
6. FAX Steve Bay mass Balance bibliography to Doug Bolton
7. Emile Green (Odessa 608-257-4994)
- replace Pat King
- called for updates: ① A.P. soon; ② raised 2 ARPs;
③ info. requests
P. Peggy (Hayden): noted call
9. ELK

03 APR 96

1. review PRP proposed confidentiality agreement: comments in margin; FAX to Frank, Shelly, Leslie
2. FAX POTW info. requests to Steve, Ross, Goodwill, Kelly
3. copy of ELK article on mining to Ross
4. copy of draft Janet → J.C. memo to Gary Van Vleet + Brad Bennett
5. e-mail (Clean)
6. review PRP reports / FPAs
7. call Leslie: ① Box River Tribe - affidavit?; ② FPAs & conf. agree. received?; updates: detailed message

8. review PRP NRDA FPA; comments in margin; FAX to substation
9. review PRP restoration FPA: comments in margin; FAX to substation
10. e-mail listing by John Skelton
11. call T.J. Miller about Tod River budget info. request: left detailed message: asked for clarification
12. resend page 9 of 1ST FAX to Chris Goodwill
13. Peggy: calls for ANAP
14. Leslie Lehnert
- has documents and my comments; agrees they should not re-draft
- conf. agreement: has to look at it
- Shelly left message on 104(e); affidavit good idea for Box River Tribe
- long conversation on substitute problems w/ PRP
15. T.J.: ① allocation - budget; ② funding N.A.: current status; normal briefing book item: substitute happy but as report
16. Joel Lipton: presentation schedule; can't call in tomorrow; will attempt to review FPA - will call in; call after FRI if don't hear from him tomorrow

04 APR 96

1. look at e-mail info.
2. review FPA comments
3. justification for natl. basis. conf. to Jackie
4. fibs to Steve
5. Box R. Tribe response; mailed to Frank + Shelly

6. briefing to Janet on GB NRDA for Dan to take w/ him
7. conf. call on FPAs (Patterson-Oneida; Paul Nelson, BIA; Janet & Joe x Dan-GBRO; Shelley-SOL; Mike Lovegrove, Onondaga-Oneida; Cathy Coston, BMTW; John Ross-METW
- Shelly: funding allocation: not project dollars (program); may still come up
- Shelly will send computer space to GBRO today
- NRDA FPA: I summarized my comments; Shelly & Leslie agree that entirety does not belong
- need A.P. very quickly: expand ANAP after meeting
- need to tell PRPs that A.P. is coming now
- Shelly: can't allow FPA to delay A.P.
- Shelly: how long to draft A.P. by consultant?
- we must organize across & seek consensus here (Region) draft & then publish in FRN, then comment period
- David: assent to PRPs: opportunities for restoration planning look good; also stakeholders like opportunities for participation in assessment implementation
- specifics on NRDA FPA: ① scope issues; ② which FPA to discuss
- Cathy Coston agrees PRP FPA unacceptable
- we could recommend letter to PRPs that FPA unacceptable on NRDA track (delay; restriction of trustee authority; Tribes see restriction as unacceptable)
- Shelly: don't need meeting on this; Shelly will draft response
- Restoration FPA: strike Tribal language; preliminary issues should be eliminated; sharing it could be harmful to us (scaling issues)
- C, D, E, F, G or ?; strike last line of "C" (unacceptable to Tribes & staff)
- should address restoration FPA overall in letter: looks like common ground, but need some changes (attorneys on work out); could send an FPA w/ the comments; could do redline comparison of 2 versions; provide back to them redline version w/ unacceptable and acceptable areas; attorneys can meet to work on this
- Shelly will draft letter & redline comparison (MOU)
- conf. call 10 APR instead of 08 APR
- need to meet w/ Bender Kill folks
- FAX dates for summit meeting
8. Ken: talked about DOCO work & summit - middle of April

05 APR 96
1. talk to Janet on conf. call results; to go: Y yes or Pat's list
2. Elsie mail
3. ELR
4. send WL typos to Shelly (voice mail)
5. e-mail to Josh; request call
6. call Josh Lipton: window for summit: 23-26 APR
- schedule
- FPAs: mostly agree w/ comments; strike 43 CFR language

- discussion w/ Shelly and d on A.P.: release "Turbo ANAP" - can release more later; also discuss S.O.L. Pmlst can be accomplished; also discuss budgets; resolve Phase I & III left over 4 hours to find Phase III → Joel, me, Shelly, Janet have pre "mini" summit in Chicago (next week) [9th - 10th]
- MI meso balance model: Bad R → Lake Mt 75%; 15% Kalamazoo; air transport from Bay (closed system)
- fish: field & lab combo → Bk; adopt circumpol approval (field first - fluorescence; to go to lab, if appropriate); stop into planned fish collection
7. phone, FAX, mail to Shelly for date
- summit (16-17, 17-18, or 22-23)
- pre-meet in Chicago: 9 or 10
8. Rector: would like to get Don Tillitt to Boulder for a day; he will call Jackie & Sue on Mon
- also talked about RSR & OCCO issues
9. call Matt Richmond: update, update, update
- Milwaukee is middle of the road for fish → tissue; likely several months, perhaps 1st years
- following them Dalie; pleased w/ progress

09 APR 96 — WEEK 7/21

1. Bar mail
2. tel's to get: Shelly available on 10th - clearing w/ Pete Rayner; 10th & 19th won't work for summit
- J.C. has indicated he wants to be at summit, we need to arrange pre-meeting w/ J.C. (22/23). also meeting for RO afternoon of 23rd (½ day briefing)
3. call Lloyd about summit: left message
4. Talk to Jackie about office fund targets for coal
5. Availability for summit on 22nd/23rd
- Shelly Hall: yes (mostly 22nd only) Dalie Lebart: 23rd only
- Dave Alb: yes
- Bruce Green: 23rd only
- Joel Lipton: yes
- John Glass: conflicts both days - will check w/ supervisor: 22nd only
- Kevin Goodwill: conflict probably, but will check w/ Mike; 22nd only
- Pat Kelly: yes
- Frank Horvath: 22nd only
- Janet Smith: yes
- Hank Nelson: yes
6. note to Tom Jacobi on Docket Briefs
7. talk to Jackie about logging the mtgs: fri
8. read mtg. reports response
9. Joel: conf call @ 1:00 pm instead of fly to Chicago
- tickets back to Dave
- call Steffy; mail Shelly; FAX Shelly
- Joel will FAX agenda
10. Tom Jacobi: long conversation about docket fees, [illegible]; call me pre-meeting or [illegible] Tom K.; MT action;

$660K of 1.1M
$402K carryover

11. Items: ① FPAs wants of time ② office [illegible]: WO signed on March 14th, contracts scheduled: $812K - $812K plus carryover; any day now
- Jean Sutton came via call on Coppey Range: RPA may try to [illegible] speed that permit not Fed. permitted
- J.C. wants to use $ for restoration plan
- FAX BPA info request letter to Hank
12. Shelly: status message
13. Ken: update
14. begin going thru CBP info. request response
15. Dalia
- need to get RO on board before transition meeting
- D.C. wants to re-program $
- can't do now, but illustrates difficulty of getting on same page
- can maybe get them late 22nd but not yet invited; tell Shelly to invite & give call that did so to see how she responds

10 APR 96
1. note to Dalia re/Jacobs agenda & timeline; also update on FPA call and info. request response
2. FAX ESA permit info. to Walter Pyper (Nat'l. Geo) for Ken
3. look at CBP info req response
4. Pat Pelkey: available 22 & 23 AFR
5. Shelly: can we push 1st call back, I have so many for 2nd?; I will call Jack
- left message for Jack
5a. Jake Main: Tony R. Chilos; awaiting

1. 3 b, k: ANAP comments schedule to A.I.

6. conf call re/Jack, Shelly, Janet (see 2 pages from Jack for agenda & timeline
- FPA update: outlines of FPAs in progress; current version is letter on conceptual problem re/PRI FPAs; don't need meeting on NRDA FPA; Shelly working on letter now; [illegible] FPA still worth discussing, but problem re/PRP version; need smaller group to work on language (principals to PD major issues only); could use restoration FPA to fund primary restoration studies IDd by Moffatt & Nichols (sediment mapping etc.)
- update on Eagle tasks: Phase I & II; prelim. damage assmt complete; allocation of respons. on hold until info. req. response; draft ANAP done; injury planning in progress; recov. planning in progress; assessment planning about ready; restoration assistance - on agenda
- recov.: not a CV (recommended); rather, a CV-like activities re/thrust to justify restoration costs (evidence quality work); actual claim or use primary & compare costs of non-use alternatives as justification
- schedule pre-summit & summit
- preparation/publication of A.I.: append ANAP for public review; only downgrades: might report PRPs; need to schedule (sign-off, review, publication) - we must arrange at ODI: no comments on ANAP yet - [illegible]; but start in May (2 week sign off): comments on ANAP re/1 week; draft A.I. for distribution at pre-summit; comments on A.I. in 1 week: "final" draft A.I. summit; publish beyond of May

Bruce (Green) 208 40 96 — no $ for BTA proposal (from Working fund)

- Review of Ziegler task orders, budgets, deliverable; doesn't need further work - program $ for other things; will send letter to Sue R + flag $ remaining
- Assessment schedule: S.O.L. issue; filing issues (May '97 would be a consolidating approach); referral must be before that, but after we complete some rapid work (shooting for Autumn Level of referral) (Bender Well for 1-2 months for DOE Level of referral)
- Assess Phase: participation + access to people; litigation needs + strategy w/ budget worked in; how do we make contact occur by June; other govt entities to do things for us; 18 APR 98 docket review; Shelly will attempt to get RPO involved in Todd R.; give Shelly ideas on how to help
- pre-summit: how to run case management + who Bender Well; each agency appoints 1 person; then they appoint 1 lead
2. Conf. call w/ Janet, Shelly, Kris Doolittle, Mike Sheppard, Pat Bailey, John Ross, Dale Nelson

- Shelly: PRPs are trying to require us to do all steps of RIFS for A.L. + contest our process; Shelly wants to indicate that PRPs have missed their opportunity to participate on NRPA & A.L. planning; don't want to give delay up only issue for proceeding
- Shelly: ended about restoration FPA
- talked about A.L. schedule + pre-summit + summit schedule

3. ANAP to Preidex: MASON ST LANDFILL (Round) RIVERVIEW PLAZA — draft agenda w/ goal for 22, 23 to Dale

- Restoration FPA: settlement + prelim. est. issues; don't need meeting of principals - attys only; also tactical issue
8. Ray Palbon: talked to Hale + Brad; Hale was receptive; brought up unilateral orders to everyone; brought up mitigation issue; concern still on unknown cost of cleanup - mitigation no problem; asked to hold off on negotiated glove club; Brad will provide allocation cost info (MO site + FPA contractors); complete rules if pass TCLP + can dispose of cheaply; up to PRP; w/i week RPO back to EPA; also suggested cash-out w/ FPA lead removal; may be $1M from $FUND available; settlement + top fund + side agreement w/ us on mitigation
- he will float w/ $FUND + get back to me + us
- try to get settlement mitigation for DOE CNTS; if can't, still try to get the cleanup + let DOE worry about side agreement for mitigation
9. (all) Josh: agenda for 22nd + 23rd (yes, by end of next week)

L.O.E.

11 APR 96 DTA Bldg;

1. email to all on A.L. schedule
2. Dale Lebert: updates from calls; schedule
3. Sue Rozarek: $8900 of mod 19 (95 hours); new bill w/ current billable hours (-2.5 hours for Josh: $21,000 for L.O.E. subcontractors; $2K left on Phase I; hiring part-time person for library work on this case; need original invoice for Dan; talked about Phase III as add-on to Phase II; talked about Phase I close out

4. talk to Janet about ELRO @ pre-summit
5. message for Josh about travel question / A.P. schedule
6. review ANAP → A.P. + note to Josh; to Joe for addtl comments
7. Doug: here to use 3044, etc. for NRDA extension
- office fund targets from D.C. for NRDA not? she has some stuff from Rick or that — hasn't looked at it yet

12 APR 96

1. Pam Matthes: GE will explain; Klug; tues to FAO info.
2. Shelly: meeting w/ Klug; Jon talking / meeting Klug
- Phyllis finish COI draft (Frank Sweet Act)
- working on letter on FHA
- emphasize trying to get WI involved; working w/ Fish on KPC
3. note to Shelly on time / priorities
4. Bryan: briefing for Watkins @ 3:00 pm
5. John C.: support A.P. schedule; will brief Bill H. @ 2:15 today; Bill told Janet no time for NRDA FHA
- need management meeting to figure out how much resources needed: I should think about what to need
- fish: may be able to bring Fisheries resources to bear
- Ottawa: definitely in top group; really likes intended
6. Frank
- told Josh FHA a waste of time; briefing Bill @ 2:15 pm (J.C. lead)
- update for Frank
- to J.C. that Shelly won't respond to Frank because RO influence
- need organization on NRDA program
- log conversation: goal: stage track / slime keep management leggy pri-2
7. Josh Lipton: 2 economists at meeting (Rick (22nd only) + Mike; Bob can't make it); ∴ focus on injury and use of injury in econ. context; 2nd meeting on what to do on econ; 29th & 30th best; also May 8th or later; 24th-25th quiet possibility
- injury presentation 22nd; discussion review of 22nd; discussion on 23rd morning; afternoon of 23rd trustee-only discussion
8. note to Jean re/ agenda + schedule for 22, 23, 29 APR
9. Mike Lodrigard: 29th ok if really; presentation to Trial counsel on regular WED: Onieda can handle: May 1 or May 8 — FWS can show up if want; don't have PRP letter yet; ANAI: more inclined to send comments to us (Gerri Ledger)
10. Herb Nelson: available 29th; got mails;
11. Frank available 22nd + 29th
12. call Josh: left message that 29th looks probably
13. appointment w/ Interest (Thomas)

WEEK 7/22

15 APR 96

1. back up files
2. base slips + comp. time slips to Pat (18, 19, 22 APR)
3. go thru info. request files
4. read about Windows 95
5. read Patty Regan leaving stories
6. read Shelly draft letter to PRPs or FHAs; / comment / mail
7. staff meeting

8. Janet: talked to Bruce Haslick: FWS OK signed off on $; currently in OEC - budget person has sick spouse x months; $89K total; Janet will call Hank Delvaux
9. Herb Nelson: Creeks want WRDA steering; maybe try to get Coeur D'Alene people here; I'll call Herb Nelson
- $ for tube on East Coast not allowed (new policy); BPA will give to ~~NRDA~~/OEW (988K)
10. talk to Janet about case manager
11. update to w/Ken
12. Yates Lagrand: FAX # new: 889-4085; broadcast on email
13. Janet: Bruce Haslick says $ available & proceed; I said if Janet can do acquisition request for $700K then we will have $200K for the year & next year transition
14. Hank Bonnett: met for 1:15; J.C. & Bill gave lots of direction; said FWS to give 1 more bite at apple - send back to them; disparaging remarks about Shelly; said Shelly's draft "says: don't like what you sent, send something else, will meet if you like; mentioned that we tried; Hank now working on Shelly's draft; Hank suggested to Bill - opportunity to settle next March for Bill (Feud Heist); 2 major PRPs - 5 other real but smaller, PRPs + others for de minimus - need to get more $ now, pay more off the back - thanks your letters; need de minimus settlements - conquer & divide
- acquisition request of $700K for John B's signature to Hank Rose Please !!!

15. tell Janet & Jackie about appellate request: Jackie draft & FAX to Hank
16. tell Janet about dividing companies into 3 categories: ① non-PRPs; ② de minimus PRPs; PRPs
- positive: perhaps me to them
- concerns from them
- memo about → J.C.
- timing for Bill
17. Bob Rowe: Minutes of Rich 9 on 22nd: what time for trial?
- recreation study (anglers, etc.)
- also general population (V-style study; but
- would like to hear from Tribes on their concerns
18. call Hank to send Shelly; Chapel page 2; Hank will send to Shelly, Bill & John
19. Shelly: comments on letter? none; Hank is going a large; BPA has some comments; Oneida lawyer has comments
- talked about Hank's conversation w/Bill & J.C.
- Hank didn't call; update or comments on letter
- cancel conf. call for tomorrow
- ask Ken & Shelly if comments on letter; try to send tomorrow
20. call Bob Ross: gone for day
21. call Pat Kelly: gone for day
22. FAX Oneida comments on NRM to Joel

16 APR 95

1. talk w/ Ka about pre-summit
2. J.C. & Janet on Shelly's letter: took notes on draft; FAXed comments to Shelly (cc RO + Ursula)
3. Jack Rose then Tom Nelson called: re conf. call needed
4. talk to Janet, Jackie, Ka about NRDA $: $200K admin, $25K GIS, $ injury work; not to Phase III contract
5. Leslie Lehnert returned message
6. memo to Janet on NRDA $
7. Bob: I don't have anything from Shelly on 22-23 APR - updates on trade meetings w/ Bill + Jeff, also on letter to PRPs

17 APR 95

1. FAX note to Jean on pre-summit, info req. regs, + RO letter to PRPs
2. voice mail to Joel on DCCO funding aspects
3. call Mike Weland about start time for 22 APR: left message
4. Jack Lipton: voice mail on Ka's $25K - fine
   - funding scenario memo: $700K plus $900K plus $1.4M; include scope of Lake Michigan to year 2; they will use for planning; fund report meeting with FY97 + future funding (30% of total)
   - Mayan: report meeting + litigation support
   - if Tribal resources: pre-leasers would be good (Fed jurisdiction question); maybe stonger after tribal negotiations ($20K for leasing, $20K strategy, $150K for Tribal recs.)

- concerns about meeting: too much material + even substantively in advance; needs my help to defer discussion for trustees - only part - modified meeting; liability case has not been discussed internally; need to avoid that discussion at this meeting
- sources of hazardous substances ½ hour: & should give that part (look at ANAP)
- heavy cormorant in cage
- highest priority: need for claim (Lake trust exp.) (compatible w/ J.C. $300K for fisheries)
- low priority - nice to have
5. call Dave K: leave message about Friday $
6. email from Shelly on FAX letter to call
   - call Shelly (voice mail + secretary)
7. practice on internet and look @ ANAP for MSW presentation
   - overheads to Jean
8. ARI info. reg. review

18-19 APR: off (comp time)

22 APR 95: Ann Arbor: Summit (pre-) — WEEK 3/23
- presentations most of day, discussion

23 APR 95: Ann Arbor: Summit (pre-)
1. discussion of issues + assessment planning strategy
2. Pathway (Jacksonport 10K, 100K PCB; GOMSM calibration w/ fish collected in fall; stainless; copper-specific analysis of pathway in W. Mi. Bay)
3. 50K for local agrees to obtain fish release history; also ORC RS comments

4. birds: analysis / interpretation of existing data; bald eagle PCB/DDT analysis (DDT); osprey analysis (4-5 species ~10 eggs each); mink predator/population surveys (tested values)

5. fish: lingering reader study (in conjunction w/ pathways); sturgeon residue analysis (there to figure out if good load); fish sight study (lake trout, walleye, white bass, sturgeon - depends on if W.L.M. has related data maybe)

($880K: leaves $720K - 172K for econ + lit. support + report writing)

6. BTA/tribal funding?; Broward funding?; EPA funding?

Trustee-only meeting

1. Eagles - costs estimates: per sample cost? QA/QC?; sample collection costs? typical takes?
2. Scope (Rao): include the river
3. Gosda's recommended studies: ~300K a lot for the first year - is thyroid work really necessary; $100K may be enough
4. no appro. on walleye (separately w/ DOI, Davis; Lake Trout Symposium; Lake Trout Symposium)
5. ask budget about starting into FY97 (Brenda's budget looks ok)
6. question DDT/PCB analysis; more coyotes - specific fish data needed???
7. separate mink residue from mink population work - don't want (can rely on ongoing work)
8. eagles for MOTW? (BIA request a full coverage; include an assessment for; also include possibilities for

- also will come up Secor. info (injury vs. spiritual)
9. senior management meeting; can meet OTW w/ Tribal Briefing; also MOTW; proceed all 3 ASAP
10. tests to MOU
11. POTW 104(a); other 104(a)
12. RPAs

24 APR 96

1. Peg talk w/ Rao about case re score
2. Leslie: Shelly said refusal thru FY; Shelly meeting w/ Baker Hill people in May - Leslie invited; update on water; bank use or legal issues (PCB production; quantities or quantities or liability case
3. 2nd 1/2 of May ok for Coeur d'Alene trip
4. Shelly: got computer - need PC anywhere. talked to Pete about meeting; EPA liability: need proposal in writing for EPA; Shelly trying to get hold of ORC attys - Peg talk about "it's not": time / source problem - letter counterproductive from Shelly's point of view; quantity of time versus not quality of work; acknowledge limits - know about what can be accomplished [did not reach full concurrence on appropriate bal of time commitment; but acknowledged the issues + will move on together
5. Lynn Madsen (RO 612-725-3536 x 222) - call from U. of Minn; MN shooting club; [illegible] 330-972-5389
6. Brenda Landers (Perkins, Landers & Assoc. 310-492-8395) - left message about SETAC
7. Bob Rowe / speakers for MOU meeting: 1½-2 hrs (Bob, Rick, Mike, maybe Art) presentation 1½ days

8. call Jack (not there - cellular - no answer - called back) FRI 11am
① conceptually approved recommendations; but need several things before we can make $ available
- need ceiling for costs for each project w/ explicit understanding that $ will be spent
QA/QC, but possible
a. analytical costs: whose labs + whose control?
b. what work done by spit personal (who/when)
c. oversight costs for Hagler to assure QA/QC, etc.
for expert battery, etc.
d. need to know details of how to accomplish each project or how decisions will be made (particularly if relying on our by-work)
- need to know which tasks to launch again ($850K worth) + latest start date for all additional work (900K plus 0-1.44M / month)
- multiple sources of concern about costs & control: need best + realistic budget + time commitment for 4 years
② specific concerns or studies
- walleye repro. study probably; sturgeon ~~probably~~ may be insufficient - particularly gray lit. ($300K seems like a lot for like 1 test study; thymosal question necessary (Onondaga Lake: NY gets Lake Trout for stocking from the lake w/ 0% repro. in other species from thymosal)
- is eagle PCB/DDT analysis more important than fish congener-specific data? $40K seems like a lot
- just do mink residue + drop population analysis but $ needed

③ costs of Hagler incidental (meetings, day-to-day travel): how much $ do we need to cover this? ~~$~~ 4 pages for next meeting?
④ who are you available for RQ lunches
⑤ Betsy + Jack should talk immediately about measures Ken should take for his PCCO work (proceeding immediately)
⑥ can we still have A.O. ready for FRN transmittal by May 20?
⑦ long talk w/ Kelly; short talk w/ Jackie - good news + bad news (committed to EPA - really focusing; but is word to Jackie)
⑧ John Kerr would like mtg. w/ Anderson overbank or PCB top. (1st preparation); Kelly would like all overbanks; Jackie also (but don't go there Kelly - she wants to be prior)
⑨ products of work from Hagler ~~Hagler~~: data + analysis accountability pre-report? what if run out of $ pre-report? who "owns" the data, etc.
- 303-817-3884 cellular ⑩ Kelly/Jack comments on rec.
9. Tom Nelson: meeting on Fri. @ 1:30 on Oneida tentative-ship
10. call Frank: left message
11. look at Joe's rep. for NRDA training; comment to him
12. clear mail
13. note to Frank, Kelly, Dale on Pattison trip (21-23 MAY)

25 APR 96
1. budget discussion w/ Janet, Jackie + Ken
2. note on budget to Jackie, Janet, Ken
3. clear mail
4. Read Lake Ice: ecology letter of intent; need to get abstract in

5. Steve Diamond: can we collect stergeon next week? (w/Pat)
- depends on actual $ available; also millages to move forward before go to paper
- next week w/ we close for permitting; if so, Gilliam + Steve will care next week w/ mole
- assume yes; we will talk to Joel tomorrow about how to cover costs

25 APR 96

1. Shelly: O. Mandelbaum letter and call: 53 slopes, 1/3 done, need more time, interviewed 2 dozen people, 1st of June, needs answer today
- call from Bill Brighton: worried about Bender Bill - CVM may be too emphasized; more on injury than economics; Shelly worried about economics work - may need to delay meeting; [cont] [everyone better wade in now]; told Brighton that DOT has been hands off - for their own reasons; pointed about 2 things to Bruce Bay
2. call Leslie (left detailed message)
- P.H. Wakefield + Travis
- DOT concerns about scar/injury split on Bender Bill has Shelly worried about split @ Green Bay
3. call Brad:
4. Leslie: Susan Schneider question on WC laws - legislative history [got copies; history then assembly]
- SOL/DOT concerns meeting: decisions will be made - need to get valid participants aware; & decisions and document decisions will affect outcome; FWS to will make the unbiased other stuff

- Pattie meeting
9. Shelly
- call from Leslie on RD briefing; worried about RD section
- PC anywhere justification: because you a stone all time
- $899K; call Bruce Nesslich: 208-[illegible]976; ask how control scheduled; get account #
- connected Bruce Nesslich: can you talk: out of OEC; headed on NRDA vacation; check w/ Jennifer 703-358-2488; new slotting 25th: $128K (Con/M) signed by John Rogers now
- rest of contract schedules to come: $110M to AK from DOI budget - not resolved; the alternate
10. call Jennifer Coon: on message
11. PC anywhere justification to John Gibson
12. Dale Schnell: talked
- draft A.P.
- send copies of 4 reports overnight today; have Jack send A.P. overnight also

compact setting: modem

13. call HB about copies of 4 reports
14. many to Frank on agreement $700K for JB to sign
15. call Frank
- DOJ @ meeting w RD: $9,10 good
- $ situation; talked w Jensen to get req. out tomorrow
- Frank will attempt to get on RD calendar on 10th; & inform of DOJ desire to participate

01 MAY 96 : stay home
1. work on computer: FAX send
2. Tom Custer: try to get a few swallow holes up @ each site & let him know
3. Frank Howell: acquisition request ASAP; will try to set up RD meeting & alert about DOJ attendance; other updates
4. review admin files (1st log)
5. call Joel: try to visit the swallow sites put up a few logs if time; Kelly Island most difficult probably can't get to it.

02 MAY 96
1. check mail
2. review acquisition request ($700K; signed by Jensen for FS; J.B. signature page
3. note to Bob on Phase III Contract
4. Frank Gray 17; call H-B [illegible] to Bell to call Tuesday tuesday

5. voice mail for Joel about 17th MAY meeting
6. Shelly: purpose of call: Joel will go thru all the general topics of presentation; I'll send my part as well; post re-decision process
- Pete meeting w/ Bev Johnson
- Shelly / Leslie / Susan call: didn't go that well
7. Conf call: Janet, Shelly, Leslie, me, Susan L.
- 17th on RD calendar; looks good
- review of pre-amble w/ overheads
8. FAX PCB release overheads to Shelly, Leslie, Susan
9. asd Dave to set up conf-call tomorrow 9-11:00 am
10. Janet: Lt Stuyvesant speaks w/ NOAA
- Pete: all collections in MB waters
- Janet: she will try to calm Tom Lael & others down
11. Susan & Leslie: liability question for case; need to go greater by greater; need quantitative probability
- expert: Gary Ambola knows a couple of experts: NAFC also could help
- Matt has Susan's draft Fed. pers. memo (60-80 pages)
- met w/ Shelly: Bev wants to Pete Rogers there at briefing - Shelly resisted
- Ft. Howard: late 60's PCB monitor & paper; need NPDES permits & applications; get pre-NPDES info.; HQ - effluent guidelines record; WP WQS record; PL-84-800? - POTWs ref. 32CFR28;
- update w/ Susan
- DOJ / Bev Tripp to figure out how to address enrichment in case - stay tuned

12. email / FAX conf-call #2

03 MAY 95

1. copy computer files for home computer; get program disks
2. call Barb Nelson about BFA
- Don Thayer; still working on & issue; will ask response
- Barb will contact Leslie & Stephen FEP-only purpose @ 17MAY meeting (DOJ / FWS confirm)
- Barb will come to meeting, as well
3. conf. call (DOJ, SOL, FWS): econ & liability
- Gary Ambola has expertise & knows other experts
- need DOJ / DOI / FWS discussion of how to put answer on liability case
- need to service all PRPs, even if focus on Ft. Howard & Ft. Howard
- need to establish limits NT, but quantification to some degree likely necessary - esp. if focus on Ft. Howard & P.V. Flatfolter
4. call Jenny Coors (Baptorial): left message; email about $234K
5. note to Shelly on conv. w/ Barb
6. call Don Klone: 17th meeting; DOJ / DOI situation; Shelly / Susan situation; DOT involvement & even increasing; stay tuned
7. get forms & tags from Roy; note to Jackie & Janet on how to use

07MAY 96 Week 7/5

1. update computer files & back-up; copy files for Long
2. note to Joel about reading scope of work; acquisition request signed
3. look thru info. request responses; determine who sent materials; start organizing files
4. clear mail
5. phone note from Dale Nelson: Trustees don't mind not being @ 17MAY 96 RD meeting
6. RE: send mail to Paulson on RE/FS: use Rowland TBS for Beta 124; PCB risk > necessary
7. mail D comment to Bob Paulson
8. *** CBI: Exhibit B of Ft. Howard 03MAY 96 letter of response to info request (Jamerty to Smith) contained "Exhibit B" which is marked CBI; however no CBI is marked on the letter itself & it was not put in the cage w/ its CBI notes; removed exhibit B" from the letter, tagged it, and gave it to Jackie DeGraf to place in the cage w/ Ft Howard CBI logs
9. Bruce Haslage: abstract & WAA today to DER 4,476 plus 234 = 1.71M
10. Shelly: 104(e): update to her
- conf. call RRI or 17th w/ H-B, Rink, if possible

08MAY 96

1. sort info. regs. patents
2. off 24 for blood test Bernardo
3. CBI mail
4. take files home

09MAY 96: stay home

1. enter rolodex addresses on computer
2. work on mailing FAX card
3. review REPAT records file: update INFORESP. MEM
4. ELR
5. email to Joel about conf. call tomorrow
6. John Rose: needs FAX of FRN by tomorrow to schedule; A.P. would be good before meeting; John will request opening session in case determination question or assessment - hear anything from Oneida again?
7. Interest

10MAY 96

1. fax to Appleton WATTS
2. call Frank, Shelly, Joel about conf. call @ 11:00
- conf. call set up by them; FAX, email, voice-mail
3. FR Notice; FAX to Rose (draft)
4. Joel Lipton: conf. call agenda; scope of study; stay for contracts as we go - we should talk to Joel
- budget overall - Shelly wants to stay for additional $
- look way take by Roger + Dick; good to get Dick at the start while Joel here
5. Dana rep to proposed plans for call-forwarding (approved)

- over

6. conf call w/ Frank, Shelly, Josh, Bob
- FRP briefing: start early (Rickstrom); 8:00 a.m.
- Leta / Bea met last week on aggregate data; DOI's job to put case together; DOJ not decision-maker until referral; will meet again next week
- read A.P. + trace 1 track 2 discussion, right away

Agenda: Part I: Purpose of meeting: A.P. + track 1 + 2 + merge
(15') (Josh) (Shelly)
Part II: Intro to Management of Assessment
(David) (Objectives + management + merge
(15') (subsidence, etc. + players + parties
(management of assessment)
Part III.: Intro. to liability case
(David) - tight-rope: not on mock trial (DOJ)
(15') but more doing liability case (DOJ)
(not topic of discussion just present)
Part IV: Development of A.P.
(Josh) - how fits together; approach; how
(15') to get
Part V: ~~Contingency needs~~ Causation
(15') (Josh) assessment + info + data needs
Part VI.: Logistics
(15') (Josh)
Part VII.: Economics
(30') Part VIII. Engr. / Restoration relationship
Part IX.: Schedule
(15') (David)

(2½ hours)
~~Agenda~~ allow double for ~~mtg~~ time

- completion of A.P.: redirect on scope: done
- Shelly will draft the agenda + distribute
- others will distribute any briefing materials
7. call Hank: left message w/ time
8. call John Haas: can't make 16th meeting
9. Dalie Lehnert
- FAX agenda
- where is meeting?
- get FRN; DOI may have some say
10. Dalie Lehnert
- agenda for Portland
- Bea needs time for water phase management discussion (1st day ½ hour)
11. FAX Bunker Hill agenda to Dalie
12. mail comments on 17MAY agenda to Shelly

13MAY96 (Home) WEEK 7/26

1. fix computer for
2. FAX agenda to Roger Helm
3. Dalie Lehnert: need address of hotel + RI RO (Shelly will not to call me, but she's not in)
4. prepare materials for FRP briefing - finish
5. draft Paper - Theory: info req. response
6. MSN for mail
7. go thru admin files

order

14 MAY 96

1. clear mail
2. Leslie: can fly out MON night: can we shift to all day TUE & WED; Ben will take 15 things on agenda
3. Shelly: not clear on how to modify agenda for Rasbower; Pete not happy w/ BOD for coordinator - will talk to DOI
   - agenda for Portland? FAX
   - ~~not for~~ FRI? FAX
4. FWS www address to Cathy (HTTP://WWW.FWS.GOV)
5. Email addresses for Lone
   ALLEN.CATHERALL@EPAMAIL.EPA.GOV
   BISHOP@AE.AGECON.WISC.EDU
   BROWE@HABACO.COM
   BRUTSTHROAT@MSN.COM
   JHOUSE9404@GNN.COM
   JLIATOR@HABACO.COM
   PAULSR@DNR.STATE.WI.US
6. work on briefing for FRI
7. call Dunk about agenda & Portland trip
8. Leslie: questions on fish, CWA, etc.; meeting w/ Pete Rayon coming up
9. FAX Portland agenda to Shelly
10. FAX ~~FRI~~ to Mike Lobsinger; ask for email address
11. call/visit regd Helm
    - call, Leslie: start TUE morning, if possible, will be late & stay longer
12. cage unlocked: locked @ 12:20 pm; talked to Jackie - she did not open
    - talked to Rob Elliott: Roy Bethin in cage yesterday; Rob left unlocked until today (did locked); I explained that cage must remain locked. Rob confirmed that only CORO personnel had access (building locked w/ hour overnight - cleaning personnel had escorted access)
    - made, not shown in log; Jackie will ask Roy & Rob signature on log
    - I will talk to Roy

15 MAY 96 HOME

1. fax FAX log dictation
2. FAX note to Shelly, Leslie, Roger Helm
3. E. Paper: thylmann refs. reg. response
4. MSN - mail
5. Leslie: any word from Portland? no; Pete Rayon not going to RO Fish (manager, not details; check for RO/DOI); P.H. ltr. sent letter - don't understand our letter - need clarification or DOI position to decide about meeting
6. sketch hypothetical case assignments for Sherry Bay
7. Lunt: email agenda; I should fully understand; J.C. marked update on 104(e) for POTW; J.C. has been talking to Rayon, Keller, others - some corporate want to participate, some not
8. Shelly: talked about Portland schedule (Rayon and RO meeting - will talk about agenda tomorrow; PRP FRA response; POTW 104(e). Shelly points out that Bill also [illegible] with us; info. response - she will call tomorrow

16 MAY 96 (home in morning)
1. Leslie: staff interested in MON morning if anyone available
2. Roger / Dick: not available until 1:00 PM (also not a good idea to start w/ Shelly time)
3. Jennifer Baddorick: returned call
4. Karen (Aubyn): GAO: Nemaji settlement info
5. look at A.H.F.I. FPA letter
6. finalize agenda
7. leave message for Leslie about meetings start @ 1:00
8. talk to Ken
9. leave Joe add'l info. to INTERESTING MEM
10. review U.S. Paper file
11. leave Laura make CC: Mobile file

17 MAY 96 (RO: RO/OOS briefing) (Ben Erdreich, Sam Lebenty, Bob Colbert, Bill Hutton, Bob Quarles, Shelly Kelly, Jim Smith, Dave Bob Rose)
1. presentations by Shelly, Dave, Joe, Bob (see overhead)
- need briefing for OSR & selected officials (Dave)
- need website letter for A.P. FPA (Dave)
- A.P. & case management discussed
- PRP letter response (Shelly)
- FPA's (Shelly)
- case management plan (Janet)
- SOL/OOS discussion, the ATTC/agency discussion (Ben, Dave)
- OOS will assign funding & duties - especially for liability case (Ben)
- OOS/OCE/EVA meeting (Bill, John, Ben)
- A.H.F.I. letter discussion; response (Shelly)
- Bill/Ben discussion of potential settlement language: Bill will talk w/ CEOs about framework - not actual - knows no specifics, plus no authority; Ben - can't hurt to have relationship - could help (unlikely, to precipitate settlement though); DOT standing behind us; Judicial Cooperation will be final settlement - judge must approve (need Legis. Info); high level discussion re: settlement framework called stay outside of FOB (J.C. likewise)
Josh & Brian prone confortable w/ this step before: R.R. / political advantage; Bill seems to understand & accept limits of info now & authority in end; keep J.C. out of any settlement discussion, though; Shelly still has concerns
- confidentiality: don't open motion concerning discussions to public; decision can have public meetings thereafter; conf. agree. to cover CEO / legislative comm. meetings?

WEEK 7/27

20 MAY 96 (off: home)
1. email to J.C. or Joe to request
2. email to Linda & Shelly to start on O.C. briefing
3. email to core team on briefing time needed for A.P.
4. email to Josh re scope of work for immediate work (A.P. finalization, charges, limitations, legislative scope, etc.)

21st (flight to Boston)
read L. Mc matter papers; draft OSR (OJRA)
memo: draft
talk with new

21 MAY 98 : PLF to Portland, OR (Dick Babson, Roger Walker, Don Stoffel, Barry Stein, Dave Allen, Shelly Noll, Leslie Robert)
1. missed 2½ hours (plane late)
2. review of mine injuries discovered; SOL analyses should focus on correction chart; also suggestions prog
3. review of OSMB, EPA, WDNR, Tribal involvement
4. discussion of legal support & RWS case management & managerial incidents
5. discussion of timing & scope of econ studies

22 MAY 98 (continue Portland meeting)
1. Barry Stein: questions on timberlands
2. Don Stoffel: early studies by RWS, last Tribe 1 BIA or Bad at first or NRAA
3. 1991 PAS; 1993 Babson/Stoffel/Anchet team
4. Babson rea: Babson (100%) Stoffel (10-20%) Anchet (100%) → (staff of 4: 100%) (1994) (although) (may)
- need the control & authority; BLM has 1 full time plus some part time
- Dave D'Alessio Tribe: 3 full time
- BIA & OEPC on as-needed basis only
- 1992 MOU signed w/ RO authorizes official delegated
- Coop agreement w/ Tribe: allows 8 transfer
- also MOU between POC/DOA/Tribe on boundaries
Timeline Council (RO, Regional Boards, Tribal Chairs) Project Manager (Babson (DOI), Tribe, Forestry) (no QA/QC team) (legal team) Technical & Contractor support econ. team
5. need recent co-planting relationship w/ Tribe (chronology)

BIA ISSUES: ① Case management (need full time people & project manager w/ authority); ② SOL ③ [illegible] ④ econ. timing & general timing; liability case

6. Economics: CV pilot w/ discussion, comparability values (case to apply restoration) (very similar to Deer Boy)
7. need more effort on restoration side
8. should consider deviation from regs.
9. Financial management: project manager's control comes from setting the $ + budget: check-points in the contract
10. significant assessment area (grossly disproportionate re: cost + difficulty)
- phase the assessment: start w/ what can be accomplished w/ Lower Deer Boy; follow where data and funding lead
11. Coeur D'Alene RO could help w/ QA/QC: possibility for resource sharing

23 MAY 98: fly to Deer Boy
Review issues for reconnaissance to Shelly, Leslie, Mark
① Project Management: Leslie 50+% as project manager w/ authority to direct NRAA; send my line to him; give him contract control; get agreement from RO/ARD to allow him to work 1 day/week to interface; bring in DOA & people to do liability case; put Shelly & Dave in charge (actually);

HARTLOP/TELLER/PEXTATER — HALL/DOI/GREENE/LOKENSGARD
HARVATH/ROSS/PELKEY
TRACK 2 RESTORATION
ALLEN/MONETT/GOFO/H-B/TRIBES TECH & CONTRACTS
H-B/GOFO/COAI QA/QC
ECON GOFO/H-B/OEC (KEY, SAMES, OTHERS)

2. Priority order: SOL, FED-PERM. RELEASE, TRUSTEESHIP, LIABILITY CASE PATHWAY (ALL), GD INJURY, L MI INJURY, ECON. SCOPE, ECON FARM RESTORE COMMITTEE + BEGIN WORK

28 MAY 96 WEEK 7/28

2. Get mail
3. Talk to RB about Conoco D'Abo trips + strategies
4. Talk to Janet about Conoco D'Abo trips + strategies
5. email to Pat Gray about consult recruiting profiles
6. Goal topics: ① time problem, the priority suited; maybe take more time; focus on pathway this year; spend more on that; field investigation, study on best cheap pathway; + still take test in place; pathways the (old) the more the field study; land app + surface app - cheapest; mid - either way (2nd priority)
7. Marcia Katz (DOE): lawyers want to come out + look at documents (+ attys + maybe Matt Richard (Elliot Rockler, Dave Markeway, Dale Lehet, Marcia Katz)
8. Roy Palmer: LKGN: very little movement; met w/ Bright + his supervisor; (PRPs) they want to confront - difficult to negotiate (looking against self); EPA does not want to disclose their estimates; Roy will seek approval from PRPs - try to get them to work; will consider cash out, but not ready to discuss that; dec. Jan on dry land as proposed earlier; 9-10 [illegible]

do clean mechanical clean up; stop foot of all areas not important remove it, stabilize, warning, wrap contam. off site; try to get to 2500 ppm (Lowenfield level) - maybe base right at surface; 500 ppm equiv to 500 pallets per cu. ft.; not much different than 1 shell per cu. ft. may be technology limit; will also be bio available to water/soil; 50 ppm WB ARAR (50 pallets/cu. ft.) for residential; also wetland loading; removal of 1500 cu. yards soil, 130 tons PB.

8. sent file for MRPA

WEEK 7/28

29 MAY 96

1. Clay mail
2. files
3. case management structure
4. call John Ross: left message w/ secretary
5. call Bird
   - project management; got my email; Bill had the talk w/ Frank or some subject: want to tied to my case; T.C. to see re strategy committee (how to pursue PRPs, conflicts, etc ?)
   - A.P. strategies

12 email to Dick

07 JUN 96

1. fax CC schedule; note NEW DIR
2. FT. Howard folks
3. INFO RESP MEM
4. Hector: paper ~~submitted~~ by Cheryl & Mike on eagles may be unnecessarily dogmatic on PCB causality - could be embarrassing as currently phrased; would like to suggest some changes but won't be available next 3 weeks; could Ken expect his pullback over Cheryl to wait until Hector has opportunity? I will talk to Ken
5. talk to Ken about 7
6. talk to Lisa Williams about GB NRO involvement: 2 options: ① status quo (support behind-the-scenes support, as able) ② small (10-20%) but real commitment of time for pathway & something else
- both recognize that ① is the likely result
- both recognize that ② may improve long-term leverage
- ~~NRO~~ may be unwise for ELFO to offer support in exchange for reserves, since admitting capability may be all Bill needs to make move w/o reserves
- both recognize that Sec. Dep. must succeed to avoid damaging Dixon Boy - can't stop ELFO support
- regardless of actions, Lisa & I will continue to coordinate closely

7. Jackie: Please route breakdown of all costs for Dixon Bay NRO this year; we can work together next week
8. leave slip for 21 JUN 96
9. Frank
- call from Hector on eagle paper: need to talk to Ken
- article from Lisa quoting Ken on C. BAY injuries - problem: need Ken to become anonymous
- Ken & Frank & I should get together TUE night
- ~~should~~ cancel SETAC
10. Call Brenda Harbin: cancel SETAC plenary
- who can replace? Lead? (Jane #)
- call next week w/ some names for ~~oil~~ opportunities
11. FAX INFO RESP MEM to Frank, Shelly, Maureen
12. email to Dick, Roger, Barry
13. email to Frank

10 JUN 96

WEEK 7/30

1. call Jeanne to send FAX to Frank & Maureen (done) ② Ltr to Co; ③ Ltr to Co if FOIA'd
2. read CBT memo: ① fine w/o public?; ② confirm EM copy public; ③ have to read
3. read draft A.F. from Joe: notes in margin
4. call Joe: list of work priorities, assuming maximum of $1M per year next 3 years; discuss role in FB (or exercise w/ Jackie, the RO); left message w/ wife
5. Maureen Kelly: 6 (incl. Shelly coming) @ 10:25 am TUE & have parking car ~~reserved~~ in B & B; Dixon Bay; Jane meet/wait TUE only; Elliott Bailey earlier on WED; ~~meet~~ return WED afternoon; ate mid WED? yes! ~~not~~ return WED afternoon; ate mid WED? yes!
Lisa Code Envr & directors

6. complete: message from Frank; message to Lisa: replacement for SEPAC
7. ELR: 11th Cir. enforc. of Dangers @ 26 ELR 20939
8. install PC Anywhere
9. email to Brian
10. weather from internet

11 JUN 96
1. P.H.G.I. fibs away
2. prepare for FWS/DOE/DOJ/H-B meeting
3. copy of A.P. comments (Frank, Shelly, Joel, DOJ)
4. Copy of another RARA for non-PRP response (same)
5. Meet w/ Lisa & Joel (+ Janet + Mark)
6. Meet w/ Maureen, Dottie, Elliott, Dave, Shelly, Joel, Frank, Joe (+ Kathy for a while)
12. Phillis Rose: returned message; gave 2 Tribal contacts

12 JUN 96
1. field trip w/ Maureen, Dottie, Shelly, Frank, Joe
2. make public reading room (FRA/Secondary reader for ATTN)

13 JUN 96
1. talk to Jackie about ordering file cabinets (10)
2. talk to Janet about place to put 10 cabinets
3. Ken: wants me to go to USCG drill: no
4. J.C.: how things go to: fine; good discussion; some GSRO people have to make transition - confident that will; Joe did work well w/ Brian; let Frank know if any problems
5. work w/ Joe to organize stamps & files
6. long talk w/ Kathy about transition
7. call Joel about RO meeting 28th + budgets
8. Lisa: not able to do SEPAC
9. call John Rose about 27 JUN A.P. comments to Brian: left message w/ date
10. Clear mail
11. Brian: 25th, not 28th
- Shelly not happy w/ Ruth talking to Kamps
- CBE: need to send letter to 10 companies (or all 17): Shelly will have language
- reading room, not 2 copies
- get cabinets, copying, & tapes over (w/ Janet) (no transfer until paperwork final)
- PRN draft: send to DOJ / Shelly
- FRC: Janet & I should go on 27th
- log talk w/ Ken
- budget figures to Brian
12. Talk w/ Janet about transition
13. FRC / BASE index: work w/ Joe on index summary
14. stamp files (Nestlé & J. River)
15. have Jackie order 10 file cabs, + list temp
16. FAX PRN (draft) to Maureen Katz
17. Joel & H-B: invoices, rates, etc.: letter will clarify ambiguities; out of money (really)
18. call Frank + Sue about ?
19. budget projections for FY 96, 97, 98; mail to Frank + Shelly
20. update mail to Brian

14 JUN 96 (home)

1. Shelly
- reading room
- DOT will probably hire Arnold to review fiche; hope fully at DOT expense
- Shelly will check w/ Milwaukee U.S.A. about copying of tapes & provide extra copy to FOIA requests; but Shelly to do request - purpose of reading room
- need to draft follow-ups on 10K(e)
- planned date of response for letter
- review ~~10~~ 10-K file for FOIA exemptions
2. Steve - Mead Corp. & P&G
3. re tall PC Anywhere
4. mail to Glenn on PC Anywhere
5. fax to Nat. Mgmt. Appraisal Commission
6. Tom Custer: WI River & Muskegon field work
7. mail to Brad
8. mail to Diana Lee for FOIA review

18 JUN 96

WEEK 7/31

1. propose 2nd round of copying for reading room
2. look over temp. business for Jackie
3. list of "to do" for temp
4. fill list for copying finished
5. mail about funeral
6. mail on reading room letter to responders
7. Bill conf. call (Region - wide)
8. Brad: talked to Sue Rozanek - she needs more info. for scope-of-work; call Sue Rozanek ASAP

- talked to Bill yesterday about A.B. & strategy - he brought it; will read on plane; to talk about filing & strategy & negotiations (retaining leverage) - agreed
- CBT confirm letter
- another FOIA yesterday; attorney letter with (also for Shelly & Austin)
- file cabinets ? - need; ok
- leave slips etc. Janet sign mail, d sign for (both for Brad)
- need to look at Janet Brewer critique of RLPO cost accounting & work w/ Jackie to contact good system
- get salary + overhead from Jackie - Lisa on 24th
2. call Joel: meeting 24th or 25th JUNE; d will talk to Sue for additional info. for scope of work
10. call Sue Rozanek: left message - need info. for what should be in scope of work
11. call Brenda Sanders about FOIA: gave Brad Wonath, Roger Kehn, Pete Eschweiler as contacts
12. Brad & Shelly: FOIA letters
- COK Nicolet, Cntl Paper, Thilmany, P&G Mead, Lake Superior
- P.P.G., WTM Rexnord, NCR, Appleton Papers
- U.S. Paper & Ft. Howard; language mod. from Shelly
- Bill, Pete, Dr meeting; Matt Richmond wanting in (asset & litigation) (asset ~~protected~~ protected) (potential liability & ~~stock~~ stock prices)
13. Jackie: get new file cabinets for $1300, Rusty chair Monday
14. Federal Protective Service checked Sunday at 7:00 - advised to keep doors locked

19 JUN 98

1. stamp Pilney
2. PC anyalee coinjection
3. Joe: coffin meeting
   - tell Ken to go ahead w/ them
4. Don Tillett
   - hall pass & fish.
   - he will try to line up Katchy for theme depict fish; he will let me know if needs help
   - he goes to Russia for 2 weeks on July 6; would be great if have answers / go ahead before then
5. email to Ken message that Joe to call & then agge
6. email to Joel on Tillett & Ken & proposed field meeting in next 2 weeks (re Bird)
7. email to Bruce on PC anyalee: "DOS post "document
8. Joe showed Jackie NCR stamps (about need to know old #s)
9. Greg Dreiss (home) (303-449-4590): need anything for budgets?
   - waiting for Dave: will touch base on MON, if necessary
   - need as much on fish budgets as possible ASAP
   - tele meet fish meeting in next 2 weeks in Boulder
   - talked w/ Mark: calling Don; fish pictures coming together
10. Ray Palmer: July 1 conf. call Banning/Palmer to try to make anyway; quick agreement on $ FWS understand by August; stipulate to FWS has no concerns w/ material sub 500 ppm Pb bel ρ FWS will want modest mitigation
11. email to Hank
12. call Leslie about RP meeting
    - RP meeting went well & covered many issues quickly, not many pushed
    - Bruce will try to talk to EPA again
    - Bill has ideas on how to create pebble environment - but understands limitations
    - legal team MOR
    - TUE: legal team will go over all of the issues w/ whole team
    - Hold Leslie that post field assessment meeting at later date (last Jan)
13. Joe: sorted ADMIN file; started stamping RD/RA

24 JUN 98 fly to RO WEEK 7/32

1. meet w/ Mark: updates
   - T.C.: Bill must be @ meeting until tomorrow afternoon or cancel. Bill will contact Bob & Ben before deciding
   - copy of FK Silver affidavit from 15 MAY 98 (Colorado) received this morning
   - list of topics to cover today
   - Shelly & Joan: marker called: DOJ says Bill called & cancelled; DOJ wants to cancel; Hank, Shelly, Id propose pilot material @ C & in Boulder

NESSLAGE
202-208-3694
202-501-7977 DIRECT

- Cathy sent proposal for FOTA - Shelly will FAX
- Ken got her copy
- call Bruce Nessling about WAC + CS: 30, 1996 (96?) WAC w/ carryover table - $1771K (accompanying data) doesn't include $234K for FRGB (all): $200SK total; $1771 rec'd. $284 Lay Bay: $15K project management; $827 FRGB total for FRGB: $827+234K (906 IK); 649K FRGB = $1710K grand total (1476 new in WAC) (234 in carryover table)
- call Maura Katz: left message about D.C. visit
- call Bruce Nessling re/ Dean Valentine; faxed up OFTs
- Maura Katz: set meeting for Th @ 9:30 am in D.C.
- Deana will OFT Green Bay tomorrow
- connect w/ Shelly: Thursday meeting set; DOJ comments by 24th, Oneida also; Shelly will check w/ Bruce Deana; Shelly has comments on FRN
- D.C. people ok w/ cancellation
- trustee MOU follow-up (good); Bill wants to meet w/ Tribal Chairman w/ MOU in hand (by)
- Ken
- Angie
2. talk to Sue Hazard: all dated to scope of work

25 JUN 96 (RO)

1. book flights
2. call Deana for D.C. + Boulder trips
3. talk Julie again about D.C. hotel (room not)

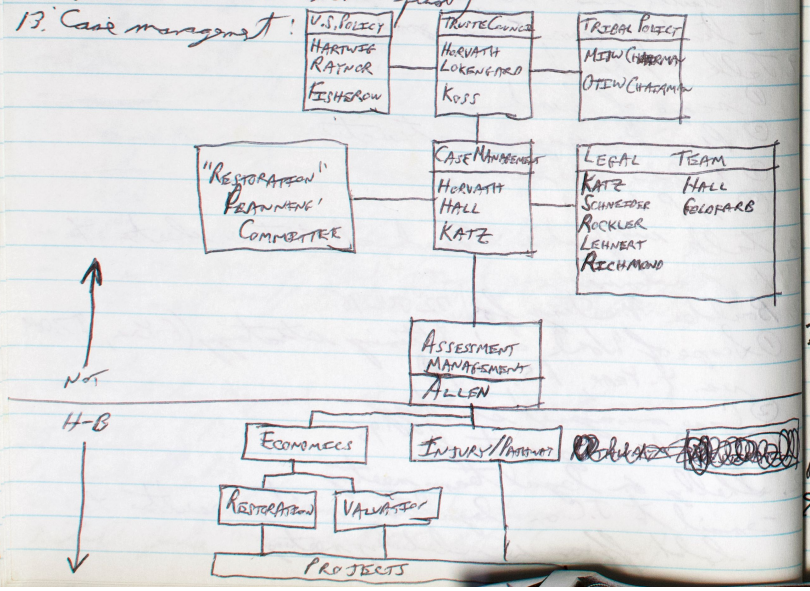
Julie Jackie

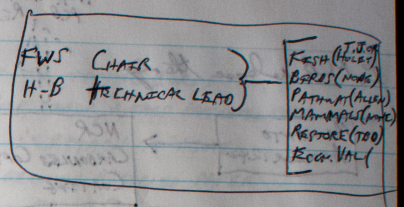
4. to-do scope of work: to Sue T Frank; mail time
5. book mail
6. project management
7. meet w/ Deana + Frank on OFT
- $732,740 (457,740 THRU APRIL
235,000 FOR MAY CONTRACT H-B
40,000 to cover Joe + Dan - salary thru the realignment plus 20% for admin cost of team)
8. Shelly, Joan, DOJ looking for space
- need archival copy in DOJ; 4 + 5K
will send FED-EX: 2 locations
- list of issues - looks good
9. Talk w/ Frank
① scope of work
② Project management structure
③ Boulder agenda
④ A.P.V
10. talk w/ Julie + Frank about time sheets + $ + admin.
11. Boulder Meeting for 02 JUL 96
① Scope of Work and $/timing strategy (6-Year, $7.0M vs. 4-YEAR, $5.0M)
② Case management strategy
③ Field arrangements for 96
12. Shelly on legal team meeting
- mail to J.C. on legal team meeting results + hold off on re-scheduling meeting

- SOC (Elliott & Shelly);

- Shelly (P.H. 21): AFT (Marcia); Jt. Wheeler ISS Elliott NCR (Marcia) U.S. Paper Joan Stafford; Sala (MIT); Matt (Reinemeyer)
- Marcia will collate DOI A.P. PTRN comments & give to Shelly who will forward to Dave (Shelly)
- question/requests from legal team; 104 copying; weekly conf. call (coordination team only) - draft POTW 104(e) letter; Tribal issues; summary of legal issues; NRDA issue: de-indexing & PCB "101";
- index to Gold file
- scope of the work; Boulder meeting (FAX to Shelly)
- ADMIN files, MARCH (Anne)
- trustee MOU. (DOI reviews first)

13. Case management:



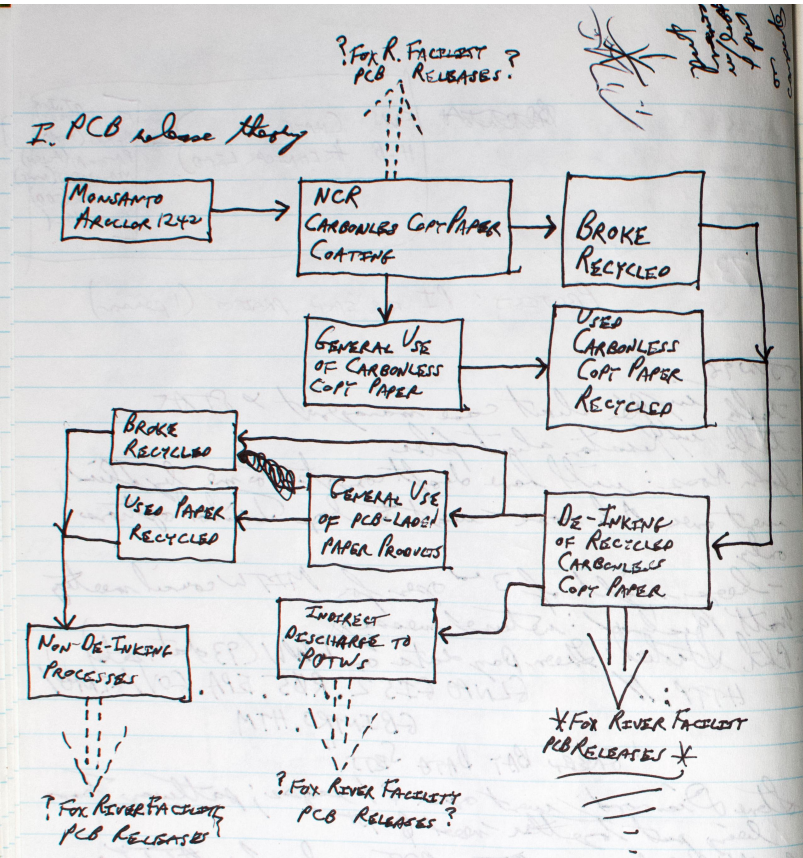


PROJECTS: PI FOR EACH PROJECT (1 person)

28 JUN 96

1. Talk w/ Ron about case mngmt & STAT
2. talk w/ Kristen about files
3. John Ross: will have draft comments to me by Thurs; want over A.P. some - want to keep Tribal options only
   - keep night of 3rd open for MIT w coord meeting
4. Matt Reinemeyer: internet message
5. Phil Strobel: Green Pay data on WWW (93 data set)
   HTTP://GLNAPGIS2.RBS.EPA.GOV/GLNAP/GBINTRO.HTM
   "GREEN BAT DATA SETS"
6. Steve Diamond: want over $4 region; pathway team laying out together - need $, ST
7. Matt Richmond: ~~DOI~~ DOI on board; HTTP on board (need political support - connection w/ Bill) - (DOI not in two on this issue)
   - complicate or catalyze a seal team
8. fly to D.C.
9. notes on PCBs + birding (Coney)

I. PCB release theory



II. Recognizing PCB Releases in the Records

A. BOD, CBOD, SS, TSS (Pulp, Fiber, & other paper-related organics)
- PCBs are hydrophobic ∴ attach to above
- Most of pulp & fiber becomes recycled paper
- Inefficient processes in 50s & 60s resulted in substantial BOD, CBOD, SS, & TSS releases (& thus PCB releases)

B. NCR Paper, SCM Paper, Carbonless Copy Paper
- Most recyclable paper contains ≤ 100s ppb
- NCR Paper ≈ 30,000,000 ppb

C. De-inking process
- As defined in EPA categorical standards & described in EPA 1976 & WDNR 1978 & Company records
- Different than some "De-inking" of inks other than CC paper (still allowed to produce inks up to 5000 ppb)

D. PCBs (total)
- In late 1980s & 1990s analytical techniques measured all 209 congeners at once & 'as one' (& this started in response to the Yosho Incident in Japan)
- Often still measured because cheap & easy (relatively)

E. Aroclor 1242
- Commercial Monsanto mixture made by adding Biphenyl in the presence of chlorine according to a recipe: result is PCB mixture which is 42% chlorine, by weight (1st 2 digits are merely series indicator)
- In 1970s - 1980s, analytical techniques allowed GCMS pattern recognition by Aroclor (e.g. 1242 v. 1254 v. 1260)
- Pattern recognition decreases w/ time, distance, trophic level
- Most/All congeners in all Aroclors - different patterns

II. F. PCB Congeners (unique chemical compounds)
- 209 : numbered ("Congener 126") or full chemical name (e.g. 2,3,7,8- tetra chlorobiphenyl - or something like that)
- Analytical techniques became feasible in 1980; extremely expensive, difficult, time-consuming ($2000/sample) to this day
- Most useful information for understanding precisely what was released, what moved where, & what caused what
- Different congeners can cause same effect (additive TEQs) (e.g. "Dioxin-like effects" - AHH-mediated)
- Different congeners can cause different effects (e.g. estrogenic effects v. embryonic death)

G. NPDES
- Final permits (total PCBs) (categorical and WQBELs)
- Applications (OCs, [redacted] Chlorinated Hyorocarbons, PCBs (total) ("Present," "Absent," "Testing Required," or #26 explanations)
- WDNR WQBEL recommendation memos (PCBs and/or congener and/or Aroclor)
- Negotiation Records: ① WDNR/Permittee; ② EPA/WDNR; ③ EPA/Permittee; ④ Advocations; ⑤ Public comments & hearings
- Pre-NPDES enforcement actions (WDNR) (1940s-1974) of Fox R. targeting BOD/TSS (∴ PCBs accidentally)
- 1970s WLA negotiations (BOD/TSS driven)
- Committee on Water Pollution Fox R. Facility reports (1930s-1980s): Process descriptions; treatment desc., BOD/TSS levels (& PCB or association) measured in effl.
- DMRs (EPA) & NR105 (WDNR): BOD/TSS

H. Production Rates, Production types (BOD/TSS inference ⇒ PCB inference)
- Company Records
- Lockwood Post

I. Overviews
- EPA 1976
- WDNR 1978
- EPA Sub-category [redacted] treatment standards (Pulp & Paper: De-Inking)
- RAP & STAC documents
- H-B Reports

III. PCB EFFECTS

A. DIOXIN-LIKE

- PCBs & DIOXINS & FURANS ARE 2 PHENOL RINGS ATTACHED IN VARIOUS WAYS, W/VARIOS RADICALS ATTACHED
- A FEW MIMIC KEY BIOLOGICAL CHEMICALS FOUND IN PARTICULAR ENZYME SYSTEMS
- 2,3,7,8-TETRACHLORO DIBENZO-p-DIOXIN IS EXTREMELY POTENT IN AFFECTING THE "AHH-MEDIATED" OR "CYTOCHROME P450" OR "ERO0" SYSTEM WHICH IS INVOLVED IN GENE REGULATION
- CONGENER 126 IS NEXT MOST PCB & ACTS LIKE DIOXIN IN DISRUPTING THIS SYSTEM
- THE VARIOUS DIOXINS, FURANS, & PCBs WORK ADDITIVELY IN THIS DISRUPTION; TEQs HAVE BEEN MEASURED TO DEVELOP TEFs
- DIOXINS & FURANS ARE NOT PROMINANT IN FR/GB; PCB 126 ACCOUNTS FOR MOST OF THE OBSERVED TOXICITY IN SOME STUDIES
- OTHER PCBs (e.g. 77 & 105) SIMILAR TO PCB 126 ("Co-PLANERS") CAN ALSO ACCOUNT FOR SIGNIFICANT TOXICITY

B. OTHER EFFECTS MAY BE MORE ATTRIBUTABLE TO OTHER CONGENERS : ESTROGENIC

//

- WORK UPDATE - Jo
- MEW UPDATE - Jo

1. K-C & G-W 104(c) follow up (memo)
2. Computer flow chart w/ cs. names

IV. FILE TASKS FOR KIERSTEN

1. RESTAMP NCR
2. FINISH STAMPING THELMANY
3. PUT P.H. GI. IN FILE FOLDERS BY BATES #
4. SEND FOR COPYING: NCR (2 COPIES)
   P.H. GI. (2 copies)
   THELMANY (1 COPY)
5. ORGANIZE ALL FILES BACK FROM COPYING
   - ORIGINALS: KATZ/DOJ
   - COPY #1: EXTRA/DOJ
   - COPY #2: READING ROOM
6. FILE READING ROOM
   - LABEL DRAWERS: "GREEN BAT NROA
     000080 - 000000
   - REMOVE FOIA EXEMPT DOCS IN BATES ORDER FOR POAC OFFICE
   - PLACE NON-FOIA EXEMPTS IN DATES ORDER
7. LIST ALL FILES WHICH ARE STILL NEEDED FOR FILE ROOM

//

8. call Kiester about

27 JUN 96 DOJ - D.C

- case managed discussion
- [illegible] of legal issues
- [illegible] of NROA & PCB - release & PCB pathway & PCB toxic
- documents; SOL; Timetable

28 JUN 96 5th floor (weekend)

1. HA

(5:00 am – 12:30 am)

02 JUL 96 To Boulder: Joel, Bob, Steve, Blair, me WEEK 7/33

1. send scope of work: ① draft; ② email Blank & Joel; ③ Blank sign & to Sue after she
2. Sept Dallas litigation and evidence meeting (Deer Bay or Twin Cities) (OOJ & HB)
3. case management structure

03 JUL 96

1. clear mail
2. review files w/ Kristen
3. travel vouchers & time sheets
4. Warren Kitz: already got info.; law cases Boulder; document status: 4,000 pages today; more to follow
5. call John Koss: line busy
6. modify scope of work: email to Blank FAX to Blank & Joel; call Blank & Joel
7. Denise: switch to FRI & off
8. go through latest ADMIN for FOIA exemptions (part ½ done)
9. talk to Janet: update; FRC; update
10. mail to Blank
11. Sue: send scope to Blank this afternoon
12. FY95 file home

04 JUL 96 : HOLIDAY

05 JUL 96

1. send latest FOIA exemption citations; note & file to Joe
2. organize files; talk w/ Kristen
3. note to Blank & Shelly to send CBI from SOL; CBI confirm letter; A.L. comments
4. read Mark Holyoke note on FY96 budget & fed. work
5. review FOIA exemptions; update & print dBASE (file & hard copy to Joe) (hard copy Kristen)
6. email to Blank
7. ELR

WEEK 7/34

08 JUL 96

1. update computer files
2. work on reading room
3. email to Blank on Mark, Rex, Joel
4. call Blank about meeting John Mullin expenses for copying
5. send READROOM.NOT
6. Shelly Hall: consolidate comments from ATTYs (got late last week; will FAX to FOIA & RO
   - CBI - can't find it; still looking
   - James River
   - conf. call @ 2:15 pm
7. clear mail
8. talk w/ Janet: update & trouble areas
9. Shelly & Blank
   - Blank sent justification to D.C. for acquisition request for copying: answer can't know now

3

1. MK

From: 800-362-2...

- Shelly will call Maraba & GBRK & RAYSPEE about CBI response - CBI FBO-EX sent to Shelly - ok
- need to respond to CBI, regard to ship files for copying
10. Frank: GPO printing being sought
- ok on keeping PRR files to prepare for Aug 16 (don't try to get archived copy to DOT for now)
- ok to put FOIA releasable copy in reading room
- FAO room weight from D.C.
- budget
- conf call 1:00pm conf. call
11. talk to Ken about budgets / proposals; gone for day
12. call Joel (not there): Steve Diamond: will have tomorrow pm (proposal finished)
13. call Frank for U.S Page "re CBI" letter
14. note to Shirley Jackie

02 JUL 98

1. Daily update to Frank
2. Hotel room rate: $139
3. Frank: GPO contract: Lynn Kelly says GPO won't grant waiver, but will call for local quotes & let GPO contract; someone at GBRK will have to sign; gave estimate for page sizes
- don't come to conf. call @ 1:00
- Sparks at RO Th morning
- Shelly talked to the 2 stps: GBRK & Maraba: verified no CBI: Frank will greet
4. Virginia (GPO - Ft. Louis): how many copies by 12th 5000 (Printing) ok

1. MK memo to Frank or doc. control

1. MK memo to file on Boulder negotiations (cc Sue)

5. Dan Sparks: lot 2 info.
6. Reading room
7. log conversation w/Ken

10 JUL 98

1. email update to Frank
2. drive GW to RO
3. meet w/Frank
4. Janet on phone about budget
5. call Jill H w/Frank for budget (next couple of days); talked about Stenzel; can he see H-B proposal?

11 JUL 98 (RO)

1. read H-B cost proposal (PIII, FY98)
2. call Jon Goldfarb (202-208-6520): non-PRR files to DOT: what most helpful for PRR budget: see memo
3. meet w/Sue, Frank & Dan Sparks
- went over FY96 commitments, obligations, OFTs, & acquisition request
- obligation does not occur until Sue sends contract or contract mod. to Denver
- Dana can amend FY00 K acquisition request (ORS code and amount)
4. Frank pdar
- DOT conf call; Eskenazi/Arendes/M. Smith/Ullrich - EPA will get back to us on Bus + Transit

1. [illegible] memo Frank → DOJ on proposal review

Warner will make sequence chart for legal team
- Ken's mail
- A.J. comments need to move forward ASAP
5. use "chart" to do ACOheleus theory for OOJ; FAX to Shelly/Frank
6. Warner/Frank
- need originals, not copies: ok; how soon? Amanda then 24-26; until mid-PAR
7. document review
① Complete FOIA-releasable file: reading room
② Complete FOIA-exempt file: my office
③ Archive AOMIN: my office
④ archive 104(e): DOJ
⑤ Copy of 104(e): DOJ
⑥ Copy of AOMIN: AUSA, DOJ
⑦ 4-B files: Boulder
8. Shelly/Frank/Dan
- NOAA discussion
- update
- Legal team comments? Anne/Warner

12 JUL 96

1. review Ken's proposal
A. KEN'S SALARY + MISC. (USCG? NR105? REFUGE CRANBERRIES? ANECDOTAL FISHING SWEEP IN SPRING? EAGLE FIELD WORK? NPCES/$ FUND REVIEW?)
- 1996: 39.6K (100% of OFT)? 1130-BASE
- 1997: 70K 1130-BASE
B. TREE SWALLOWS
- 1993: 15K 1130
- 1994-5: 133.5K 8312
- 1996: Ø

1. [illegible] Document summary (files)
1. [illegible] send DAN FY96 request (w/KA memo)
C. OCCO [redacted] FIELD
- 1988-1995: ~$700K 1130-FLEX
- 1994-1995: $111.5K 8312
- 1996 : ØØ + 5% OF KEN'S TIME (ALREADY DONE)
D. OCCO BRAIN ASSYMETRY
- FY96: $9K 8312 (ALREADY DONE)
- FY97: 5% OF KEN'S TIME
E. OCCO EGG-INJECTION
- FY94: $50K 1130
- FY96: $15K 8312 + 5% OF KEN'S TIME (ALREADY DONE)
- FY97: $?K EPA + 5% OF KEN'S TIME
F. EAGLES
- FY95: $15K 8312
- FY96: $48K 1130-FLEX (MOSTLY ALREADY DONE)
- FY97: $~~45K~~? 1130-FLEX +5% KEN (PROPOSAL SUBMITTED)
- FY96: $25K 8312 - BLOOD/CONTAMIN +5% KEN
- FY97: $? 8312 ($0-$100K PROBABLY)
G. WATERFOWL RESIDUES FROM HUNTED SPECIES
- FY96: $15K +5% KEN 8312
H. MINK
- FY96: $30K +5% KEN 8312
I. YELLOW-HEADED BLACKBIRDS
- FY95: $20K 8312
- FY96: $0 (5% KEN'S TIME)
2. read emails: update STAFFING sheet
3. note to Jodi Reiter re PC number
4. flip chart on Ken proposal standing for Frank
5. memo on document management to Frank

6. meet w/ Frank on budget

15 JULY 96 (DAY OFF) (HOME) WEEK 7/35

1. Read: ~~Shelly~~ FAXes A.P. comments - upset because Joel didn't use new (May 96) 43CFR11; also # of questions
2. Steve Diamond: H-B departs for funding (voice mail);
3. Jane Close Letter; ~~Frank~~ will call tomorrow afternoon; July 26 deadline for copies (Tillett, Dalton);
4. budget low - good $143K left for OSFD 03R; last ~~Shelly~~ talked to w/ Mark on Tillett copy and on budget
Shelly taking vacation
2. mail to Frank (~~Shelly~~)

16 JULY 96

1. Shelly: talked about A.P. comments; Bob Rowe will be back next MONDAY - FOAA from H-B - give them a call: Copies of ADMIN copies for DOT - SOL can't pay (do we really need archival copy?) - Shelly will look; proposal - Shelly will remind DOT
2. call Sue Rozsak: left message for KRI contact - approx
3. call Steve Diamond: left message about proposal + FOIA
4. Matt Richards: helped w/ file; will send current w/ types & descriptions (Joe); going to D.C. for Anadarko meeting
5. Sue Rozsak: need acquisition request from Diana; father had surgery - back TH or FRI
6. Tillett proposal: Mark made 4 copy w/ Jackie; sent

(Ft. Howard)

7. Wade Reimer: reading room; Shelly told ~~Frank~~ Q.P.B. to ~~send~~ w/ FOIA; I told that Q.P.B. request removed the whole reading room which will not be ready until August 15; can make appointment for what is now?
Yes
8. Jackie from Ft. Howard: appointed? gave to Joe
9. email to Joe on reading room subs
10. note to Jackie to go to 4, 10-hour days (FRI off)
11. memo to Sue on H-B negotiations for Phase III; send
12. Joe to host safety for 1 week!?
13. email to Diana, Sue, Frank a acquisitions request w/ NEGOTIAT. MEM attached
14. travel voucher
15. email update to Frank

17 JUL 96

1. work on ~~file~~ Joe all day

18 JUL 96

1. work on ~~file~~ Joe
2. Ellis B "SOL" Rowe: Kennecott Decision: District Court is not later than 1987; called Sally Service reports dated when?; Difficult on fish consumption advisories; Table 6-5th or 6-1st - what month?; also 6 MMB dates?; also names of contacts
3. Tina: which companies in 9 boxes: told her from Karen's list

1. "A" Budget mtg

(276.5K)

4. budget w/ Ken, Janet, Jackie: (155.5K (83FR) + 81K (113E) + 39K FED)
- 10K future admin salary
- 10K copies
- 60K waterfowl + mink (30K each)
- 25K eagle congress
- 10K copying
- ~~88.6K~~ 130 spud
- ~~10K~~ egg ingestion
- 10K stamping on recovery
- 5K Tillett Lemieux
- 15K travel
- 8K DCCO lease
- ~~[illegible]~~

Janet's calculator $121,600 new 83/2
$ 38,000 new 1130 (86K deficit)
Ken's recheck DCCO analysis for 1997: $75K calculated
25% Ken's time
$ 5K more, $HHS Question

5. A.P. comments to Joe
6. Ltr to Diamond - reading room w/ Joe
- copies some non-BATES files; Joe until copy DOJ
7. P.H.G. sent 4 dBASE & KEOED
8. email to Brad
9. Bard instructions for Joe

250768

4200/5 - 42072

19 JUL 96

1. Shelly: A.P. comments; FRN comments; Clokey buying machine
2. note to ~~Collect~~ S.O.L.
3. A.P. note to think / Joe
4. GATO budget summary to Janet
5. P.H.G. to read room
6. Steve Diamond: ??
- called back & due & left message
7. Bard instructions for Brad
8. Matt Richmond: got reports; couple questions; may move his files to DOJ
9. Maureen Katz
- update on files (WRC, Thilman, P.H.G.)
- map of disputes? - done (Bob)
- send Heidt response letter to GATO
10. DOCUMENT. MEM
11. Frank: acquisition request MON (due still out); manager (email) sent proposal comments (16 pages) (FAX); full allocation comes up; Kenneth decision (email); FED-EX A.P. comments to Frank; CBS costs: 19K-23,750; T.C.: Luigi says WORK with CBS & meet w/ us (they will travel)
12. tell Steve Diamond - contact MON
13. Shelly: SOL memo; Kenneth; proposal; A.P.; reading room
- tell Joe to retract AXMEN until 1 AUG - done
14. Matt Richmond: S.O.L. discussion

22 JUL 96 VACATION WEEK 7/36

30 JUL - 02 AUG VACATION WEEK 7/37

05 AUG 96 WEEK 7/38

1. go thru email (XO)
2. go thru mail
3. talk to Kerstin
4. email EIA sec. workshop trip (Bethesda, MD) - to Karen
5. ELR
6. Frank & Shelly
   - originals to D.C.; misc. to be labeled
   - reading room closed & locked
   - Shelly trying to retrieve a few pages from Ft. Mead
   - Joe has log book
   - email/memo to confirm all agreements
   - J.C.: memo from Remis: WDNR to RD late August; probably looking for cooperative arrangement; Entrix hired (Ft. Howard) for cooperative arrangement
   - need A.D. to go forward before WDNR can stop (10-day delay because of contract snafu); Jack will have A.D. on desk this PM
   - SETAC: Frank talked to Maureen; abstracts from Don Custer, Chris Custer, Diane Krabel: 8 of 10 pages, mostly our NROA's; Maureen will talk to Brighton DOE/Rhodanthe devices; correction key rather than wrong, also will probably be our argument

- proposal; potential delays for schedule (Sparks) (2-weeks)
- documents: copies vs. originals; documents available before review; FOIA responses - only copies; still working on liability w/ Amoco in other State; many requests for reading room
- I should monitor for now (unless becomes too burdensome); Logs on all cabinets; all requests for access to Shelly
- confirm that 104(c) non-PAP in one cabinet; then Q+B can come in

7. Document handling history (104(a)) (my thoughts)
   - request letter
   - partial response (copied originals & omitted)
   - ~~Ellen~~ begin reading for copying (1 copy) (loss of control)
   - begin stamping then copying (1 copy) (loss of control)
   - rest of response (copied originals & omitted)
   - stamping/copying/sending to DOJ (1 copy, thought letter about 2) (loss of control)
   - remaining copy put in uniform binders (~800 pp/file) w/ Bates order w/ uniform labels: GREEN BAY NROA, Reading Room, (most general category, Bates range (no gaps between binders, drawers, or cabinets)
   - reclaimed ASARCO file & moved all docs not already released; put in uniform binders as above
   - re-checked whole reading room for originals & mis-filings & out of order sections (found several & several of Joe's notes) (missed 1 of Joe's yellow notes)

- Tel to open reading room for Q+B
- inform Frank that ADMIN is room, but would like for analysis
- B.H. Howard requests access: said that Q+B had been told to coordinate access w/ GBPO (consistent w/ our discussions internally)
- access granted

MISTAKES MADE

① DOJ ~~expected~~ did not request "original copy" before file-handler had begun; (ref. GB Feb 1st log entry)
② FWS allowed multiple switches of "original copy" w/ "copy of copy";
③ GBPO missed at least 1 original (further QA/QC mistakes are possible; current interviews have hint of mistakes) (immediate FBI-EX to Mauer)
④ team did not institute a reading room access system before FOIA deadlines were reached;
⑤ at least 1 gap introduced at GBPO (more are possible)

CONTROLS INSTITUTED

① locks on cabinets
② access through Shelly
③ monitoring by PDAS
④ final file reviews by legal team before mobile room open
⑤ restricted release of docs; request return + preserve report status

exposure
chem. storage (transfer in Jeffberg) (does not) clear - last re symptoms then; cat-scan WBC (radiation if then)
Control shelf sealed

⑥ stop shuffling the paper before it gets more screwed up!

8. more GBP files to separate cabinet (for will install locks)
9. Conf-call: Shelly, Frank, Kurtz, me: docents
- reading room: 03 SEP 96 deadline
- personnel files
- memo: J.C. → Janet: go thru files (draft for Frank)
(get info. on personal files from Shelly)
- staffing FOIA categories tomorrow (legal team)
- Jack: will file by FRI 9th (A.P.)
- Kurtz/Horvath: worried about WORK/RAP interplay: state by A.P. before OR after
- Maurer: Matt available 23rd, 24th ✓; Joel 24th + 25th; 24th (DOJ) + 25th (H-B) + 26th (DOJ)
10. mail to Frank + Shelly re reading room
11. daily update to Frank

08 AUG 96

1. long talk w/ Frank about docs + last 2 weeks:
- what on same page (appease DOJ)
- re-stamp docs with 10 or 10(2) on ADMIN, put gap in at BASK
- 1st priority this month is finding
- schedule vacations carefully
" - go over exp

7:15 AM

- write down agreements
- be careful to avoid H-B work on anything outside of contracts; one sole contact a contracting issues
2. Tom Lee to re-stamp his notes, put gap info in BASR, email Shelly, Frank, me or decision
3. Joe: Shell needs pages per doc in info
4. meeting w/ BASR program; convert of BASR info; email to Shelly
5. Call from Shelly on documents
6. Call from Dave, et. al. (Shelly joined) on documents
   - determine source of documents
   - determine if other agencies want to request FOIA exemption
7. Ray Palmer on LKOA plus conservation request to be negotiated
   - PRI cash-out offer $400K; EPA said no
   - EPA looking for >$1M to discuss w/ PRPs; plan initiate 2nd offer may come
   - EPA estimated $2M; $ fuel make up offshore
8. sentencing letters: copy of copy for copy of original
9. ELR filing

07 AUG 96

1. go through LIST.TXT to determine source of copies doc
2. Linda Kolat
   - as result of discussion/EPA meeting, EPA sent internal message that DOE FRN missed & will include $40M–$1B and EPA must, as matter of law, have position on FRN, & Bea would like to see support for position agency; note says DOE/DOT will file in March
   - FRC meeting: 6 months of work resulted in validation of model & input of additional data only; NFO & previous w/ lack of progress on resolution alternatives; very confrontational meeting; also, WDNR estimates NFO commit to beginning (& end) of meeting - more confrontation ("business meeting"); threats of bringing media & cameras to meeting
   - SSAC meeting: EAS - bad risk assessment led to very low salinity exposure; Town of Messina furious - can't use those #'s [or will withdraw from FRC according to Ken Paulsen]; want more Lake studies; meet w/ WDNR w/ Army
   - Steve Hubbard & Rick Fox left & are seeking PRP employment as consultants
   - I said: no DOE in FRN; must filing date likely, but not in FRN; no DOE requirement for EIS portion, but may be EPA-related needs of agencies; DOT fully engaged & working on S.O.L. (Evis) & liability case & docs; WDNR wants to meet w/ DOE again; updates
3. FED-EX LIST.TXT TO MAUREEN KATZ/SUSAN SCHNABEL/SHELLY HALL
4. ELR - update: 500 more pgs to Kolat
5. call Joe for update: no files from DOT; file generated - re-located 6 DFO & personal files - sent
6. V.C. draft memo on
7. daily update

08 AUG 96

1. set up Hearts on other computer using fi
2. call Marsden about overnight mail LIST.TXT : detailed message
3. check to check for list
4. overnight mail receipt to Jackie for members
5. call Steve about NRAA proposal
   - he would like a few $1K for BRA travel
   - he will call Barbara today & suggest that electronic versions of that part be sent to me by 23 AUG - that will give us time to discuss & fine tune before OA/STEP RO deadline
6. work on NRAA funding proposal
7. Larry Shepard returned message
8. Hank
   - Hartung / Raynor / Disbrow agreed to Br. TRW schedule
   - Joel will FED-EX it today : if unworked issues Peg should call Joel today ; he is worried about some legal comments : ① Phase III work - if descriptive can't describe all ; ② SOL language ; ③ Hunt proposed description - Shelly had language which she thinks he will send w/ blanks, rel. abstracts for Stanley
   - Marsden sent re-draft of TRW - late w/ look
   - working w/ Shelly on NRAA proposal
9. call Joel about A.P. : left message & call if needs anything on A.P.
10. Change hard drive
11. Hank : Joel / legal team worked out A.P. issues called Steve to list
12. Marsden got LIST.TXT ; only copy ? yes
13. talk to Tom Nelson about proposal
14. assemble budget documents
15. mail Boyd. not to Shelly for proposal - could be ready
16. daily update

09 AUG 96 4h off

1. ELA
2. NRAA budget / proposal

13 AUG 96 WEEK 7/39

1. clear mail & email
2. NRAA funding proposal
3. call Steve Dianov for update & set up voice call
   - left detailed message
4. call Bob Rowe : sent
5. call Don Ruark : left message (returned message)
6. updates w/ Pat & Janet

14 AUG 96 to RO

1. read A.P. - comments in margin ; talks to Hank
2. updates w/ Hank ; need letter to abst. officials before deadline next week
   - confirm w/ Shelly hope you read soon
3. funding proposal
4. call Shelly w/ Hank
   - Steve Lyons died on Chapter 9 : marked up ; needs revising ; can't mix up extraction & valuation - biased ; doesn't follow DOI regs
   - Shelly will ask Bruce to look for any mistakes (use confusing or dual approaches) - for quick change

- back-up plan; remove most of recon. chapter for now
- Shelly will send Steve's comments to Bob Rowe; maybe have Bob Rowe & Peacock on same phone link tomorrow
- will call Bob Rowe
- clarify reading room: not go with Shelly tells them AND me

15 AUG 96 (RO)

1. finalize proposal
2. compile comments for A.P.
3. call Steve Dejoux about making changes this afternoon; left message
4. call Susan Schneider about both acts and some copying
5. call Shelly to schedule conference calls w/ Bob Rowe (11:30–3:00 Easter Rowe available)
   - talked w/ Bruce Peacock; Kruesenstett has de-emphasized costs/benefits; Shelly looking @ Kruesenstett; Peacock looking at Chapter 9 – fixable; may not want to throw away voluntarily assumptions; – he'll write up comments
   - 11:30 Easter: ½-hour call w/ Shelly
   - 12:00 Easter: 3-hour (or less) call w/ Shelly & Bruce
   - Shelly emailed MRTW language for Chapter 3; SOL – Rowe may have additional; Jean has FWS statutes
6. call Bob Rowe about conf. call times (9:30 & 10+ Mtn.)
7. Read: 43 CFR 11.81(e): Restoration & Compensation Determination Plan; can apply to wetlands & the Kinks/State/Fed. Lands (like OPA);
   - Chapter 9 not rest. / comp. plan; – run if short, can update OPA
   - put in A.P. that not RCDP & move forward w/ a few edits
8. Peacock and I talked to Shelly
9. talked to Bob Rowe
10. Back to proposal while Shelly thinks/gets back to us on comments
11. call John Hoos 715–799–4937
    - call tomorrow, if possible
    2–8: mil. plants

16 AUG 96 (RO)

1. finish NRDA funding proposal; review copy; e-copy; hard copy (FRFB/RO $, NOT)
2. A.P. draft letter RO → Act. off (APELECT.LET)
3. read new chapter 9 from H-B
4. fly back to Green Bay

WEEK 7/40

19 AUG 96

1. clean mail
2. notes on NRDA proposal – to Joe for comments
3. ask Mark about 97 funding ($80K temps and 20K real FO for room) – he'll give some figures
4. email to Joe for FRN update and $ proposal to Shelly
5. P.H. 61. files into d:\BAR
6. ELK

20 AUG 96

1. Jeff Cedeli (Night-Rider): questions about readiness room; can we log at room - check w/ Shelly, then back to me if ok; take off site for meals? no: must be in our way when at any downtime will have to be board w/ Shelly
   - gave Shelly's #
   - told about outlets, doors & # of calls to
2. email on case priorities to Linda & Shelly
3. Ken: draft manuscripts? folio?
4. fix computer database w/ Joe
5. update to Angel
6. P.H.-Fl. files to LBASE (7 files)

21 AUG 96

1. finish fixing PRGBRBCD.DBF w/ Joe
   - problem entries w/ computer: need new one
2. travel voucher for ROtary
3. P.H.-Fl. files
4. Store Diamond
   - 24-25 SEPT. meeting: Baltimore Board (key point: emphasize litigation input on strategy issues): need to elevate these topics ASAP (Chlepo next fall)
   - Pathways report meetings: October
   - Tillett & Lake Wood right away
   - A.P. final & in good shape: lost nerve at end - but ended w/ good product
   - keep in touch w/ development

will coordinate w/ DOT & FAA people

5. Diana Love → Joe Morse → me: Shelly has not gotten back to Diana about H-B admin files
6. Joe: Fill Contam. portion = permanent?; suited to that

22 AUG 96 HOME

1. P.H.-Fl. files to index (402 entries; 4 file folders)
2. mail to Joe
3. update to Linda
4. read 1998 Budget on way to MH

27 AUG 96 WEEK 7/41

1. clear mail
2. clear email
3. Matt Richmond: returned message
4. Ken Bolander (EIS, file creator, 847-940-0979): returned message
5. read published draft A.P.
6. Matt: DOT says green light from EPA; will meet w/ EPA lawyers in September; R5 went to D.C.
7. call Linda Hoist: EPA is joining action; could use CERCLA 106 authority on case; Memo called Meyer-Meyer was supported; Adamkus couldn't get hold of Meyer; Linda met w/ people; Roger Grimes (ORC) & Jim Haberberg (RPM) (H&RS) (Warwick site) will be assigned; probably will be large planning meeting w/ FAA, DOT (Matt?)
   - Linda talked to Doug Stamilio about Board delay
8. call Bob about EPA: left message
9. call Matt: EPA update
10. Ken Bolander (EIS): he will do file review: talked w/ Shelly - she will coordinate w/ me; Dept. Rep on week of 10-17; confer on Sept 9

11. email to Brad & Shelly or Bollander
12. call Roger Grimes about removal vs. realignment vs. listing vs. multi-statute: out until Sept. 3 (Carrie 785-6519): left message
13. call Jim Habeeb (HSR) (312-353-4213): out until Sept. 3: left message
14. Beth Wallace (IL DOT): finish Park gen. plan; returned has cover photo of LK-Mt; would doing? Date?; gave Roy & Brad
15. read 1998 transcript

28 AUG 98

1. RO - conf. call
2. read 1998 transcript
3. Shelly Hall: returned message
4. files to disk
5. Don Resch: work order; if turns out can't come local, the B will help us modify to do other work
6. Shelly
- talked w/ Praia Pare - may be doing too much
- need to determine which docs should be viewed as agency documents
- Shelly sounds a little overwhelmed
- want to be consistent w/ RO SOP
- H-B not federal agency by extension; are certain docs agency docs?; Cope law speaks to this?
- H-B has 2 indexes; published index; copy of H-B not from FWS (published and

257-7857

- H-B copying unpublished + not from FWS by FRI: Scene Ecor 3 20¢/page
- H-B also has 10 people's personal files; if H-B to H-B, we probably don't need it
- What we need from H-B
  ① published list: (no)
  ② unpublished not from FWS: (no)
  ③ subs: no
  ④ project files (10 individual): prepare index of files for Ben; can give H-B instructions or order to send (incl. electronic copies)
- Shelly will draft letter to St. Edward or Vaughn Lindsey etc.
- reading room arrangements here after decision to go
- don't know when DOJ review will occur
- published index and section index in reading room files
- switch whole
- Ben + Pete: EIA participating w/ listing sts; go thru details; DOJ/DAR (FWS/EIA meeting in September (may have to be October)
- Endorsement to Secretary from Ryan: may get Secretary's order authority: (1006(c)) for NOI / to be issued order
- Shelly found out about EIA FRI
- Shelly comment on proposal this week
- Suggest James or TR: she was supportive
- call Wayne Schmidt, Burt Nelson, Becky Robes, Dick Stevenson, Jack Jaeger, LAKE. MT. FED.

8. Shelly: we have 106(a) authority (4/22); need USCG or EPA concurrence; not $FUND
- suited only non-104(a) response
- will ask report and non-report
9. email file exchange agreement

29AUG96 HOME
1. read 1948 transcript - finished
2. read Kenworth - finished
3. read ELR (not done)
4. spoke w/ Shelly K confirm (1 w/ Diane Lee): guy list to be hit to Shelly Q; Shelly will call FOST regarding (1 month), whole column to Guy Knight Rich
5. then Dr. Smith's questions 6. Rich Christian Debra Shelly

03 SEP 96 WEEK 7/42
1. talked w/ Jim Walworth
2. staff meeting?
3. Ken: $15K from Bob;
4. Todd Ronaldy (Congressional report) ! Interior Site? upstream to Bar Rhine
5. John Ross: got copy of A.P.; wants to talk about A.P.; authority section lower lyle mass mega-sites - Bay Dam discussed? I think so
- will ask Shelly
- areal dispersion of PCBs - issue unresolved; USGS shows lots of volatilization; need to include pathway possibility
- get together next TUE face-to-face
6. Clean mail / email
7. Maureen Kelly: received 9 cartons here at FBIO. also 2 large loads mail sent; sending 8 Littleton, 12 large loads will go this week; still working on non-RP copying
8. ask Jackie to start Kent 2-4 weeks; when looking into it
9. ELR

04SEP96
1. Steve Diamond: have 2 labs w/ good finds - Beltran will fly to audit; samples will have to stay here for 5-6 weeks; we should have service guy look at freezer + estimate for freezer alarm
- Dept. meeting ok-yes; confirm DOJ
- can start analysis? 5-6 weeks from now; we should be able to have year-end balances by
- Mark coordinating w/ Anderson for rest of sampling of fall this fall mark confirm w/ Beltran
2. talk w/ Kristie, Joe, Steve: need Meebers cold storage
3. PT HOWARD file to mikey
4. Tom Nelson: origin of EIAS? $0.5M CLNPO for Dept of
5. Frank: proposals; talked to Shelly yesterday she will send revisions - flat no signature until DOE group; make changes / email; call Karl Nelson about getting ave. water segregation; try to get tribal surveys
- call Matt about agenda for Dept. 24-26
- call Bob about agenda (get copy of SOPs)
- set PAL meeting or meeting

- had meeting w/ O.C, Sumi, Baker, Horath on 27th; they will provide A.P. comments
- DOT/EPA/DOE meeting SEP/OCT; I gave EPA update
6. call Matt Richmond: working on it now
7. call Joel Lipton / Steve Dimond: they will call Bruce about their part of the presentation; I sent practical field guide; DOT has Boyd review; will send SOPs tomorrow
8. call Heidi Nelson: left message
9. ELR

05SEP96

1. Bruce: talked w/ Steve Dimond; I should send on agenda for 24-26 SEP; DOT first of conclusions agenda; H-B record + follow-up + consultant + practical field guide; DOE 3rd-Bruce will call Montes + approach (3/3 done) + 50 person room + 20 person room - follow on discussion + 1 of some white DOE discussion
+ call Maureen
- call Don Tillett + Custer
- computer: as soon as know next year's $
- public relations: J.J. has ideas; probably not from Dept on comparable
- freezers: service Blair Pierce w/ temps. alarms; DOT: off-site reading room; check w/ Jackie + Kristen
2. Rick Bishop: Bob Rowe asked how to call on how to keep me in the loop
telephone (possibly mail): Bishop ↔ Allen (Rowe sometimes); every other FRI
3. call Tillett about 24-25 SEP: detailed message
4. call Tom Custer about 24-25 SEP meeting; not coming unless [redacted] must
- updates
5. call Maureen Hatty: FAX copy of agenda (NSA); - H-B or practical field work for case; also w/ typo + speaker
6. call Steve Dimond about 7: conf. call after send agenda (Brad, me, Steve Doug)
7. talk to Jackie about off-site space; next week will try to work
8. [redacted] Maureen: Chicago Conf.?; send agenda; read. room off-site?; mobility; info. next week
9. Heidi Nelson: returned message
10. attachments for NRQA & proposal
11. FAX sel. conf. agenda to Maureen

WEEK 7/43

09 SEP96

1. clean mail + mail
2. Ross: confirm tomorrow 10:30 am
3. Kates: RO for A.P.? yes
4. call Joe about sample survey
5. compare H-B doc list to FRTS doc list
6. Tina: 11 boxes coming early this week (1 box missing w/ maps (Marjorie see)
7. Emily Dean (Devin): comment due? Sept. 23
8. read Linda final proposal version

note to Wally + Brad + Doug

9. mail to Frank + Shelly or Mabt pages faxed by
- blue envelope w/ copy to Shelly
- original to file copy
- box for DBASE
10. fax pages attached 7: Rubicon list, index, to Leon for FED-EX
11. call Warner about agenda: left message

10 SEP 96
1. talk w/ Jon
2. final water proposal
3. meet w/ John Kerr, Triple Ope
- air transport + migratory bird section
w/ Bridgeford + Stowe: Fact Sheet: FS-116-96
- valuation? ask Frank
- plants: in; Stoltzin: PCBs in wild rice
- upstream
- authority: initiated insertion of a word (assert for 404 only) (Stowe not consulted)
- bald eagle: congress; put Ross in loop (visiting Doc)
- economic: get Ross in the loop
- need to meet before A.P. goes out
- MOA/MOU
4. Frank: talked to Hale: Tribes upset about authority section; Hale thinks Frank not coordinating well w/ Tribes; sent BIA signature for NROA proposal

6. talked to Matt about time for agenda: II - 1½ hours III ½ hour
7. call Warner about times for agenda: left details message
8. call Hale: not involved in presentations
9. call Sugar: no message
10. call Steve Diamond about agenda: left detailed message
11. ~~talk~~ no

11 SEP 96 HOME
1. Agenda
- Warner gave times (on draft agenda)
2. Warner
- agenda times
- 10 slides on MON; 3 BOXES 2 FRIs
- at Belmont conference - presentations!
- I said we need to engage the current science & how to construct case soon; agree - will need to follow up w/ same
3. Frank: Hartwig & Christian meeting w/ ARPs (w/o Frank)
- January → Frank FAX: ~~[redacted]~~ count does released in A.P. 12 total); make copies to give to Thor; ~~[redacted]~~
Hartwig asked about FOIAs: 104(e) stuff should be released ASAP
- call Josh ~~[redacted]~~ about getting copies
4. Joan Goldfarb: ship on Mon 1ST: no; off-site?
working; ship next FRI 20 - Oct 6 (not Sept 27-9th is
again; need Reinwald letter or FOIA 104(e) - OK: ~~[redacted]~~ proposal
letter - mine are done Ken's drawn but messy; Janet ?: Thor letter

3. Matt: 24th ok; up date
6. call Frank: left message
7. Doug B. Status of the Disposal: A.P. rec'd by FED-EX today; [illegible] agenda what values field sampling - mail/FAX
8. Maureen hypo - type on agenda
9. Peggy Dorsey - FAX / mail

12 SEP 96

1. finish agenda
   talk to Bettina
   - email & FAX & call Reagh
2. John Goodfellow
   - no Riverside letter
   - Joan will draft ltr for Frank on 11/12 BPA docs requested; that we will release (today)
3. Joe will not all docs in host for BPA (at Howard)
4. ELR

13 SEP 96

1. messages for Frank & Joan on BPA request
2. re-read U.S.V. Olin Corp.
3. ELR
4. Rich Bishop
   - informal canvassing (trying to line up): John Hall, Mike working on FLA report; risk-assessor (SAIC) econometrician (not yet); Ed Mowry at U. of Co. collaborating;
   - conjoint analysis: wading pup; like CVM, limited tradeoffs across attributes; Edmonds (WDF)

→ BFSHOP@AAE.WISC.EDU
Bergen's # + Dorchester #

- related to marketing techniques; Dillman or survey work; may need focus groups for Court
- on-site surveys of anglers: last August wasn't ideal; will go to courthouse to get fish licenses. Madison office will start soon; planning document due to Dreyfus; also looking at 2° info. (WDNR FWS, etc.)
- non-use or subsistence fishing: Hutchison at UWEB worked on Among populations;
- value-still; make contact again
- total value; DOI rule issue from D.C.; "other reliable methods"; somewhat confused on how to proceed; no change of strategy - just had to do w/ A.P. published. DOI rule says can have passive use but only if no use values can be calculated: rules re use to follow this; we will need that part
- compromise conjoint / CVM (affordable) to scale valuation; expert litigation arguments
- Hutchison worked for PRPs @ Sheboygan - last different PRPs; conflict of interest bars about; how to get approval

5. Joe: got log book for fish
6. call Frank about BPA request; haven't heard anything; received e-mail: Joan said sent letter; the slow channel re-mail: Joan said sent letter; the slow Shelly INT. She left it mail at FAX at
7. draft ltr response to Lowery: mail & FAX to Frank & Shelly
8. mail to Julie or Annie; to FO or some
9. more fish to add stage w/ Joe; Joe's log book; all log issues in Fresno; some issues while putting on lakes

1. RD → FAR letter on proposals

10. Read: talked to Shelly. She will FAX letter to James today (Thank U); can be picked up today.

WEEK 7/44

16 SEP 96
1. work on database and index + BATES. NOT
Call day)

17 SEP 96
1. work on database finding (Joe on literature database)
2. P.H. FI videos for DOT: to Maureen; cc Read + Shelly or Cons
3. ELR

18 SEP 96
1. FORT HOWARD + BASTE
2. Joe: news said Conkle dismissed / MFTN thesis
rights case
-mail to Shelly + Read
3. FAX Howard reports to Maureen

19 SEP 96 (HOME)
1. RRL OK NOT
2. Read: Home memo re/ EPA-LKER proposal + RFMP, mail: Shelly
action (FRN)
-Joe will work on FAS support memo then Read
+ mail call Callan for info
3. call Reg Callan: detailed message on
4. call John Knox about KERN contact: Lisa Lucy
5. Read ARHDN - News Channel
-Conkle going on?

- A.A.P.: notice of availability in FR
- Q. What is it? A. summary of info, approach of tunnels
- Q. Thumbnail sketch A. Exact copy from RO
- Q. What's next? A. Comment period; consideration of comments; change FRN notice or proceed; Report of Assessment
- Q. Report has accountability? A. Any claim for damages would be based on Report of Assessment
- Q. Name 5 PRPs A. 7 - ARJ + NCR
- Q Others 5; Root, WTM, RHGI, Rio, U.S. Paper
6. Joe: will fix 2 file folder FPs
- stamps in most of ADMIN
7. Maureen
- got NRDA articles - thanks
- got P.H. FI summaries - great + timely; Arnold on D.C. tomorrow to go over P.H. FI file; intrigued by addressee list
- need overhead + mikes for camera if possible
- permanent shipment out by UPS MON; only 3 cartons left after that
8. FAX RRLOK NOT to Read, Shelly for mail: Shelly FRN extension 60-day based on Maureen / Shelly / Read call

WEEK 7/45

23 SEP 96
Read to RO

24 SEP 96 RO (Litigation Section) (DOJ/DOI attys - Chief Rivers)
I. duties (role of attorneys / privileges): Maureen Kelly

25 SEP 98 RO (Litigation Section) (DOJ/H-B/DOI - Atty - Chief Rivers)

26 SEP 98 RO (Litigation Section DOI/Fish rule discussion)

1. Notes to Read (to be discussed)
   - RO → DIR memo on Green Bay & rule only (don't emphasize other cases)
   - Reassign lead & Rs
   - Carve out 50% + items for case management; more updates
   - then we lose or document / case theory discussion on fish & human
   - shut down some activities which are contributing to/ability to pursue case (NR TM, Kelly Bush, heating bowl, etc., etc., etc.)

2. NCR discussion points (preamble)
   Theory: ① NCR paper has high level PCBs (3%)
   ② H.How. & P.H. & Dl. recycled much NCR PAPER
   ③ treatment / discharge of P.H. & Ft. Howard during NCR recycling resulted in high level 1000/TSS discharge to Fox River
   ④ NCR paper PCBs added to 1000/TSS during recycling
   ⑤ Fox River has high level of paper mixed deposits w/ high level PCBs
   ⑥ Fox River sediment PCBs are transported to the Bay & Lake at high levels
   ⑦ ~~Green Bay, Lake~~ Fox River sediment PCBs transported to Bay / Lake expose WRS & trustee resources to adverse effects
   ⑧ Fox River sediment PCBs transported to Bay / Lake expose Birds (DCCEa, swallows, herons, gulls, ducks, terns, peregrine, osprey, eagles, mink, otter)

⑨ Fox River sed. PCBs expose fish (salmon, trout, walleye, carp, perch, sturgeon, perch, others)
⑩ Fox River sed. PCBs expose Fish (under water (NWR)
⑪ Birds ingesting impt. amts PCB meals accept. chit. and PCBs highly in tissues and embr. mort. signif. higher in tissues
⑫ PCBs injure birds
⑬ PCBs injure fish
⑭ Fox R. sed. PCBs injure Bay / Lake DCCEa (embr. toxic.) at low levels in predictable way
⑮ Terns are much more sensitive than DCCEa to PCBs
⑯ Green Bay Terns are injured by PCBs
⑰ Other sensitive species likely are injured
⑱ Fox R. sed. PCBs may be responsible for Green Bay / Lake injuries which are caused by PCBs in lake (being studied)
⑲ the only way to prevent continued exposure injury is to restore
⑳ Fox R. ~~is only part of the problem and natural systems~~ not substitute for G. Bay or L. Mi. shore
㉑ the value of services lost due to Fox R. sed. PCB-caused injuries justify the restoration of Fox R. sed. (being studied)
㉒ past / residual damages justify additional compensatory restoration (being studied)
㉓ Ultimate question: how much affordable restoration must be accomplished to lessen/eliminate exposure injuries?

Rule Discussion

Remaining things to do (for me)
V1. receive H-B invoice
V2. RO → DIR letter &
V3. DC → Forest & Ken files
V4. sign-off on QA/QC proc
V5. Oct 11: EPA/DOI/DOJ in D.C.
6. Case theory elements

30 SEP 98 WEEK 7/98

1. Travel voucher: base slip, time sheet: close out & email
2. email to Rick Bishop re scheduling conf. call
3. note from FRI (home voice mail): Ray Palber: meeting scheduled w/Palber (last chance settlement); Brad ready w/ hang equipment contracts
4. 15-20 pages fibs (Ft. Bragg)
5. email to Stark on JC → 6 BFG personal files (received email & fibs; day 7 sent from home - check this
6. new copy machine assigned today
7. check invoices for Sue
8. Ken Ballard: on file review - scheduled for 1 P-X meeting we can't schedule anything until Shelly tells us she is done w/the work; coordinate w/Ken; ok fibs not ready yet right? coordinate w/Shelly
9. call Sue Roznek: invoices from H&B look ok; [illegible] confirm amount paid for amount left through: [illegible]
10. FAX ELR bill to Brad
11. email ol to Sue
12. RO → DIR [illegible] memo on FR&B $
13. Ray Palber: 03 OCT meeting (cancel by phone or attend if agenda) - spoke w/Palber: cool out still possible but FAA willingness will dissipate at some point - will cost more the - Brad Hove w/Palber last FRI (agree to study contracts later); may use tailing platform for bang equipment; stockpile materials upland WE; schedule of dispose in SI; realistic estimate upon (maybe freighter) station to evacuate Wake also; DMA [illegible] of cable, connectors, [illegible]

may meet w/Marcus next week about wind
- wind maybe by 14th
14, draft memo RO → DIR emailed to Brad
15. Randy Schademan: George Allen from FWS-Kansas
- criteria for PB-shot in estimate?
- no; some surface soil work by FWS - but not really applicable; enacted questions of what can be viewed how to restore wetland
16. theory of the case

01 OCT 98

1. go over NCR fibs w/Sue
2. re-send ROI, MEM to Brad
3. theory of the case
4. call Jeff Stewart about DOJ
5. Maureen Kelly
- bobs
- anadromous fish
- seaweed
- FRI meeting
6. work w/Sue on NCR fibs
7. Rick Bishop
8. Joan Goldfarb: 2308-224R read: name of person at ACOE → also in d BASE
9. Ray Palber: LKFA meeting off for now
10. QA/QC reading over

Th: Holiday Inn

1-800-252-[illegible]
conf ID CD78642

02OCT96

1. Rich Bishop: strategy for rec fishing side - maybe conf. call (11:00 am)
2. Tom Carter: Sparks withdrawn?
3. Rich Bishop, Mike Weland, Bob Rose: Recreational Fishing Study
   - log onto website or ftp
   - FCA impacts; lake trout reproduction awaiting steady completion
   - Cotterong one of four FCAs set; current 2 ppm FDF; GOV sent advisory comments recommending 0.2 ppm
   - scoping scenario #1: current FCA only (additional scenarios for more stringent FCA and/or lake trout reproduction injury)
   - new study from Wayne State U may prompt GOV to argue for new FCAs (published in New England J. of Medicine)
   - Bay de Noc (TN using new guidelines already)
   - Stages: ID anglers in potentially affected areas (coastal or Green Bay plus L. Mi. Trop); fishing activity database, focus groups
   - expectations: Fletcher's notes today (Strong); willingness to pay; what people want - value test, online comments
   - John Stoll: UWFB - internal analysis - willing
   - FCA stopped important
   - hold off on Dulac
   - Odanah can be contacted
   - preliminary assessment: needs revision - more realistic - next few weeks
4. QA/QC of files

03OCT96

1. Maureen Katz: Gary Amadio (218-226-8648) wants to speak say w/me here; then with lawyer in D.C.; the supplemental 104(e)'s; expect call from him
2. talk to Joe, Ken, Pat about QA/QC & fish sample switch
   - Pat in charge (field team leader and keeper of custody)
   - Pat's keys in my file safe
   - Joe will move to [illegible] file on the fish when he transferred to Shelley
   - Ken still has questions of chain-of-custody
3. file QA/QC
4. call Randy: ① total message ② EPA meeting schedule; ③ file sorted; ④ recon discussion
   - Frank Rogers or trout egg point ③
5. Shelly Joan
   - Ken Bollenbeck will call; hope to be here on Oct. 14th; (doesn't know how yet) (will call)
   - Jane Cleary 11th of Oct. (Night Rider) (off site)
   - send water list of what we sent for archive
   - index for files (3); FAX the 2
   - EPA meeting: Agenda A: Conf call MON (Ken, me, Shelly, Joan)
6. Maureen Katz: return message; re-run P.H. A & B Howard BATES w/double spaces
7. greet w/Janet Ke, Joe, Cathy, Terry Anderson, Shaun Campbell: FWS FBFO functions; mgt area history of the NRDA, & base NRDA functions generally
8. Ke: ① bio personnel ②

WEEK 7/47

07 OCT 96 — 2h over

1. Ben mail / e-mail
2. sent fibs from Shelly (box #2 missing)
3. call w/ Mark, Doug Beltran, Steve Piernot; NRQA re other split samples for additional thermal measures; re
4. call w/ Shelly for Mark: FAX meeting
5. FAX agenda to Mark @ OEC

08 OCT 96 — 2h over

1. Maureen: NCR box found; 490001 – 499508; to mail and list of missing pages
2. Joel: available 11-3 Easter for D.C. get together? see about flights; charge flight; call Peggy / Maureen; fish @ Chamberlain Lake?
   - prefer separate fish, but ok; just not CK mtg (Ben / Doug / Mark) ok
3. Call: Box #2? no; 052258? Quillback
4. call Ken Bollinger: 16th & 17th OCT fish (left message)
5. mail on uniforms

09 OCT 96 — 5.5h over

1. 847-940-0981 FAX to Ken Bollinger (RRLOG) 15th, 17th
2. Mark: Tillitt: concern about charges (pool)
   - call Beltman and Tillitt: need solution quick
3. switch fibs
4. Ken: A.P. @ SMC; don't talk; ok
5. Doug: conf. call FCR; Mike Bartonova; suggestions to be worked out
6. Ray Ballou

10 OCT 96 — 2.5h early; 3h late to D.C.

- meet w/ Joel @ DOT; need more technical ⇔ legal direct communication; Pathway report meeting on 16th; trout study meeting 15th or 17th; not Rachel/Joe
- meet w/ Susan, Maureen, Elliott, Matt (by phone); technical questions; need more legal ⇔ technical communication
- Shelly: upset that d'm @ DOT; we seem to be technical legal coordinator instead; not legal strategy w/o SOL; ok
- meet w/ Frank: 81.8M approved for Clear Boy by FWS (1st priority; very likely; below or offsite); Shelly upset - need to be careful; nothing inappropriate was done - need more legal / technical interaction; real problem is that Shelly feels discomfort / mistrust; ok; need to pursue 108 order w/ EPA - agreement

11 OCT 96 — 3h over (D.C.)

- Meet w/ Frank
- meet w/ Frank, Shelly, Joan: agenda
- Meet w/ Frank, Shelly, Joan, me (DOI); Linda Hoist Hoppe, Linnea, Jim Habeck, Doug Boxan (EPA); Susan, Matt, Elliott, Ben, Maureen (DOT): see agenda
  - EPA willing to do 108(e) w/ DOI maybe alone, maybe tag BTNP; Dept A/I HI; maybe downtown too
- talk w/ Ken

12 OCT 96 (SAT): 7h
- sorted files (take home)
- dBASE manipulation
- clear mail
- note to Jackie + Janet on ELR subscription (send 2)
- time sheet

WEEK 7/48

13 OCT 96 (SUN) (4h)
- sorted files
- update RRLOF files

14 OCT 96 (HOLIDAY; no hours claimed)
- Don Tillitt: will be touchy about changing experiments; I see ① employee to hold meetings w/o PI; ② confident that Tillitt ↔ McDonald discussion will resolve issues; ③ if testifying statistics would totally negatively skew data, then we (especially lawyers) would not want to waste the $; issue is whether to take test streams and follow normal distribution (Tillitt says no)

15 OCT 96
1. return files to calendar
2. call Jon Goldfarb: left message
3. call Gary Amendola: left message that 21st fine
4. new RRLOF + RRLOF2
5. mail on reading room mat
6. NCR file (Kirsten started)
7. WTM staples out
8. Shelly + Jon
- Jane Cady wants to send package by today + take 2 file cabinets this FRI (returned MON)
- Box #2 only had 1-2 docs w/ hold (last tomorrow)
- P.H. 61 files ship today
- selected docs ship today
- keep TOMIN file cabinet closed until arrive (open TH for Bollacker + Cady)
- Shelly/Jon will call this afternoon w/ update
9. FAX list of missing pages from NCR to Maura
10. Mark Wells
- problems w/ H-B; give instructions, the charge of $ memo to, the added conditions etc.
- several H-B staff have called Springfield (?), issue of EMS priority from NBS (Beltsville)
- need conf call w/ HB (call Jack w/ Mark)
- H-B taking steps to reduce # of H-B contacts + work more closely w/ ⊗ our cooperators
- update on ELA meeting + legal/technical coordinator
11. Jackie Powell (St. Edward); would like appointment for reading room; will call later today
12. Shelly/Jon
- next thing docs over phone
- I should handle scheduling w/ Jackie Powell
- remove pages from Box 2 files
- update forms + dBASE

2 00781 - 183 170346

18 OCT 96

1. stylus from WTM
2. docs w/ Joe
3. conf. call w/ H-B, Pathway experts, Matt (NOAA Dave Dlugos, Ross Norstrom, Steve Diamond, Brian Ely, Steve Emerick, Joel Hughes, Doug Beltman, Matt Richmond, Paul Alb)
4. emails from Shelly
5. Ken Bolander holed at Fbs; copies info re: wagons letters; also took READ.COM. NOT [redacted] Joel. U.P. subs; left msg w/ READ.ME
6. Joe: check review folders; update latest Shelly files
7. new subject index; note for latest files / videos
8. Shelly / Joan: returned messages

17 OCT 96

1. Gary mail + mail
2. call Maurer: Doug Dixon from EPA HQ: know why Paul Mendelsohn called Maurer Katy? re
3. call Cathy to find out why Doug Dixon
4. NCR pages in from Maurer
5. additional files in from Shelly; w/ Joe
6. Shelly + Joan on phone most of day on doc, review
7. call Gary Amendola about MON: left message

21 OCT 96 WEEK 7/47

1. Gary Amendola: asked questions about fbs; will come Fri
2. Ray Palber: LKGN
   - $1M lump sum, no 50/50 split, start now, take or leave
   - $10Ks for NRCP website
   - will call Shelly
   - if deal: would be liability for Playboy, TMB, movie
3. work computer w/ Joe (most of day)
4. Joel: FRI call - invite rest of management team; decide bale selection; Think Squad team; also other key subject?; today call? (OOS, OOI, FWS - maybe not Joel to be on); Joel will raise these issues plus why Dr not on call)

22 OCT 96

1. (not yesterday)
2. work on computer w/ Joe
3. note from Ray on LKGN; forward note w/ his to Shelly
4. Joan Goldfarb; need estimate of copy cost for missing bat; how to bill FED-EX
   - P.H. 61: 5842 - 5859

23 OCT 96

1. Joel: (Doug) communication issue on trout egg injection study; Doug has unofficial suspicion that Tillitt serving parallel study w/ours; Tillitt et al. have developed internal communication via email - making decisions w/o H-B; Peggy Right working for Tillitt on M.S

2. call Rick about Tillitt
3. Shelly / Jon
- Cynthia Brand WE-AG called Rick
- conf. call tomorrow on 108
- conf. call FAA on labs
- document review
4. read. room QA/QC
5. Limited file; update RRLOR

#OCT96
1. email to Jack, Jon, Rick, Shelly about off network
2. Jackie Powell (plus) from M. Powers to daily room
3. email to Shelly on Anchor meeting
4. call Frank about next week
5. ELK
6. Frank
- 2nd permit from Mark & FAA
- Tillitt issue; Rick & I should visit
- EA 108: EIA money for wood
- meeting yesterday (Fishman, JB, JC, Ulwick)
- conversations: July 8 case management structure: need legal rep. on list, fed, pathway, damages
- Tailor
- budget (in GB drawer)
- trend
- my list: A.M.; Pathway; Docs
7. email to Ken & Mark for Mon 9:00 A.M. meeting/update
8. call Dan Tillitt: will call back
9. Jack, Doug, William Walsh
- Wallaborough sample: no chain of custody, 1 eggs died, want William Walsh to go to Wallaborough on SUN to work w/ Wonderfield
- Doug talked to Wonderfield - ready to
= also ask about other shipments
10. Dan Tillitt (points to cover)
① William Walsh to Wallaborough & Jack Wonderfield on SUN: purpose chain of custody, QA/QC documentation, dedicated stirrer, to be made of the case
② Rick & I would like to fly to Columbia to discuss the lake trout experiment, the case, and the points raised at the seminar in Twin Cities
③ Have talked to H-C about combustion & have implanted some new tubes; is statistical question posed in your original
④ Need to have some of the same comments from the RIs: comment to all about actual issues - does not imply asking for permission - just need to be able to agree on same page -
11. email to Rick, Jack, Doug on biweekly conference
12. email to Frank on biweekly calls
13. Jack
- updates on Tillitt
- samples split on CK NC (issue w/ Frank)
14. call Frank about tomorrow: left message
15. email to Mark on Wonderfield
16. daily update

25 OCT 96: Jon (all) Rick Dave Th

1. ~~XXX~~ – never became law

28-29 OCT 96: home (AL) sick home 6th

WEEK 7/50

31 OCT96 home: annual leave (comp)

04 NOV 96

WEEK 7/51

1. Susan & Frank: sum of first hour; purpose of ~~bill~~ meeting next week; Susan by phone as necessary, continue w/ Brad
2. Susan Campbell: will be doing story on Chapter election; has call into Frank; will look over pkg & give me a call ~~XXXXXXXX~~ FRI w/ any questions
3. clear mail & email & have sign
4. Frank will send Brad comments on $ proposal; I will draft response
5. look at Ken NR comments
6. FOIA request from Van Loshaw; FAX to Sally Frank

05 NOV 96

1. ELR
2. Jane Cleby (Madison): Knight Rider (Ken paralegal from DH. Howard; 4 weeks starting 8th (FRI 3 to Mon morning) (ICCR subcontracting for Joan Miller)
3. call Matt about retroactive liability cases
   - LANDGRAF v. USI FILM PRODUCTS, 114 S. Ct. 1483 (1994)
   - U.S. v. OLIN CORP., No. 95-0526-BH-S, S.D. ALA, MAY 29, 1996 (26 ELR 21...
   - NEVADA EX REL. DEPT. OF TRANS. v. ARCO?, 925 F. SUPP. 691
   - GOULD INC. v. A & M BATTERY & TIRE SERVICE, No. 3 CV-91-1714, M.D. PA. JULY 15, 1996 (26 ELR 10549)
   - U.S. v. ALCAN ALUMINUM CORP., No. 95-7570 (3d CIR. MOTION OF DEF. (AAI))
4. Joan Miller: show spot 2:00 FRI to look over job
5. looked at Jackie's memo on off-site reading room
6. talk w/ Gayle & Janet about reading room & case
7. mail to Sue on minors: ok to pay
8. Charlie Kamp in reading room

06 NOV 96: travel to Columbia, MO

1. talk w/ Brad
2. work
3. talk w/ Joe before bed

07 NOV 96

1. meet w/ Brad
2. meet w/ Brad, Don Tollett, Colbert Chaloner, Susan Schneider (by phone)
   - went over late Target opening
   - went over coordinator issues
   - went over Dana role
   - face to face meeting between Don & Susan (Tollett) in next 3 weeks
3. return to Green Bay

08 NOV 96

1. Debra Berwick (age) of Kilpatrick Law Firm ~~XXXXXX~~ about DH Howard / NRDA documents: returned message
2. Jim Kahrenberg: latest plan of the DOJ call: ask PRPs to do ECA; if not then order them to do BCA; help us meet with the State; State's also more likely PRPs will do; EPA long OU's ~~XXXXXXXX~~

- Gary Arnold to attend on Doug's meeting w/ State: letter to PRL a ECO before then; Gary has some questions; should we be at meeting? no.
- I went over history of Detroit A negotiations, etc, strategy (overall); give PRL chance to talk with contact in time certain; give State chance to take next step in time certain; take next step in time certain
3. Gary Arnold: left message
4. call Chuck: left message
5. Charlie Kemp: will not use seating room - will call to make an appointment
6. mail to Rick Bishop to re-schedule conf call for TUE 2:00p
7. call Jack & Doug: left message at 10:00 a.m.
8. Gary Arnold: met w/ Steve ROMEIN & Matthew
- looking at info. from WORK: Patterson
- discussed Steve, Patterson, Joyce, Cudlor, Kamen
- Vernon worried about potential of contacts due to ESA
- decided ESA not up to speed yet; might wait to make contact to ASAP; Steve will talk to Vernon about trip to meet w/ me, Steve, maybe State folks
- went over risk assessment doc. with Matthew
9. Mark Holly: I'm still coming; may go next week. got 3 F/R; shooting for 12 will settle for 6; splitting of eggs on LKMI - lug said w/ H-B; only got 12 F/R - choice was not split & WORK to all-or-split and both work & FWS get sample; Frank supported - more F from Charlotte, Lela: probably [illegible] Bay

JOHN FITZPATRICK 905-827-7712 HOME
905 28-388K WORK

but local fish manager may be unwilling to give 12 F/R eggs: probably only 6
10. [illegible] Mark Don Tillitt Doug Bittner, Michael Anderson; Don; 75 (unit?) treatment to high - not usable (fed by on only one fish) need 3-5 more fish; H-B should not have change from 10 - especially not untastefully
11. call [illegible] w/ Mark: left message
Thursday: more explicit w/ Doug Mark to discuss strategies for field apparatus
(2) Meet w/ Doug Mark to discuss strategies for field apparatus
(3) Provide field assistance (William)
(4) Provide documentation of what occurs (Doug)
(5) Provide [illegible] peer review of analysis, discussions, conclusions, papers, reports (various)
(6) Assist in preparation of report [illegible]
- off limits: modification of design, analysis, work; lead authorship; in-house strategy sessions or apparatus
- other areas or specific fish apparatus may be H-B stand-alone
12. look at LKGN POLREP; call Brad w/ correct FAX #
13. Chuck & Mark: fish issue; Tillitt in charge, point; limit H-B's role as appropriate
14. Don Tillitt: return message
15. call Sue Kozak
- payment based on performance of eggs contract
- modification of line item pounds
- line item 1 original phase II contract ($8K; H-B
- need to balance ($18K total for line item)
16. call Jack: left [illegible] message about Tillitt work

17. talk to Don Tillett
- need to define H-B role more clearly
- need to point cross-purposes
- need to move forward
18. reminder to think of Doug re update calls

12 NOV 96 8312 NCA (not retrievable): Th WEEK 7/52
1. Rick Bratos: call tomorrow @ 10:00 am
2. call Kelly: returned message
3. call Joel: left message
- all decisions or lake trout study are Dora
- H-B should make and suggestions directly to Don
- all work products + emails does should come directly to FWS (Brian, me)
- if H-B has a concern w/ Dora approval (over small comment) FWS wants to know about it; if FWS agrees, FWS will work w/ Don re district modifications
- FWS expects continued on scene reporting in field, continued QA/QC documentation, continued expert advice: but these services are for FWS (don't charge them)
- any unilateral words by H-B w/o Dora or FWS's approval will affect funding
4. call NWF - Cameron Davis: left message
5. Joel + Doug: (Doug provided comments) ; pathway doc on approval in day or two; Battelle looks good, but lacking cooperation; Dora label 82X - not unqualified - but can handle if two labs (after easier to work out); updates on KBA, funding schedule, file, attorney assignments, [illegible]
- task for next year: risk assessment for the pollutants in assessment area using existing data
6. Janet: John Kox no longer at MTW (personal issue apparently)
7. Kelly: $1.8M - $17K after OMB; don't know timing yet - probably first sign-off; RTB: want copies back
- meeting w/ Hartway; due to disclosure Ulrich/Hartway meeting (tomorrow); coordination issue SOL/FWS
- FPA update (came off. both sides)
- Tillett update (meeting and afterwards)
- other updates
- Upper Basin PCFA; reading room or copies?
8. Frank: detailed message: H-B; RO/legal update needed
9. read LKFW, BLREP; call Matt: left message
10. Joe back: back good

13 NOV 96
1. Rick Bratos, Mike Walsh
- my updates
- Mike: need case data for GB then '94 ('95 soon) from '86; in computer - can access fish effort / catch by species county, port of origin; in the final strategy planning doc. (what are prospects of finding large changes + how to proceed); will also do LK MI side; also counties by bay for focus groups (already have Bay Co.; stillwater etc.: Marinette Co. letter to Scott for E.L.; railroad fishers; random sample of anglers from Marinette now or retired; also Door Co.

+ Jerry in legal team for next call on question of testifying experts vs. consulting expert

- Experts: Kotchen C.V. in (Henry) - need contact for couple weeks of time; Vic Adamowicz (Conjoint Analysis)
Stoll: internal reviewer;
Bob Bowe talks to Dalmon - don't know survey status yet; Pat West mentioned another guy - still trying to get hold of him
- strategy doc. draft in about 2 wks
next call early DEC early in week
2. draft memo to Joel + Don re ~~Lake~~ Lake Apt
3. Tom Davis
- waiting room (me)
- AL. connect (Chris): NOV 27 or so until comment period
4. email Lake team cost. note + draft memo to Frank
5. note to Frank on Case Manager → assessment Manager
6. note to Frank, Janet, Jackie re off-site waiting room
7. ELR
8. read Wanomin treaty rights case dismissed

14 NOV 96

1. talk w/ Frank about communication: conf. call today w/ Frank + Shelly
- disagreement over how to structure case manager → assessment manager communication;
- my position: Frank should ① explain rationale for omitting communication of given nature; ② I should have benefit of knowing (+ being able to prove) that I am out of certain loops; ③ Frank should take the time to brief me every couple weeks on the major events on RO + legal team front. Bottom line: the assessment are related to the options available to RO managers. I have a role in exploring the limits of options which emerge from the facts/data/analysis of assessment
- Frank's position: ① certain topics are merely distractors from my work on the assessment; ② I do not need to know
2. Frank + Shelly + Joe
- meeting yesterday (come to Dave): Bill + John C. have been talking to folks + have ideas for the future
- had Bart shoot EPA enforcement + NRDA filing in near future
- Bill/J.C. idea: wants to work w/ PRPs; need alternatives other than claim for non-certain
- recognizing that must protect case (filing)
- window of opportunity to work together on Lukens: use tolling agreement for couple of months to see if PRPs willing
- 60 day notice of intent to file
- write short list of subjects (Nelba, Lumi, J.C.); not an enforceable agreement - just concepts
- use concepts to elaborate an MOU/MOA w/ tolling agreement for S.O.L./filing
- NRDA proceeds as before
- MOU by 31 JAN, the notice letter goes 31 JAN
- settlement discussions during tolling agreement; file if unsatisfied
- State should be player in this
- start w/ Deposit N as testing ground
- hold off on request for EC for 1 month

- legal team availability for NRDC effort? only for couple of weeks in JAN
- SOL efforts: 60 day notice letter (w/ DOJ); maybe assign to the legal team; refusal to DOJ (no matter what) in JAN; paragraph on 60-day notice letter w/ in concept paper transmittal letter. WE-AG contacts in JAN
- Hontzas/Adamsky conf. call yesterday morning
3. Shelly made cites for SOL; Joe will work on that
- waiver w/ Joe
- Shelly will call Joe tomorrow
- I can work in next week
4. ELR
5. meet w/ Mark + Ron (instead of MON)
- attorney contacts literally soon will put them directly into appropriate logs
- Mark + Ron will need to keep these logs going; contact Frank and to provide general updates; they won't pull us in when issues arise (+ updates generally)
- copy Mark + paper RE fish
- talked about LK trust; prospects poor - not going back this year
- Ron: need real data to support any risk assessments (e.g. hiring case)
6. Jackie: haven't gotten decision from Frank (just not to); we can look at room any time

18 NOV 96 8312 NCA: 4h WEEK 8/02

1. Jackie: Frank wants Joe + I to code all work to 8312 - no funds available 1130; from now on I will state in this notebook # of 8312 hours not directly cost recoverable, since no longer captured in time sheet
2. call Matt about 26 NOV 96 Barbour meeting; bft details
message
3. read SETAC info from Chris Cutler
4. read Rarity of U.S. Rob as finalists for chairs by friends bulletin
5. leave slip for Joe before T. Out
6. look at Joe's city for Shelly
- ask Frank for Horvath citation
7. Do they NRDC file (don't - watergate)
- Steve comments?
- Ron Reichart FOIA response?
- Hy B/Tillett memo or letter?
- Barbara room docs?
- personal file?
- should we budget ~$5K for transcripts
- budget meeting w/ Ron? 1st or 2nd week DEC; w/ Bill?
- SAB FAX note? - slip of ATTY assignments?
8. activity reporting for year
9. ELR: a circuit court upheld Weyerhaeuser; U.S. v. Olin Corp.; U.S. appeal it also
10. Joe on NCR
11. H-B/Tillett memo (sign, send, FAX, email)

19 NOV 96

1. Matt: don't know specifics; H-B asked him to come out to fill him in; probably ok for me to correct typos
2. updates (DOT/EPA/RO meeting); (NRDA work); billing agreement; etc.
3. Abe reading
4. sun shop Radlock
5. updates for Janet (attorney)
6. file back (2nd 3rd) - check ok
7. Frank: read NRDA briefing statement for EC/EOP meeting; Frank will add "solution track" update briefing statement; FAX + mail to Brad
8. Maureen: Gary Amendola was there 2 days; will follow up w/ me on P.H.S.I. docs; Maureen agrees w/ Madison meeting w/ Steve; Jeb will call Rep. Bridge about experts & will join not call; assignment made memo to memorialize; Bard about EOP contact products steps up PRP efforts
9. Briefings: New Congress! 12/12/96, 01/24/97, 02/27/97
10. ELK

20 NOV 96 (home)

1. APX into dBASE; files in good shape post-copying
2. TSP calculations
3. look thru my old work

444-759-1033

21 NOV 96

1. Joe talked to: Chuck Raasan (Marketplace Magazine, Kaiser); Jeff DeWeert (Environet) - sending FOIA; has A.I.P. will send FOIA, writing article; wants to talk to people
2. [redacted] query Norton: needs mail address
3. Susan Campbell: returned message
4. Mike Schonegard: talked to Susan Campbell; told her to read the A.I.P.
5. email to Frank + Sally on DeWeert FOIA; FAX also
6. email to Ken on libel attorney + libel case; to Mark on tool
7. Susan Campbell: Saturday story
   - ~~called~~ 1½ hour conversation
   - Process; history (PAS, PRP, notice, A.I.P. report)
   - Process; future: Colby + the quintet will select data ASAP; draw conclusions about what must be done to fix site + make public whole; attempt to reach agreement on restoration; ability to reach agreement + ability to collect the data will determine the type + timing of outcome; moment of solicitude when the urge, S.O.L.?; not expert, not able to comment; CERCLA 113 addresses - can read & draw own conclusions; if there are any internal battles, passage of time brings us closer; ~~[illegible]~~
   - Size of area too large; no one has claim to state a size - pure speculation; we will follow pathways + inquiries where they lead; public has right to know its facts, we have obligation to find out; would be arbitrary to set a boundary at this time; size could affect magnitude + difficulty of cleanup - limit actual work to a small area

- FRC interpose? has not in fact (1992); we are supporting (sought to be admitted as observers) next mtg. to assist of all parties: FRC, RAP, WDNR, EPA, NRDA, etc.; different foci will result in mutually useable data for rational decision-making; everyone agrees that; urgency of moving ~~ahead~~ ~~makes~~ slow down or stop unacceptable; NRDAs ~~don't~~ ~~have~~ to have bad to true, not much litigation; if contentious if will be leaner or disagreement over how much effort needed - regardless of forum; allocation ~~of~~ will be necessary for any actor responsibility will be necessary for any actor
- Punitive? Statute forbids & we're not interested; want to figure out how to make public whole ~~then~~ try to track against or implicate; public has right to be made whole - not a question of personal, responsible parties vs. not responsible - what should pay?
- Bankruptcy? NRDA is legitimate analysis of what needed to restore; legal question of how to achieve if contentious; U.S. does not bankrupt anyone w/ compensatory claims - know of no examples (I know examples of when U.S. has refused)
- Big $ only way to resolve? Statute requires all $ + actions for site (no treaty) (except emerg. cost) don't know magnitude until ~~RD~~ data; engineering exercise (a la FRC) is pure speculation: could be larger or smaller (happy examples); distribution ~~of~~ what actor has precedent (Metro - Dan ~~?~~ could) size range historically?: NOAA, DOI, RJ

have specifics; largest Exxon but don't know split; order of $1B total for Texas; smallest Gulf Coast cases ~$10K; N.B. Harbor ~$100M; BN $140K
- other cases folks?: NBH; Montana; Cuba, Kelly
- lots of details on process & how data needed to figure out appropriate action (incl. other non-NRDA data)
- avoid legal strategy & state-specific data collection efforts; counsel vs. quotes re same (or will not be willing or allowed to talk again)
- closing on A.I. consortia? 25 NOV
- roles: ~~Gale~~ Joe: Assess. Manager: coordinate data collection; Frank is case manager: coordinate
8. Send $ to ~~Gale~~ Joe; $10-20K available for Hempfield? probably - I'll tell Frank too
9. Don Hess: letter/message
10. Daily update w/ Campbell discussion summary

22 NOV 96
1. email to Glen Wade on standing the Lake Mi Mass Balance Tech. meeting (10-12 DEC, L. MI room)
2. call Jim Habeby: left message to call MON or TUE
3. get bills for Roy
4. call Josh & Doug: left message
5. email to Rick Bishop for conf. call 1st week DEC.
6. draft letter of response for De Wael letter
7. AII (Joe NKA)

25 NOV 96 sick 7h NCR: 25h WEEK 8/02

1. 2h on mail & prior summary for Brad

26 NOV 96

1. Ron Yane: spoke to WI RRT rep.; EPA involvement?
   - continue updates
   - Bill get back to Brenda Hyman w/ proof of billing to work w/in the WONR/EPA check
2. mail a
3. Joe to get VCR tapes of Tv news stories
4. Joe to make R.R. appointments for Dr Watt & Vanhabat
5. H-B pathway conf. call/meeting: talk to Doug
   - Matt late; will call
   - heads up on prior & RC plan which could lead to billing or other letter
6. call Brad about conf. call on pathways, respond to work letter, conversation later today
7. Glen Warren: would rather that I not attend, but can't stop me
   - can raise w/ management or not (up to me)
8. Tom Custer: good STEP 1 meeting; got keys; assignments, dates; ; car pool (tell Jackie)
   - update
   - update of T&SV data for (pathways conf. call)
9. Matt, Doug, Brad, Dave Cacada, Shelly, Dave, Joe (see agenda)
   - prior given (all)
   - PCB mandatory in environment (Doug)

also Steve & work letter

10. call Linda Holst about Glen Warren; left detailed message
11. call Frank
    - Glen Warren situation; go
    - P.R. situation;
    - will meet w/ F.C. today
    - data from F.C.: 2:15 today; call w/ Holly & Sandi (1 page concept paper - Frank has); By 05 DEC: meet each owner (Bill F.C., Roger PRP, Richard); the next circle out w/ Jamie & Dulles & DOT SEC; the Commissioners; Dec 16-20: major planning session w/ merger, Adam Jue, PRPs, etc.: sign on to paper; maybe prep release after (or concept agreed); D.C. briefing (PRPs, State, Fed invited)
    - call from Mark Foley; Honeywell; need verification what for specifically, bills to date, low $$, & mechanism for payment; need my recommendation.
    - update
12. Jim Hahnenberg: left message
13. Dave sign; mail or last pay period
14. language for response to Meyer letter; mail to Brad
15. mail to Mark & Dan or Honeywell
16. mail to Jackie or paying Diane Krabel
17. Jim Hahnenberg
    - calls? taking over for Linda Holst
    - public meetings
    - on work letter
    - update
18. daily update

27 NOV 96 96 comp time off 28 NOV 96 96 Holiday

02 DEC 98 NCR: 2h WEEK 8/03

1. look at Lesa Gazette opinion
2. note from Linda: ok to attend mass balance meeting; she talked to Callie Bolattino + Paul Houston
3. looked at note from Tillett
4. mail travel claim
5. Ray Palmer: Dick Baldwood last WED - having a person look over Brad's shoulder; Brad says going well up to waterjacket; told may also stabilization process, so far so good; talked to DOT about $1M cash out w/some for restoration: have had appraisal done w/cash out; may do mini-appraisal & go for judicial consent decree; Bala Lehot assigned slow response; Haber anxious; have not heard from Skelly; hope DOT won't try to re-negotiate
6. Mass bal/Mark + Ken (2 hours)
- take Mark apparent error & update
- comment work to be done
- update on RD & EPA + legal team + press
7. mail to Frank + Jon or press
8. Frank: draft of concept paper (not allowed to distribute); FAXed 2 notes on it; talked to Maureen Katz; less definitions (remediation, restoration, compensation) - more restrictive than statute/regs (J.C. says Keller says right out of gate)
- Maureen had 15th Rangers only call; they want conf call w/Josh on products from 5 modules - should be on

- comments on A.P.; tell Brad originals - Bates stamp - date link
9. call Skelly about refusal and concept paper: left message
10. call Susan about refusal and concept paper: left message
11. call Josh about concept paper: left message
- he available all this week to help
12. talk to Skelly about refusal and concept paper

03 DEC 98

1. daily update
2. mail to Frank and Jon on A.P.
3. Maureen
- call Gary Amendola about this week
- legal team call/meeting on the 9:00 Central from Chicago
- review of concept paper
4. call Gary Amendola: left message
5. Susan
- concept paper back up
- need fish call (Susan, Jon, Josh me): 12th or 18th
- send Tillett confidential against and IAG
- 106 strategy
- take Michigan mass balance meeting
6. call Josh (call Susan)
- conf call 10th; conf. call 12th or (18th) (fail)
- take Michigan mass balance meeting
- final comments on concept paper
7. uniform forms to Jane
8. memo to Josh for C.I. analysis
9. mail to Frank on C.I.
10. draft concept paper + basis memo

04 DEC 96

1. Roger Lunde
- 8-10 FSA docmts to me, Shelly, Hank - to Snowbow
FSA handles P.R.
- lining up Conf. room 9-11 am on 10th (6th flor); room 611 (Tom Alcamo) - ask receptionist for plans if necessary
- Concept Paper review
2. Joel Lipton: disk corrupted; trying to recover; see final if stored, and draft & discuss the finding letter if necessary; and outline & discuss & finalize if isn't stored
3. Emily ? (Sierra Club): S.O.L. Mark? - WONR SEC said so in paper - don't know his bases; many interpretations, no case law, moving toward S.O.L. if one exists - no position from Feds has been stated - they should like attack in paper - will be watching
- I said would be good for media audience to read w/
4. Susan: 2:30 Friday 10th
5. finish memo to Frank on concept paper; FAX w/ packet to Pete Cockwell, Shelly Hall, Maureen Kelly, Joel Lipton
- also one to Skinner/Walmsley (mail)
6. Pete C.: did I FAX the C.P. Zambia? - he'd like to see it too
- I will FAX my FAX (done)
- disagree w/ certain parts of the H-B memo (future damages; OP by rule)
7. note to Walmsley & Skinner on C.P.
8. daily update

05 DEC 96

1. note to Walmsley & Skinner via regular mail
2. briefing materials for Engel: mailed & FAX'd
3. call Engel: left detailed message
- got comments: stamping today, will distribute ASAP
- bring them to briefing as prep.
- briefing materials set
- call to stage plan
4. leave slips to Jackie for 10-28/10-31
5. forward Fletcher C.P. to Maureen
6. Mike Walsh: message
7. ELR update
8. call Gary Amendola: left message about WI meeting, Katy
9. call Tom Eckman: no answer
10. Rich Bishop: trying to get statutes together - will be next week before finished
11. Gary Amendola: 18th/19th, G.B./Madison: met w/ Steve on 17th (filed down in notes)
12. call & mail Jeff Steve about meeting on 17th (left message)
13. email to Engel, Mark, Joel, Bob, Steve, Maureen, on fish re ecor. work

— over —

06 FEB 98

1. Jeff Sewe: 17th fine
2. talk w/ Mark Holt + Don Tillitt
   - like tight efficient update
   - possibility for additional work (grading on site)
3. talk w/ Mike about J.C. + C.P.
4. call Jon Waltzberg about C.P. analysis; left message
5. call Doug Dalton: left message (detailed)
   - Lake Michigan Mass Balance Tech. meeting
   - progress or lake chair?
   - progress on pathway document?
6. Frank + Rich: no conf. call today
7. call Annabel + Steve to try for Green Bay 17th
8. note on Atl. comments to Marcia, Shelly, Frank, Jack
   - copy comments
   - to Joe for transmittal

09 FEB 98 NCR 10A WEEK 8/04

1. call Frank (not there - message), Shelly (not there, no message), Marcia about C.P.
   - apparently we spoke; Bob + Pete's comments; apparently T.C. to respond to final last FRI, supposed to be something today
2. clear mail
3. Frank
   - A.P. comments: download + timeline, strategy + get busy - in from Shelly
   - Wonderful thermite analysis: send necessary papers (quality)
   - analytical lab (Baltimore has been calling) J. Bohon

1. send Joe's fish list to Jack.
   - before I: need details of sample + analysis
   - Joan Duffield not w/ Bill + T.L.: Joan will probably call
   - RCOP to F.R.; need to spell "Summit"; figure out how subs for both, plus P.R.
   - MOU development + billing agreement; talk to Shelly
4. travel to Chicago

10 FEB 98 (Chicago)

1. Room 611 (312-886-0824) (Roger Greene → Tom Alcamo)
   Conf. call on legal/technical (Marcia, Frank, Jack, Susan, Shelly, Dawn, Joan)
   - how to coordinate legal team w/ technical team (Jack)
     1° fish + sediment
     2° pathway, limits, analytical chem., QA/QC, status
     3° mammals
   - weekly legal conf. call for consistent strategy and approach
   - strategy for viewing A.P. comments; RCOP process + strategy

8. call Roger Stone about 22 JAN 96
9. call Joel about 22nd
10. call Gary Arenda about 22nd
11. call Brent about 22nd
12. call Maureen about 22nd
13. Susan Campbell
    431-8379 FAX
    - another story more from memo. said
14. Josh (from car)
    - Tribal: want to know about $; need w/ them on boat bay for the lucs; Cadwick: sent letter coming soon; Ted Cox Mannion for contact
15. mail to Frank & Jon or Lou-Lynette

16. Lahy update
17. concept paper note to Dellt, Sobczyk, Gard, Rhoe, Nelson
18. FAX WRES PRO letter to Susan Campbell at her request

18 DEC 96
1. Marcus: WDNR briefing; filbo; Lemmett
2. Jack: WDNR briefing
3. Marcus: POTWs as PRPs? PCBs from mills; no protocol equivalents until 1995; hysteria; many not worth board; pa
4. Jim Hahnenberg: 22 JAN 96 meeting
- updates
- Concept Paper; "appropriate" vs "protective";
~~Bypass~~ 50-year 20M
5. Julie Halpert: returned message
6. review admin file
7. NCR & Aft file summaries to Marcus
8. additional C.P. letter to Susan Campbell
9. Kwiatkowski to D.C. on C.P.
10. memo to Kreis ~~clarification~~ ~~Briefing~~ data
11. letter to Marcus on briefing

19 DEC 96
1. letters to Susan Campbell
2. Julie Halpert (Water Policy Report)
- sent over white NRDA (no quotes)
3. Conf call on A.P. Comments (Marcus, Shelly, Lindy, Jack, David)

1. ~~"X"~~ proposed instructions for H-B (Shelly sheet)
Color Factors on briefs

floor going to meeting tomorrow
- vapor cap
- trusteeship
- FRC
- public repository
- eliminate LK MK
- feasible, conf. of spouse, max. constituent limits, CVM not valid etc. - standard PRP response
- don't consider other contaminants
- buoyancy
- no proof of injury
- S.O.L.
- page 3 B&D: admission of injury to fish, sediments
- post spacer
- other contaminants; other factors
- absence of continuing release; pre-CERCLA releases
- Tribal trusteeship
- Coweeta fish consumption advisory as injury
- population effects
- egg ingestion studies; don't support metals claims
- address & support
- cited & release from advocates gp for fish ingestion
- RAPP; vapor pressure - support can add some detail
- need RCDT
- no A.R. changes made; suppl to in future (FRN)
to include A.P.; responsive summary for report
Assmt (draft) promised for now; finish late),
maybe some A.P. too as well)

4. Frank: update
5. Susan Campbell: MOA & C.I. discussion; gave Jan Delfado & Bill Hastings #'s
6. Maureen, Bob Rowe, David Allen, Rick Korpath, Shelly Hall, Jan Delfado: conf. call
7. Julie Halpert: other NRO sites?
8. Doug Baltmar
- Ste Diamond: Post-Doc at Duluth EAP lab
- Doug can't make 22 JAN meeting; David Mayer visited

20 DEC 96
1. draft response to GOV letter; email to Bryant
2. Julie Halpert: nationally important? yes (home: 313-995-0920)
3. FAX press gazette story to Jan & Frank; email as well
4. mail: daily update → Jan → Bill → me (+ other); all press contacts to Jan & Bill; responded w/ advice or coming up to speed & upcoming story
5. Maureen / Frank: confidentiality of Cowgirl Papers; Paper mills had "bad attack" about 2 years ago; got back & stamp "confidential" if possible - can't more than that
- Outline; NCR/Julie/Jan 1st draft of MOU; 2nd from Shelly
- Frank will call tonight or tomorrow to deliver

NCR: 25h

WEEK 8/06

23 DEC 96
T, Linda Holst
- list of updates last week
2. Maureen Kelly
- update on meeting
- NOAA
- JC
- WONX / PRRs
- info. (historical; public comments; negotiator; FWS activities at site)
- she will send outline
3. Compile all FEIS PRSNA negotiation documentation; send to Jan, Frank, John Lenz, Roger Stein & Maureen

24 DEC - 02 JAN 97: off (holiday, comp; & A.L.)

WEEK 8/07

NCR: 30h

02 JAN 97
1. talk w/ Kn: need to get Photo engaged on land card; need to address P.6. "legal status" witness
2. clear mail
3. clear mail
4. send select admin file
5. chronology & FWS activities memo to Maureen
6. Tony Wolf: send summary: done
7. Jean Hahnenberg: return message: will send this week's hits
8. Jan Jacobs: return message
9. Julie Moir: Bill Hastings looking for GOV-SEC letter
- send my stuff up
